SUBJECT: Water Right Transfer Application T-11313

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-11313. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me at 503-986-0881 or Teri.K.Hranac@wrd.state.or.us if I may be of assistance.

Sincerely,

Teri Hranac

BEFORE THE WATER RESOURCES DEPARTMENT OF THE STATE OF OREGON

In the Matter of Transfer Application)	PRELIMINARY DETERMINATION
T-11313, Morrow County)	PROPOSING APPROVAL OF
)	CHANGES IN PLACE OF USE

Authority

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Findings of Fact

Background

- 1. On November 7, 2011, DUANE NEIFFER filed an application to change the place of use under Certificate 64437. The Department assigned the application number T-11313.
- 2. On March 30, 2012, the applicant submitted Supplemental Form D for the supplemental irrigation under Permit S-54649.
- 3. On April 9, 2012, the applicant amended the application to include the supplemental irrigation under Permit S-54649.
- 4. The portion of the first right to be transferred is as follows:

Certificate: 64437 in the name of SNOW-McELLIGOTT, A PARTNERSHIP (perfected

under Permit G-9569)

Use: IRRIGATION OF 13.9 ACRES

Priority Date: SEPTEMBER 21, 1981

Rate: 0.17 CUBIC FOOT PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured

under any other right existing for the same lands, shall be limited to ONE-

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of

each year.

				Total	13.9			

- 8. Notice of the application for transfer was published on November 15, 2011, pursuant to OAR 690-380-4000. An amended notice of the transfer application was published on May 15, 2012. No comments were filed in response to the notices.
- 9. On May 22, 2012, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-11313 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of June 22, 2012, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

Transfer Review Criteria (OAR 690-380-4010)

10. Water has been used within the last five years according to the terms and conditions of the rights. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.

- 11. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-11313.
- 12. The proposed change would not result in enlargement of the rights.
- 13. The proposed change would not result in injury to other water rights.

Determination and Proposed Action

The changes in place of use proposed in Transfer Application T-11313 appear to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

If Transfer Application T-11313 is approved, the final order will include the following:

- 1. The changes in place of use proposed in application T-11313 are approved.
- 2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 64437, Permit S-54649, and any related decree.
- 3. Water right certificate 64437 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.
- 4. Permit S-many in the name of Willow Creek District Improvement Company, is issued to replace Permit S-54649, and incorporates the change in place of use approved by this order and the order issued for Transfer Application T-11314. Permit S-54649, in the name of Willow Creek District Improvement Company, is no longer of any force or effect.
- 5. The former place of use of the transferred rights shall no longer receive water under the rights.
- 6. The approved change shall be completed and full beneficial use of the water shall be made on or before **October 1, 2013**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
- 7. When satisfactory proof of the completed change is received, a new certificate confirming the right transferred under Certificate 64437 will be issued.

Dated at Salem, Oregon this <u>27</u> day of June, 2012.

Dwight French, Water Right Services Administrator, for

PHILLIP C. WARD, DIRECTOR

Notice of Preliminary Determination for Water Right Transfer T-11313

T-11313 filed by Duane Neiffer, 67795 McNab Lane, Ione, OR 97843, proposes a place of use change under Certificate 64437 and Permit S-54649. Certificate 64437 allows the use of 0.17 cubic foot per second from a well in Sec. 12, T 1 S, R 23 E, W.M. for irrigation in Secs. 1 and 2. Permit S-54649 allows the use of 41.9 acre feet from Willow Creek Reservoir in Sec. 35, T 2 S, R 26 E, W.M. for supplemental irrigation in Secs. 1 and 2, T 1 S, R 23 E, W.M. The applicant proposes to change the place of use to Secs. 1 and 12, T 1 S, R 23 E, W.M. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

Any person may protest the preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-9000, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$600 protest fee for non-applicant, or \$300 protest fee for applicant. A Water Right Transfer Protest Form is available at http://www.oregon.gov/OWRD/PUBS/docs/forms/TransferProtestForm09_09.pdf, or by calling 503-986-0888. Protests must be received by the Department on or before 30 days after WRD notice. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter at each point of diversion. The permittee shall maintain the meter in good working order.
- B. The permittee shall keep a complete record of the amount of water used each month, and shall submit an annual report which includes the recorded water use measurements to the Department by December 1 of each year. Further, the Director may require the permittee to report general water-use information, including the place and nature of use of water under the permit.
- C. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

The water user shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion, while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of water. The water user may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

The use of water under this right is subject to the terms and conditions of Contract No. 129E101776, or a satisfactory replacement, between the Bureau of Reclamation and the applicant, a copy of which is on file in the records of the Water Resources Department.

Use of water under this permit shall be subject to applicable provisions of the articles of incorporation, bylaws, rules and regulations of the Willow Creek District Improvement Company.

The use of stored water under this permit may be used in place of any existing ground water right for primary irrigation of the same land in order to conserve ground water supplies.

STANDARD CONDITIONS

- 1. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
- 2. Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.
- 3. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
- 4. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
- 5. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.
- 6. If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR Chapter 635, Division 415, shall be followed.
- 7. The use may be restricted if the quality of the source stream or downstream waters decreases to the point that those waters no longer meet existing state or federal water-quality standards due to reduced flows.
- 8. Completion of construction and application of the water shall be made by April 6, 2015. If beneficial use of permitted water has not been made before this date, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.

9.	Within one year after making beneficial use of water, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.
Issued	2012.
