~I~ Water Right Holder and Water Right Information

- 1.1 Lessor #1 is the water right holder, or authorized agent for water right holder of the property located at: Township 33 and 34 S, Range 6 E, Section Multiple – See attached maps and Tax Lot number Multiple – see attached maps. If the water right appurtenant to these lands is also appurtenant to lands owned by others who are not included in this application, then Attachment 1 (tax lot map), needs to be included.

- 1.2 Lessor #2 is the (Check one):
 Not applicable
 Official representative of _____, the irrigation district which conveys water to the subject water rights.
 Another party with an interest in the subject water rights representing _____.

- 1.3 For the water right(s) being leased, list all water rights appurtenant to the same lands. Indicate if there are any supplemental or overlying rights.

Certificate No. 10920, 10918, 10919, 10921, 10928, 10929, 28201. Supplemental rights 8261.

- 1.4 Are some or all of the lands being leased part of a Conservation Reserve Enhancement Program. Yes No

1.5 **Water Rights Proposed to be Leased Instream.**

The first right to be leased identified in Section 1.3 is further described as follows:

Certificate No.: 10920

Priority date: 1891 Type of use: Irrigation and stock

Legal Season of Use: April 1 to October 1

Is the entire water right certificate being leased? Yes No

If no, list the acres of the subject water right by legal description of township, range, section, and ¼ ¼ which will be dried up as part of this lease, and include a map (Attachment 2) showing the lands which will not receive water.

Place of use: T __, R __, Section __ acres to be leased

Enter additional places of use here, using format above:

AUG 31 2012

SALEM, OR

Number of acres being leased, if for irrigation: 112.0

Acre-feet of storage, if applicable: _____

Maximum rate associated with the right to be leased (cfs): 2.24cfs from 04/01 to 07/20 and 1.40cfs from 07/20 to 10/01.

(Use additional lines if there is more than one rate associated with the water right.)

Maximum duty associated with the right to be leased (ac-ft): 560 AF

(Use additional lines if there is more than one duty associated with the water right.)

Conditions or other limitations, if any: _____

If you need to enter another leased right, please use the additional water rights form.

1.6 **Validity of rights.** Lessor(s) attests (mark one) that:

- the water has been used over the past five years according to the terms and conditions of the water right certificate or as an instream water right or
 the water has not been used over the past five years according to the terms and conditions of the water right certificate, however the water right is not subject to forfeiture under ORS 540.610(2)(__)(include necessary supporting documentation as Attachment 3).

~II~ Instream Water Right Information

2.1 Public use. This lease will increase streamflows that will benefit:

- Conservation, maintenance and enhancement of aquatic and fish life, wildlife, and fish and wildlife habitat
- Pollution abatement
- Recreation and scenic attraction

2.2 Instream use created by lease. The instream use to be created is described as follows:

Blue Springs and unnamed springs, River
Tributary to Sevenmile Creek in the Klamath Basin.

Describe the point of diversion (POD) and any associated reach(es) of the instream use being created. If possible list the reach by river mile. If no reach is identified, and there is only one POD listed on the certificate, the lease may be processed to be protected at the POD. (If more than one POD is listed on the certificate, then the POD and any associated reach(es) must be identified): POD is 33S-6E S23 and S26. The water will be protected from the POD in Blue Springs, through Sevenmile Creek down to Agency Lake.

Maximum volume in acre-feet: 560AF

Rate in cfs: 1.89cfs from 04/01 to 07/20, and 1.02cfs from 7/20 to 10/01.

(Use the section below to indicate a more restrictive period of use than allowed by the water right.)

Conditions to prevent injury, if any:

- None
- The instream flow will be allocated on a daily average basis up to the described rate from _____ through _____.
- Other (describe): _____

RECEIVED BY OWRD

If you need to enter more instream uses, please use the additional water rights form **AUG 31 2012**

2.3 Term of lease. This lease shall terminate on 2017.

SALEM, OR

2.4 Flow protection. The Trustee will regulate use of water from the source, subject to prior appropriation and the agency enforcement guidance, to assure the water is delivered to the point of diversion, and through the reach past junior downstream users, so long as flow is sufficient to meet the demand under priority date of the new instream use (see Section 2.2). As part of regulation activities the watermaster or a designee has access to the point of diversion and place of use for the water rights involved in this lease. No party is required to continuously measure the flow of the waterway described in Section 2.2.

~III~ Other Information

3.1 Accuracy. The Undersigned Lessor(s) and Lessee(s) declare that, to the best of their knowledge and belief, the information contained in this application is true, correct and complete. If after the lease order is signed, any information is determined to be false, the lease order may be modified or terminated. The lease only exercises the water rights being leased, for the term of the lease. It shall not be construed to overcome any claim that the

water right may otherwise be subject to forfeiture for nonuse pursuant to ORS 540.610 during the period of time prior to the execution of the lease.

3.2 Lease. Lessor(s) and Lessee(s) agree to lease the water rights listed in Section(s) 1.5 for instream use for the term of this lease through Lessee to the Trustee, the Oregon Water Resources Department, pursuant to the provisions of ORS 537.348(2) and OAR 690-077.

3.3 Precedent. If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077 a new injury review shall be required, and a prior lease shall not set a precedent for the amount of water to be leased or transferred instream.

3.4 Suspension of original use. During the period of the lease, the water right holder agrees to suspend use of water allowed under the subject water rights and under any water right that is supplemental to the subject water rights.

