RECEIVED

| | SEP 27-2012 Your transfer application will be returned if any of the map requirements listed below are not met. | | | | | | | | | |
|-------------|---|---|--|--|--|--|--|--|--|--|
| | WATER RESOURCES DEPT Please be sure that the fransfer application map you submit includes all the required items and | | | | | | | | | |
| | | he existing water right map. Check all boxes that apply. | | | | | | | | |
| | N/A | Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see <u>http://apps.wrd.state.or.us/apps/wr/cwre_license_view/</u> . CWRE stamp and signature are not required for substitutions. | | | | | | | | |
| \boxtimes | N/A | If more than three water rights are involved, separate maps are needed for each water right. | | | | | | | | |
| \boxtimes | | Permanent quality printed with dark ink on good quality paper. | | | | | | | | |
| \boxtimes | | The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, 11×17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required. | | | | | | | | |
| \boxtimes | | A north arrow, a legend, and scale. | | | | | | | | |
| | | The scale of the map must be: 1 inch = 400 feet, 1 inch = $1,320$ feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = $1,320$ feet, or a scale that has been pre-approved by the Department. | | | | | | | | |
| \boxtimes | | Township, Range, Section, ¹ / ₄ ¹ / ₄ , DLC, Government Lot, and other recognized public land survey lines. | | | | | | | | |
| \boxtimes | | Tax lot boundaries (property lines) are required. Tax lot numbers are recommended. | | | | | | | | |
| | | Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads. | | | | | | | | |
| \boxtimes | | Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches. | | | | | | | | |
| | | Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. | | | | | | | | |
| | N/A | Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. | | | | | | | | |
| \boxtimes | | Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit. | | | | | | | | |
| | N/A | If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example $-42^{\circ}32'15.5"$) or degrees-decimal with five or more digits after the decimal (example -42.53764°). | | | | | | | | |

** BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.

Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? \Box Yes \boxtimes No

If NO, include signatures of all landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) has been conveyed.

Permanent Transfers Only (check one box)

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); **OR**
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**

I affirm that the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

I understand that prior to Department approval of the transfer, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following paper: <u>News-Register</u>.

I (we) affirm that the information contained in this application is true and accurate.

Applicant signature Applicant signature

WATER BESDE DESE To separate Part 4 for each water right being changed. See instructions at SALEM ONES Www.wrd.state.or.us/OWRD/PUBS/docs/Hints_Forms_MS_Word.doc

CERTIFICATE # <u>16716</u>

Description of Water Delivery System

System capacity: _____ cubic feet per second (cfs) OR

1,100 gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. <u>Water from the South Yamhill River is diverted</u> using a PTO-driven Berkeley B4JRM pump with a capacity of 1,100 gpm. Water is conveyed using approximately 1,800 feet of 10, 8, 6 and 5-inch-diameter aluminum mainlines and buried 10-inch-diameter PVC pipe. Water is then diverted through 4 or 6-inch-diameter risers and dispersed into several sets of 35 to 40-feet-long 3-inch-diameter hand line sprinklers with 3/16 nozzles or a 1,400-feet-long eco hard hose. Crops grown in the last 5 years include Tall fescue and white clover.

 Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

 (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

| POD/POA Name or Number | Is this POD/POA Authorized on the Certificate or is it Proposed? | If POA, OWRD Well Log ID# (or Well ID Tag # L) | Tw | | Rn | g, | Sec | | * | Tax Lot, DLC or Gov't Lot | Measured Distances (from a recognized survey corner) |
|------------------------------|--|--|----|---|----|----|-----|----|----|--|--|

WATER RESOURCES DEPT SALEM, OREGON

Regular Permanent Transfer Application - Page 6 of 34

Revised 2/1/2012

TACS

Certificate # <u>16716</u>

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \boxtimes Yes \square No

If YES, list the certificate, water use permit, or ground water registration numbers: 19861.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate $\# \underline{NA}$; Surface water primary Certificate $\# \underline{NA}$. RECENCO

SEP 27 2012

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # NA

WATER RESOURCES DEPT SALEM, OREGON

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (**Tip**: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.

| Proposed or Authorized POA Name or Number | Is well already built? (Yes or No) | If an existing well, OWRD Well ID Tag No. L | Total well depth | Casing Diameter | Casing Intervals (feet) | Scal depth(s) (intervals) | Perforated or screened intervals (in feet) | Static water level of completed well (in feet) | Source aquifer (sand, gravel, basalt, etc.) | Well - specific rate (cfs or gpm). For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # NA

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (**Tip**: You may search for well logs on the Department's web page at: <u>http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx</u>

OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.

