RE: FID 2013 transfer in Place of Use.

Dear Transfer Department,

Farmers Irrigation District is submitting the included application and supporting documentation for our 2013 transfer in change of place of use. We have included a check in the amount of \$3,150.00 for the application fee.

There are approximately 62 properties and maps involved in the transfer application. Some property Owners are removing water rights in favor of a more senior water right. Other Owners are removing all rights due to economic or other issues. One owner has not beneficially used irrigation water or paid assessments for going on five years.

There are four primary certificates involved, 74306 which has no District supplemental rights, 76230 which also has no District supplemental rights, and 85974 which has several supplemental rights including certificates 74299, 85975 and 85976. Certificate 85975 has primary and supplemental rights, both of which are part of this transfer. Non District certificates 74316 & 87083 are included.

Please contact me with any questions.

Sincerely,

Rick Brock

- Name on Permit, Certificate, or Decree: Farmers Irrigation District
- Priority Date(s): 5/7/1906

If there are **multiple Priority Dates** identified on the water right, any information provided in Supplemental Form A of this application must identify which priority date is associated with each of the authorized points of diversion or appropriation and places of use.

Source(s) of Water to be Affected by Transfer: Hood River

Tributary to: Columbia River

- Are there **other water rights**, Permits or Ground Water Registrations associated with this land?
 Yes No

If “Yes”, what are the Permit, Registration or Certificate Numbers? 74316 / 87083

Any “layered” water use or a right that is supplemental to a primary right proposed for transfer **must be included in the transfer or be cancelled.**

■ Certificate Number or other identifying number: 74306

The following information must be provided only for those points of diversion or appropriation that are involved in the transfer.

If a point of diversion or appropriation is not numbered on the decree or water right certificate or permit, assign it a unique number in the following table (e.g. POD #1 or POA(well) #1). Use the number to refer to the point of diversion or appropriation serving the place of use described in Tables I and II. Note: Permanent district transfers do not allow for a change in point of diversion or appropriation to serve the proposed place of use.

Government lot and donation land claim numbers must be included in the table below **only** if the information is reflected on the existing water right.

Location of Existing Authorized Point(s) of Diversion (POD) or Appropriation (POA):

RE: Irrigation Water Rights for **Catania, Kim B.**
970 Methodist Road
Hood River OR 97031

*NON beneficial
use Forfeiture.*

Dear Sir or Madam:

Farmers Irrigation District (the "District") policy and Oregon law provide that whenever the owner of a perfected and developed water right ceases or fails to use all or part of the irrigation water appropriated for a period of five successive years, the failure to use this water shall establish a rebuttable presumption that the owner has forfeited all or part of the water right (See ORS 540.610). In situations where a water user has not made beneficial use of the water to which they are entitled for a period of four successive years, the District may petition the Water Resources Commission to transfer these water rights.

Prior to transfer of the aforementioned water rights, the District is obligated to provide you with notice of its intent to petition the Water Resources Commission for transfer of these water rights. **Therefore, please treat this letter as notice of the District's intent to petition for transfer of your water rights pursuant to ORS 540.572-574.** The information required of this notice is as follows:

- 1. Number of acres for which you are being assessed: 1.40 acres
- 2. General description of tax lot to which water is assigned: 2N-10E-03-NW/NW- 2200 in Hood River County, Oregon
- 3. The use for these water rights: Irrigation
- 4. Farmers Irrigation District Water Right Certificate Number: 74306.

We hereby request that you confirm that the foregoing information is correct.

The District has determined that your land is no longer irrigated or susceptible of irrigation and the District intends to petition the Water Resources Commission for approval to transfer your water right to other lands in the District. The District will make the water rights available to other property owners who have requested water rights.

RECEIVED

JAN 31 2013

WATER RESOURCES DEPT
SALEM, OREGON

If you are not content with that resolution you may request that a hearing be held before the District's Board of Directors, and they will decide whether to proceed with the petition for transfer to the Water Resources Commission. Any unpaid balance on your account will remain on our books.

Please contact me should you have any comments.

RE: Past due balance and 2011 Irrigation season assessment.

#8

Hello,

I have heard that you may want to give up the water rights on your property. If you complete the enclosed affidavit form and return it to FID with your signature notarized, I will remove your water rights and remove the balance you currently owe, which has accumulated since 2007. This is a one time offer and must be done within 30 days.

If you take no action I will petition the Oregon Water Resources Department to transfer your water rights off due to non beneficial use, and non-payment of assessments. This would result in your water rights being removed and the balance you currently owe FID would remain on your account collecting interest until paid.

Another option is that you can pay the total amount owed now and beneficially use your irrigation water during this 2011 season which is April 15th thru September 30th.

Please contact me with any questions.

RE: Farmers Irrigation District Services to 2N-10-03-NW/NW-2200

Dear Ms. Catania:

This firm represents Farmers Irrigation District (the "District" or Farmers"), which provides irrigation water for the real property described above.