3.5 Termination provision.

- For multiyear leases, the Lessor(s) shall have the option of terminating the lease each year with written notice to the Department. The lease may be terminated at any time during the calendar year. However, if the termination request is received less than 30-days prior to the period of allowed instream use or after the period of allowed use has begun for the water right(s) being leased, water may not be used under the right(s) leased until the following calendar year, unless the Director determines that enlargement would not occur. The Department may also require:
 - Written notice to the Department with original signatures; **RECEIVED BY OWRD**
 - Consent by all parties to the lease; and/or
 - Written notice to the Watermaster's office.

For multiyear leases, the lessor shall not have the option of terminating the lease, without consent by all parties to the lease.

**AUG 31 2012
SALEM, OR**

3.6 Modification to prevent injury. Allocation of water to the instream use described in Section 2.2 during the term of this lease is not reasonably expected to cause injury to other rights to use water from the same source. If injury is found after this lease is signed, the lease may be modified or terminated to prevent injury.

3.7 Fees. Pursuant to ORS 536.050, the following fee is included:

- \$400 for an application with four or more landowners or four or more water rights.
- \$250 for all other applications.

Lessor #1:  Date: 8/10/12
Sevsmile Creek Ranch, LLC

For additional Lessors, type in space for signature and date

Lessee:  Date: 8/29/12

Other Attachments as Needed:

Attachment 1: Tax Lot Map. (See instructions.)

Attachment 2: Detailed map illustrating lands under subject rights to be leased; required if only part of a right is being leased instream. (See instructions.)

Attachment 3: Supporting documentation indicating why a right is valid and not subject to forfeiture even though the right has not been exercised for five or more consecutive years (required if the second box in Section 1.6 is checked).

Attachment 4: Split Season Instream Use Form

SALEM, OR

~II~ Instream Water Right Information

Section 2.2 continued from Standard Application for Short-Term Instream Lease.

Instream use created by lease. The instream use to be created is described as follows:

Blue Springs and Sevenmile Creek
Tributary to Agency Lake in the Klamth Basin.

Describe the point of diversion (POD) and any associated reach(es) of the instream use being created. If possible list the reach by river mile. If no reach is identified, and there is only one POD listed on the certificate, the lease may be processed to be protected at the POD. (If more than one POD is listed on the certificate, then the POD and any associated reach(es) must be identified): POD is 33S-6E-24, NWSW. The water will be protected from the POD at the springs, through Sevenmile Creek, down to Agency Lake.

Maximum volume in acre-feet: 7.8

Rate in cfs: 0.047cfs; 0.02 from Sevenmile Creek and 0.016cfs from Blue Springs from 4/1 to 10/1
(Use the section below to indicate a more restrictive period of use than allowed by the water right.)

Conditions to prevent injury, if any:

- None
- The instream flow will be allocated on a daily average basis up to the described rate from _____ through _____.
- Other (describe): _____

Additional Water Right Form
Standard Application for
Instream Lease

A summary of review criteria and procedures that are generally applicable to these applications is available at
www.wrd.state.or.us/OWRD/PUBS/forms.shtml.

~I~ Water Right Holder and Water Right Information

Section 1.5 continued from Standard Application for Instream Lease.

Subject Water Rights. Lessor proposes to lease the water rights listed in 1.3.

The right(s) to be leased are further described as follows:

Certificate No.: 8261

Priority date: 9/25/1928 Type of use: Irrigation, supplemental to 10921 for the acres in this application

Legal Season of Use (if not listed on the certificate): 4/1 to 10/1

Is the entire water right certificate being leased? [] Yes [X] No

If no, list the acres to be leased by legal description of township, range, section, and 1/4 1/4, which will be dried up as part of this lease. Include a map (Attachment 3) showing the lands that will not receive water.

Place of use: T 33 S, R 6 E, Section 25, SE 1/4 NW 1/4 - 21.60 acres to be leased

Enter additional places of use here, using format above:

T33S R6E Section 25 NE1/4NW1/4 11.7 acres

Page (Identify page number of certificate, if certificate is greater than 10 pages.)

Number of acres, if for irrigation: 33.3

Acre-feet of storage, if applicable:

Rate associated with leased rights (cfs): 0.444cfs

(Use additional lines if there is more than one rate associated with the water right.)

Duty associated with leased rights (AF): 166.5

(Use additional lines if there is more than one duty associated with the water right.)

Conditions or other limitations, if any:

~II~ Instream Water Right Information

Section 2.2 continued from Standard Application for Short-Term Instream Lease.

Instream use created by lease. The instream use to be created is described as follows:

Blue Springs a tributary to Sevenmile Creek

Tributary to Agency Lake in the Klamath Basin.

Describe the point of diversion (POD) and any associated reach(es) of the instream use being created. If possible list the reach by river mile. If no reach is identified, and there is only one POD listed on the certificate, the lease may be processed to be protected at the POD. (If more than one POD is listed on the certificate, then the POD and any associated reach(es) must be identified): POD is T33S R6E Section 24, NWSW. The water will be protected from the POD at the springs through Sevenmile Creek down to Agency Lake.

Maximum volume in acre-feet: 166.5

Rate in cfs: 0.44

(Use the section below to indicate a more restrictive period of use than allowed by the water right.)

Conditions to prevent injury, if any:

- None
- The instream flow will be allocated on a daily average basis up to the described rate from _____ through _____.
- Other (describe): _____
