If there are proposed point(s) of appropriation (wells) listed in the table above, are the well(s) already constructed?

Yes  No  N/A – No proposed well(s) listed above.

If “Yes”, attach and clearly label the corresponding well log(s) for each proposed well, or if well log(s) are not available, describe the construction of the well(s) using the table below. (NOTE: You may search for well logs on the Department’s web page at: <http://www.wrd.state.or.us>)

If “No”, describe the anticipated construction for the proposed well(s) in the following table:

**Construction of Proposed Point(s) of Appropriation or Well(s)**

Wells in this listing must be clearly tied to corresponding well location(s) described in the table above and shown on the accompanying application map.

Remarks: We propose Ditchens' Wells #1 & #2 to be the Points of Appropriation for the acres located in Section 20, T3N, R30E, WM. Ditchens' Wells are recognized as being in the same sub areas (H) as Hale's Well #3, in the Stage Gulch Critical Ground Water Order.

Acres in Circle #90 are described in Certificate 84095. Certificate 84095 was allocated no water in the Stage Gulch Critical Groundwater Order during the 2012 Irrigation Season, thus we are making the 10.5\* Acres supplemental to this Certificate with this temporary transfer

The existing water right described in Permit S-54561 located in the areas (proposed) receiving Certificate 85124 under this temporary transfer will not be used or transferred during this transfer.

The following information must be provided only for those points of diversion or appropriation that are involved in the transfer (i.e., list only the portion of the water right you propose to transfer.) Attach additional pages as necessary.

A Point of Diversion (POD) describes the location of diversion from a surface water source.

A Point of Appropriation (POA) describes the location of appropriation from a ground water source or well.

If a point of diversion or appropriation is not numbered on the decree or water right certificate or permit, assign it a unique number in the following table (e.g. POD #1 or POA(well) #1). Use the number to refer to the point of diversion or appropriation serving the place of use described in Table I (Authorized Place of Use) and Table II (Proposed Place of Use).

**Location of Existing Authorized Point(s) of Diversion or Appropriation to be Changed:**

(i.e., the allowed point(s) of diversion or appropriation listed on the water right that will be affected by the proposed transfer, the "OFF or FROM" point(s) of diversion or appropriation)  
 Government lot(GOV" T LOT) and donation land claim numbers (DLC) must be included in the table below only if the information is reflected on the existing water right.

- Does the water right being transferred involve a ground water source(s)?
  - Yes
  - No (Surface water source only.)

If "Yes", for each authorized point of appropriation (well) involved, you must either:

A. Supply a copy of the well log(s) for each point of appropriation that is clearly labeled and associated with the corresponding well in the table above and on the accompanying application map. (NOTE: You may search for well logs on the Department's web page at: <http://www.wrd.state.or.us>)

OR

B. If a well log is not available, you must describe the construction of the authorized point of appropriation by completing the table below. Attach additional copies as necessary.

**Construction of Existing Authorized Point(s) of Appropriation – (Only needed if no well log is available.)**

Wells in this listing must be clearly tied to corresponding well location(s) described in the table above and shown on the accompanying application map.

The following information **must be provided** only for those points of diversion or appropriation that are involved in the transfer (i.e., list only the portion of the water right you propose to transfer.) Attach additional pages as necessary.

A Point of Diversion (POD) describes the location of diversion from a surface water source.  
 A Point of Appropriation (POA) describes the location of appropriation from a ground water source or well.

If a point of diversion or appropriation is not numbered on the decree or water right certificate or permit, assign it a unique number in the following table (e.g. POD #1 or POA(well) #1). Use the number to refer to the point of diversion or appropriation serving the place of use described in Table I (Authorized Place of Use) and Table II (Proposed Place of Use).

**Location of Existing Authorized Point(s) of Diversion or Appropriation to be Changed:**

(i.e., the allowed point(s) of diversion or appropriation listed on the water right that will be affected by the proposed transfer, the "OFF or FROM" point(s) of diversion or appropriation)  
 Government lot(GOV" T LOT) and donation land claim numbers (DLC) must be included in the table below only if the information is reflected on the existing water right.
