In your own words tell us what modifications you want made to this ground water registration: **The land being irrigated under GR-772 is growing blue berries. The lessee has made improvements to the land and irrigation system including placement of drip irrigation and the construction of 2 new wells (POA #4 and #5) that are being used as water sources. There is an existing well (POA #6) that will be used as an additional water source.**

The requested modifications are:

1. **Cancel authorized POA Well # 1**
2. **Designate POA Well # 4, # 5 and # 6 as the authorized replacement sources**
3. **Place of Use change for irrigated areas in the 1/4 1/4 sections not covered by GR-772. By doing this, there will be a portion of the farmed ground that is irrigated, but not covered by a water right. Concurrently, we are applying for a new ground water right to cover these "from" irrigated lands.**

**For a modification in place of use or character of use:**

**Are there other water right certificates, water use permits, or ground water registrations associated with the “from” or “to” lands?**  Yes  No

If YES, list the other certificate, water use permit, or other ground water registration numbers:  
**GR-773 & GR-774**

Pursuant to OAR 690-382-0200, any “layered” water use, such as an irrigation right that is supplemental to a primary irrigation right proposed for transfer, must be concurrently transferred with the registration or be cancelled. Any change to a water right must be filed separately in a transfer application. Any change to a water use permit must be filed separately with a permit amendment. Any modification to a ground water registration on the “to” lands must be filed separately with a ground water registration modification.

**For modifications in point(s) of appropriation (well(s) or additional point(s) of appropriation:**

- Well log(s) are attached for each well that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.  
(Tip: You may search for well logs on the Department’s web page at:  
[http://apps2.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps2.wrd.state.or.us/apps/gw/well_log/Default.aspx))

**OR**

- Describe the construction of the well(s) in Table 3 for any wells that do not have a well log.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist or certified water right examiner for the proper information needed to complete the table.
