

# Application for Water Right Instream Transfer

Oregon Water Resources Department  
725 Summer Street NE, Suite A  
Salem, Oregon 97301-1266  
(503) 986-0900  
www.wrd.state.or.us

## Part 1 of 5 – Minimum Requirements Checklist

**This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.**  
For questions, please call (503) 986-0900, and ask for Transfer Section.

### FOR ALL INSTREAM TRANSFER APPLICATIONS

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Map Checklist.
- Part 3 – Completed Instream Transfer Application – Applicant Information and Signature.
- Part 4 – Completed Instream Transfer Application – Water Right Information. Please include a separate Part 4 for each water right. List all water right certificates to be transferred here: C31332, C27802
- Part 5 – Completed Instream Transfer Application - Proposed Instream Use Information.

#### Attachments:

- Completed Instream Transfer Application Map. One for each transfer
- Completed Evidence of Use Affidavit and supporting documentation.
- Fees – Amount enclosed: \$ 1000.00  
See the Department's Fee Schedule at [www.wrd.state.or.us](http://www.wrd.state.or.us) or call (503) 986-0883.  
Note: Instream transfers are considered both a change in place of use and character of use. In addition, an automatic 50% fee waiver applies to all instream transfers.
- N/A Affidavit(s) of Consent.
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- Land Use Notice - Notice of the intent to file an instream transfer application must be provided to each affected local government along the proposed reach. Copies of the notices must be enclosed with the instream transfer application.

**RECEIVED**

## Part 2 of 5 – Map Checklist

**Your transfer application will be returned if any of the map requirements listed below are not met.**

**Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.**

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For list of CWREs see [http://www1.wrd.state.or.us/pdfs/cwre\\_listing.pdf](http://www1.wrd.state.or.us/pdfs/cwre_listing.pdf).
- OR**
- N/A Waiver of requirement that map be prepared by a CWRE. Completed map waiver form is signed by the Department's Regional Manager and included in the application. The map **must** still meet Department mapping requirements described below.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on white or clear paper or film.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, three (3) paper copies and an electronic copy in a .pdf, .tiff or .jpg format are required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, quarter-quarter, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- Existing diversion point(s) with distance and bearing or coordinates from a recognized survey corner. This information can generally be found in your water right certificate or permit.

Please use a separate Part 4 for each water right being changed. See instructions at <http://www.wrd.state.or.us/OWRD/PUBS/forms.shtml>.

**RECEIVED**

CERTIFICATE # C27802

Name on Certificate: Bate Lumber Co.

FEB 09 2012

Date(s) of Priority: January 7, 1957

WATER RESOURCES DEPT  
SALEM, OREGON

Source(s) of Water to be Affected by the Transfer: Louse Creek

**Description of Water Delivery System**

System capacity: 0.1 cubic feet per second (cfs) OR  
\_\_\_\_\_ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use.

Suction pump located in pump house adjacent to the Louse Ck. Water is pumped into the industrial park piping system for use in mill ponds for industrial and fire protection uses.

**Other Water Rights**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: \_\_\_\_\_

C27800-C27803, C21968, C21969, C13334, GR3519-GR3522, C52994

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

**Table 1. Location of Authorized Point(s) of Diversion (POD)**

(Note: If the POD name is not specified on the certificate, assign it a name or number here. Also, if the POD is not described in the Certificate, provide a description below)

POD Name or Number	Priority Date (if different between PODs)	Twp	Rng	Sec	1/4 1/4	Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
Louse Ck.	1/7/1957	35S	6W	21	SW1/4, NE1/4	200	1210' north, 58.99E

**Will the proposed instream transfer affect the entire water right?**

Yes Then Table 2 on Page 6 does not need to be completed.

No Then complete all of Table 2 to describe the portion of the water right to be changed.

Please use additional pages of Table 2 as needed

**Table 2. Description of Change to Water Right Certificate # N/A**

List only the part of the right that will be changed. For the acreage in each quarter-quarter, list the change proposed. If more than one change, specify the acreage associated with each change. If more than one POD, specify the acreage associated with each POD.