Currently, your assessments have gone unpaid for several years. Pursuant to ORS 545.496, if a charge or assessment is not paid when due, the District is required to charge interest on the unpaid amount at the rate of one and one-third percent (1 1/3%) per month. In addition, the delinquent amount is increased by the District's administrative costs of collection, including legal fees. The delinquent sum due on your account as of the date of this letter is \$1,219.40 (including \$75.00 in legal fees). I enclose a printout of your account herewith. Due to your continuing refusal to pay these irrigation charges, a lien was filed against your property in favor of Farmers on August 21, 2008, a copy of which is also enclosed. At this point, we are in a position to foreclose this lien by filing a lawsuit against you in Hood River County Circuit Court. In that action, Farmers will not only seek recovery of its charges and all accumulated interest, it will also seek recovery of attorney fees and title company charges associated with processing the lawsuit against you. In order to prevent this from happening, **you must pay all the delinquency owed to Farmers, or make satisfactory arrangements to do so, by the close of business on July 16, 2010.**

Farmers Irrigation District does not wish to pursue a foreclosure action against you, but your continuing refusal to address this issue leaves no other option. This is the last warning you will receive from Farmers regarding this delinquency before it begins incurring additional costs associated with the foreclosure lawsuit. As a result, I urge you to take this matter seriously.

At this juncture, we believe it is in your best interest to consult with an attorney regarding the details of this letter, and we certainly hope you will do so. Nevertheless, unless suitable payment arrangements can be reached with the District by the close of business on July 16, 2010, the District will have no other choice but to proceed with foreclosure proceedings without further additional notice. Similarly, if you dispute any amount of this debt, you must also present this dispute to me or the District within this same 30-day time period.

Please contact me, or have your lawyer do so, should you have any questions regarding the matters discussed herein.

Very truly yours,

Dear Ms. Catania:

This firm represents Farmers Irrigation District, which provides irrigation water for the real property described above.

Currently, your assessments have gone unpaid for two years. Pursuant to ORS 545.496, if a charge or assessment is not paid when due, the District is required to charge interest on the unpaid amount at the rate of one and one-third percent (1⅓%) per month. RE: Property # 2N-10-03-NW/NW-2200 1.40 water right acres.

Dear Sir or Madam:

The 2011 irrigation season has begun, and again, as in previous years, you did not pay the annual irrigation fees. You have received various water shut-off notices, lien & foreclosure notices from Farmers Irrigation District ("Farmers" or the "District") since 2008. The 2011 irrigation season fees have not been paid are now delinquent. More importantly, for nearly five full years, you have failed to put your water rights to beneficial use. Oregon law provides that whenever the owner of a perfected and developed water right ceases or fails to use all or part of the irrigation water appropriated for a period of five successive years, the failure to use this water shall establish a rebuttable presumption that the owner has forfeited all or part of the water right. In situations where a water user has not made beneficial use of the water to which they are entitled for a period of four successive years, the District may petition the Oregon Water Resources Department to transfer these water rights. Oregon Revised Statute 540.610 clearly states the requirement of beneficial use.

Use as measure of water right; presumption of forfeiture of right for nonuse; basis for rebutting presumption; confirmation of rights of municipalities. (1) Beneficial use shall be the basis, the measure and the limit of all rights to the use of water in this state. Whenever the owner of a perfected and developed water right ceases or fails to use all or part of the water appropriated for a period of five successive years, the failure to use shall establish a rebuttable presumption of forfeiture of all or part of the water right.

Failure to put these water rights to beneficial use is a very serious matter and can lead to forfeiture of the unused water right. Consequently, you must immediately bring your account with Farmers up to date and you must use the full water right on the property, all in the next sixty days. **Alternatively**, you may schedule a meeting with Mr. Rick Brock with Farmers to sign a document voluntarily transferring the unused water rights off of your property.

By this letter, the District is serving you notice of its intent to confiscate any water right that goes unused by **September 30th 2011**. A copy of this letter is being sent to any security interest holders listed against your property as well as the Oregon Water Resources Department. As required by statute, I have enclosed a map showing where your 1.40 acres of water rights are located and a copy of the District Confiscation Policy.

Prior to transfer of the aforementioned water rights, the District is obligated to provide you with notice of its intent to petition the Oregon Water Resources Department for transfer of these water rights. **Therefore, please treat this letter as notice of the District's intent to petition for transfer of your water rights pursuant to ORS 540.572-574.** The information required of this notice is as follows:

RECEIVED

JAN 31 2013

WATER RESOURCES DEPT
SALEM, OREGON

1. Number of acres for which you are being assessed: 1.40 acres
2. General description of tax lot to which water is assigned: 2N-10-03-NW/NW 2200 in Hood River County, Oregon.
3. The use for these water rights: Irrigation
4. Farmers Irrigation District Water Right Certificate Number: 74306

We hereby request that you confirm that the foregoing information is correct.