System capacity: _____ cubic feet per second (cfs) **OR**

<u>1,100</u> gallons per minute (gpm)

WATER RESOURCES DEPT SALEM, OREGON

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Water from the South Yamhill River is diverted using a PTO-driven Berkeley B4JRM pump with a capacity of 1,100 gpm. Water is conveyed using approximately 3,500 feet of 10, 8, 6 and 5-inch-diameter aluminum mainlines and buried 10-inch-diameter PVC pipe. Water is then diverted through 4 or 6-inch-diameter risers and dispersed into several sets of 35 to 40-feet-long 3-inch-diameter hand line sprinklers with 3/16 nozzles or a 1,400-feet-long eco hard hose. Crops grown in the last 5 years include Tall fescue and white clover.

 Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

 (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

WATER RESOURCES DEPT SALEM, OREGON

CERTIFICATE # <u>49961</u>

Description of Water Delivery System

System capacity: _____ cubic feet per second (cfs) **OR**

<u>1,100</u> gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. <u>Water from the South Yamhill River is diverted</u> using a PTO-driven Berkeley B4JRM pump with a capacity of 1,100 gpm. Water is conveyed using approximately 2,000 feet of 10, 8, 6 and 5-inch-diameter aluminum mainlines and buried 10-inch-diameter PVC pipe. Water is then diverted through 4 or 6-inch-diameter risers and dispersed into several sets of 35 to 40-feet-long 3-inch-diameter hand line sprinklers with 3/16 nozzles or a 1,400-feet-long eco hard hose. Crops grown in the last 5 years include Tall fescue and white clover.

 Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

 (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

Additional remarks: See Figures 1 and 7. The POD 1 location is assumed to be the same as that described in Certificate 64516, based on current information and likelihood that only one POD existed in this area when Certificate 64516 was mapped by the WRD. As indicated under the remarks for Certificate 64516 in a following section, BLM data used in preparing the transfer maps indicates the SW corner of DLC 71 is TACS Regular Permanent Transfer Application - Page 21 of 34 Revised 2/1/2012 projected to be further north than shown on the Final Proof Survey map, resulting in POD 1 being located in the NE SW of Section 34. The river also appears to have moved northward in this area since the Final Proof Survey was completed.

SEP 27 2012

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \boxtimes Yes \square No

If YES, list the certificate, water use permit, or ground water registration numbers: 19861.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate $\# \underline{NA}$; Surface water primary Certificate $\# \underline{NA}$.

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # NA

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (**Tip**: You may search for well logs on the Department's web page at: <u>http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx</u>

OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.

DLC corner is further to the north than is indicated in the Final Proof Survey map. As a result, POD 1 is now projected to be located within the NE SW of Section 34. The river also appears to have moved northward in this area since the Final Proof Survey was completed. TACS Regular Permanent Transfer Application - Page 28 of 34

Additional remarks: See Figs. 1 & 9. BLM information was used to project the SW corner of DLC 71 for this transfer. This info indicates the

Revised 2/1/2012

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \boxtimes Yes \square No

If YES, list the certificate, water use permit, or ground water registration numbers: 19861.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # \underline{NA} ; Surface water primary Certificate # \underline{NA} .

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # NA

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

 \square

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (**Tip**: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.

Description of Water Delivery System

SEP 27 2012

I have been been by the same

System capacity: _____ cubic feet per second (cfs) OR

<u>1,100</u> gallons per minute (gpm)

WATER RESOURCES DEPT SALEM, ORECON

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Water from the South Yamhill River is diverted using a PTO-driven Berkeley B4JRM pump with a capacity of 1,100 gpm. Water is conveyed using approximately 3,100 feet of 10, 8, 6 and 5-inch-diameter aluminum mainlines and buried 10-inch-diameter PVC pipe. Water is then diverted through 4 or 6-inch-diameter risers and dispersed into several sets of 35 to 40-feet-long 3-inch-diameter hand line sprinklers with 3/16 nozzles or a 1,400-feet-long eco hard hose. Crops grown in the last 5 years include Tall fescue, white clover, hazelnuts, barley, perennial ryegrass and radish.

 Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

 (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

| POD/POA Name or Number | Is this POD/POA Authorized on the Certificate or is it Proposed? | ITPOA, OWRD Well Log ID# (or Welt ID Tag # L) | T | Ŵ | | | Sec | * | 4 | An Lot, DLC Gov [*] t Lot | Measured Distances (from a recognized survey corner) |

associated with each change. If more than one POD/POA, specify the acreage associated with each POD/POA.

Additional remarks: See Figures 1 and 10. POD 1, which is shown as Div. Pt. No. 3 on the 1985 Final Proof Survey Map, should have been listed Certificates 49961 and 64516. The POD 7 location is inferred to be the same POD described in Certificate 50648. Furthermore, the river has as an authorized point of diversion in the certificates. The reasons for changes to the POD 1 location are described in the sections for moved in this area and the POD 7 location described in the certificate is not adjacent to the river.

Regular Permanent Transfer Application - Page 33 of 34

Revised 2/1/2012

Certificate # <u>64561</u>

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \Box Yes \boxtimes No

If YES, list the certificate, water use permit, or ground water registration numbers: NA.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate $\# \underline{NA}$; Surface water primary Certificate $\# \underline{NA}$.

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # NA

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (**Tip**: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.