Twp		Rng		Sec		¼¼		Tax Lot	Gov't Lot or DLC	Acres if Applicable	Type of USE listed on Certificate	Priority Date (if not the same for all acres or type of use)	POD(s) (name or number from Table 1)

 \_\_\_\_\_

1 11353

**Part 5 of 5 – Proposed Instream Use Information**

**Identify the Public Use for which the instream right is requested (check at least one box):**

- Conservation, maintenance and enhancement of aquatic and fish life, wildlife, fish and wildlife habitat and other ecological values.
- Recreation
- Navigation
- Pollution Abatement

**Instream use proposed to be created by the instream transfer:**

Originating Water Right Number (as identified in Part 4)	Priority Date	Source	Proposed Instream Period	Rate (cfs)*	Volume (ac-ft)**
C31332	June 25, 1893	Louse Creek (Seasonal)	1/1-12/31	0.06	25.32
C27802	January 7, 1957	Louse Creek	1/1-12/31	0.10	72.4
<b>TOTAL VOLUME</b>					115.8

**\*Tip:** To calculate rate (if other than the rate allowed by the right), divide the volume by the number of days in the period and then divide by 1.983471; or

**\*\*Tip:** To calculate volume, multiply the rate by the number of days in the instream period and then multiply by 1.983471.

Note: The instream rate may not exceed the max rate allowed by the existing right(s) and the total volume may not exceed to max volume or duty allowed by the existing right(s).

Additional Information: \_\_\_\_\_

**Identify the location of the proposed instream water right.**

- Water is requested to be protected at a point.  
Location (i.e. the point of diversion (POD) – use the POD Name or Number from Table 1):  
Louse Creek Intake
- Water is requested to be protected within a reach:  
Location of proposed reach (If an instream water right reach is requested, identify the upstream and downstream extent of the reach): \_\_\_\_\_

**Recommendations for conditions on the instream use to avoid taking away or impairing existing water rights.**

- None
- Other (such conditions may include, but are not limited to, reductions in the instream flow levels in cfs per month or total ac-ft, the effective reach(es) or lake levels of the instream flow, measuring locations and the strategy for monitoring the instream flow or lake levels): \_\_\_\_\_

**RECEIVED**

**Are there any existing instream water rights on the same point or within the same requested reach(es) or lake, or on a portion thereof:**

No

Yes (identify other instream water rights): \_\_\_\_\_  
ODWR-72684, 73037

Note: New instream water rights are generally (but not always) additive to instream water rights established under ORS 537.348 (instream transfer application process) and ORS 537.470 (allocation of conserved water) and replace a portion of instream water rights established under ORS 537.341 (state agency application process) or ORS 537.346 (conversion of minimum perennial streamflows) with an earlier priority date.

Is it your intent to have the proposed instream water right transfer be additive to any instream water right established under ORS 537.348 and ORS 537.470 and replace a portion of any instream water right established under ORS 537.341 and ORS 537.346 with an earlier priority date?

Yes

No. If no, please explain your intent below:

If the proposed conversion would add to the amounts of an existing instream water right(s) established under ORS 537.341 or 537.346, provide documentation demonstrating why additional instream flows are necessary. Supporting documentation should include information from the Oregon Dept. of Fish and Wildlife (ODFW) (fish life), Dept. of Environmental Quality (DEQ) (pollution abatement), and/or Parks and Recreation Dept. (recreation).

**Is the requested instream flow intended to exceed the estimated average natural flow or level occurring from the drainage system?**

No; **OR**

Yes (Provide supporting documentation that demonstrates why additional flows are significant for the public use requested.); **OR**

Yes, and it is presumed that flows that exceed the estimated average natural flow or natural lake levels are significant because:

The requested flow does not exceed the maximum amount of any instream water right application applied for under ORS 537.341 (state agency instream water right application process) for the same reach or portion thereof, and the requested public use is for the same public use as the afore mentioned instream water right application, **and**

For the specified time period that flows are requested to exceed the estimated average natural flow or lake level, the stream is in an ODFW flow restoration priority watershed. A copy of the priority watershed map indicating the specific watershed involved should be included with the application. Priority watershed maps may be found on the OWRD web page; **or**

The stream is listed as water quality limited and DEQ has provided scientific information that demonstrates that increased flows would improve water quality. The scientific information provided by DEQ should be included with the transfer application.

**For a Time Limited Instream Transfer, please answer the following:**

The time-limited instream transfer is for a specific number of years:

\_\_\_\_\_ Begin Year to \_\_\_\_\_ End Year

Time-limited instream transfer is to terminate based upon other conditions:

 www.wrd.state.or.us

Please print legibly or type. Be as specific as possible. Attach additional pages if you need more spacing. Supporting documentation must be attached.

