SUBJECT: Water Right Transfer Application T-11278

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-11278. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in The Dalles Chronicle newspaper, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the last date of newspaper publication.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me at if I may be of assistance.

Sincerely,

Transfer Specialist
Transfer and Conservation Section

Authority

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department’s procedures and criteria for evaluating transfer applications.

Findings of Fact

Background

1. On August 4, 2011, Monte and Jan Wasson filed an application for an additional point of appropriation under Certificate 56174. The Department assigned the application number T-11278.

2. The portion of the right to be transferred is as follows:

Certificate: 56174 in the name of Davidson Brothers (perfected under Permit G-5554)

Use: Supplemental irrigation of 55.72 acres

Priority Date: April 25, 1972

Rate: 0.44 cubic foot per second

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3 acre-feet per acre for each acre irrigated during the irrigation season of each year and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Source: A well within the Eightmile Creek (Fifteenmile Creek Basin)

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

Authorized Point of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
1 S	13 E	WM	15	NW SW	1440 FEET NORTH AND 990 FEET EAST FROM SW CORNER OF SECTION 15

Authorized Place of Use:

SUPPLEMENTAL IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
1 S	13 E	WM	15	SE NW	13.60
1 S	13 E	WM	15	NE SW	20.60
1 S	13 E	WM	15	NW SW	6.00
1 S	13 E	WM	15	SW SW	15.52

3. Transfer Application T-11278 proposes an additional point of appropriation approximately 1550 feet from the existing point of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
1 S	13 E	WM	15	SE NW	2842 FEET NORTH AND 1662 FEET EAST FROM THE SW CORNER OF SECTION 15

4. Notice of the application for transfer was published on August 9, 2011, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
5. On February 14, 2012, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-11278 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of March 15, 2012, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

Transfer Review Criteria (OAR 690-380-4010)

6. Water has been used within the last five years prior to the submittal of Transfer Application T-11278 according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
7. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-11278.
8. The proposed change would not result in enlargement of the right.
9. The proposed change would not result in injury to other water rights.

Determination and Proposed Action

The additional point of appropriation proposed in Transfer Application T-11278 appears to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

If Transfer Application T-11278 is approved, the final order will include the following:

- 1. The additional point of appropriation proposed in application T-11278 is approved.*
- 2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 56174 and any related decree.*
- 3. Water right certificate 56174 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.*
- 4. The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.*
- 5. Water use measurement conditions:*
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation.*
 - b. The water user shall maintain the meter or measuring devices in good working order.*
 - c. The water user shall allow the Watermaster access to the meter or measuring devices; provided however, where the meter or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
- 6. Water shall be acquired from the same aquifer (water source) as the original point of appropriation and the Department has determined (WASC 51533) does develop the same aquifer (source) as the existing authorized point of appropriation (WASC 3413).*
- 7. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2015**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*
- 8. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*

Dated at Salem, Oregon this 13 day of March, 2012.