State of Oregon )  
 )  
 County of Josephine ) SS

I, Patrick Engel, in my capacity as General Manager,  
 mailing address 700 Merlin Rd. Grants Pass, OR 97526  
 telephone number (541) 476 1841, being first duly sworn depose and say:

1. My knowledge of the exercise or status of the water right is based on (check one):  
 Personal observation       Professional expertise

**RECEIVED**

FEB 09 2012

WATER RESOURCES DEPT  
 SALEM, OREGON

2. I attest that:

Water was used during the previous five years on the **entire** place of use for Certificate # \_\_\_\_\_; **OR** C27802, C31332

My knowledge is specific to the use of water at the following locations within the last five years:

Certificate #	Township		Range		Mer	Sec	¼ ¼	Gov't Lot or DLC	Acres (if applicable)

OR

- Confirming Certificate # \_\_\_\_\_ has been issued within the past five years; **OR**
- Part or all of the water right was leased instream at some time within the last five years. The instream lease number is: \_\_\_\_\_ (Note: If the entire right proposed for transfer was not leased, additional evidence of use is needed for the portion not leased instream.); **OR**
- The water right is not subject to forfeiture and documentation that a presumption of forfeiture for non-use would be rebutted under ORS 540.610(2) is attached.
- Water has been used at the actual current point of diversion or appropriation for more than 10 years for Certificate # \_\_\_\_\_ (For Historic POD/POA Transfers)

(continues on reverse side)

3. The water right was used for: (e.g., crops, pasture, etc.): General Industrial and Commercial Use
4. I understand that if I do not attach one or more of the documents shown in the table below to support the above statements, my application will be considered incomplete.

## Water Right Transfer Supplemental Form Waiver of Mapping Requirements

The Director may waive or assist a transfer applicant in satisfying the mapping requirements (OAR 690-380-3100) for certain transfers if the criteria described in this form are met pursuant to OAR 690-380-3410.

This form must be prepared by the transfer applicant and the appropriate Regional Manager for the Oregon Water Resources Department. To prepare the form, a copy of the complete transfer application, including a description of the water rights to be transferred, must be provided to the Regional Manager.

This map waiver form must be signed by the Regional Manager and submitted with the transfer application.

Transfer Applicant: Rendata Industrial Park,

Water Right(s) to be transferred: C31332, C27802

1. The transfer **must** be one of the following. Please check the appropriate box.

- An instream transfer application filed pursuant to ORS 537.348.
- A transfer application necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.375; or
- The transfer application is determined and endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat.

2. For an **instream transfer application filed pursuant to ORS 537.348**, a map waiver shall only be approved if the application meets one of the following additional criteria. Please check the appropriate box.

- The entirety of the right is being transferred to an instream water right and the location of the instream water right can be clearly delineated through reference to the existing point of diversion for the transferred right and other points of diversion or geographic reference points such as the mouth of the stream; or
- A map meeting the requirements of the transfer rules (OAR 690-380-3100) is available showing the lands not included in the transfer and the location of the instream water right can be clearly delineated through reference to the existing point of diversion for the transferred right and other points of diversion or geographic reference points such as the mouth of the stream. (Please include copy of map(s) with transfer application.)

3. For a transfer application meeting any one of the criteria identified in #1 (including an instream transfer application), a waiver may also be approved if other circumstances are present that make an application map unnecessary. If #2 does not apply, but circumstances are present that make an application map unnecessary, describe those circumstances below:

The existing certificates do not specifically describe the point of diversion (POD) for the certificates. Certificate C31332 provides no description of the POD and C27802 provides a quarter-quarter (40-Ac) tract of land for location of the POD. The historic/current location of the POD is as described on the maps (one for each cert.) provided.

Given that the intake at the POD is a flexible (3") suction pipe that is manually laid in Louse Creek, its location varies by several feet depending on stream stage. Therefore, accuracy of CWRE prepared map does not appear to be necessary or practical given the physical situation of the intake location. The location of the POD is therefore suitably described for the purpose of this transfer.

4. For any transfer application meeting one or more of the criteria identified in #1 that does not meet the criteria for a waiver as described in #2 or #3, the Department may assist the applicant in development of the application map. The Department (through the regional office) may provide this assistance at the discretion of the appropriate Regional Manager. Please check the appropriate box below if the Department has provided assistance in development of the transfer application map:

A map meeting the requirements of OAR 690-380-3100 has been prepared by Department staff and is included with the transfer application.

The map provided with the transfer application has been developed with assistance from Department staff and meets the requirements of OAR 690-380-3100.