#96

The District has determined that your land is no longer irrigated or susceptible of irrigation and the District intends to petition the Oregon Water Resources Department for approval to transfer your water right to other lands in the District. If you disagree with the determination of the District that your land is no longer irrigated or susceptible of irrigation, or that the presumption of forfeiture under ORS 540.610 is subject to rebuttal, or if you have some other objection to the District's proposed action, you must so advise the District in writing within 60 days from the date of this letter. If any or all of the above water rights are removed, the District will make the water rights available to other property owners who have requested water rights.

If you file a timely objection to the District's actions, the District Manager will attempt to resolve your objections to all sides' mutual satisfaction. If you are not content with that resolution you may request that a hearing be held before the District's Board of Directors, and they will decide whether to proceed with the petition for transfer to the Water Resources Commission.

Please remember that whether you choose to use your water rights, transfer them, or not use them your assessments are still due and payable to Farmers. It is our hope that we can work together and maintain the water rights on your property. If you have any questions contact Rick Brock at 541-387-5263.

Sincerely,

Mike Kleinsmith

(1) Upon compliance with this section and ORS 540.574 and 540.576, whenever land within the legal boundaries of a district is no longer irrigated or susceptible of irrigation, the district may apply the certificated water to which such land is entitled to other irrigable lands within the legal boundaries of the district if the district:

(a) Is managed by a full-time manager; and

#96

(b) Is implementing a conservation plan approved by the Water Resources Commission, and meets all other management responsibility criteria for districts and conservation and efficiency criteria required by the Water Resources Commission.

(2) If a water user of a district has not made beneficial use of the water to which the user is entitled for a period of four successive years, the district shall advise the user and any security interest holder of record that if the user does not use the water for a fifth successive year, the district may petition the Water Resources Commission for a transfer of the water right under ORS 540.574.

(3) When a district wishes to transfer the use of water under this section, the district shall provide notice of its intent to petition for a transfer to the user and any security interest holder of record of the land whose right of record would be transferred. The notice shall be sent to the last-known address for the user with a return receipt requested.

(4) The notice required under subsection (3) of this section shall:

(a) Include:

(A) The number of acres for which the user is being charged or assessed;

(B) A general description or tax lot of the land to which the water is assigned;

(C) A description of the use; and

(D) A request for confirmation that the information in the notice is correct.

(b) Advise the user that:

(A) The district has determined that the user's land is no longer irrigated or susceptible of irrigation and that the district intends to petition the Water Resources Commission for approval to transfer the user's water right to other lands in the district.

(B) If the user disagrees with the determination of the district that the user's land is no longer irrigated or susceptible of irrigation or if the user has some other objection to the proposed action of the district, the user shall so advise the district in writing within 30 days after the notice is mailed.

(C) The user shall advise the district in writing within the foregoing time period if the user believes the presumption of forfeiture under ORS 540.610 is rebuttable for a reason provided under ORS 540.610.

(5) If the district receives a written objection within 30 days after the mailing of the notice under subsection (3) of this section, the district manager shall attempt to resolve

(a) "Irrigable land" means land that is currently under irrigation or susceptible of irrigation for agricultural, horticultural, viticultural or grazing purposes.

(b) "No longer irrigated or susceptible of irrigation" means:

(A) Land on which water for irrigation has not been applied for a period of five successive irrigation seasons; or

(B) Land that does not have reasonable access to the system of irrigation works of the district, or that cannot be irrigated from or that is not susceptible to or would not, by reason of being permanently devoted to uses other than agricultural, horticultural, viticultural or grazing, be directly benefited by actual irrigation from the district.

(c) "Owned" or "controlled" means ownership in fee, purchase on a land sale contract, option to purchase or lease.

(d) "User" means an owner of land with an appurtenant water right who is subject to the charges or assessments of a district and from whose land the water right would be transferred by the petition and map filed under ORS 540.574 and an owner of land to which the water right would be transferred. [1991 c.957 §3]

District Permanent Transfer Criteria

Pursuant to ORS 540.572, the Department may approve a district permanent transfer application to permanently change the place of use of the water right appurtenant to land no longer irrigated or susceptible to irrigation provided:

(1) The district employs a full-time manager;

(2) The district is implementing an approved water management and conservation plan consistent with the requirements of OAR 690, division 086;

(3) The proposed transfer involves the use of water on lands located within the boundaries of the district;

RECEIVED

JAN 31 2013

WATER RESOURCES DEPT

FARMERS IRRIGATION DISTRICT

RESOLUTION NO. 05.10

8

**A RESOLUTION DETAILING THE DISTRICT'S PROCEDURE FOR
TRANSFERRING WATER RIGHTS DUE TO NON-USE.**

WHEREAS, FARMERS IRRIGATION DISTRICT (the "District") has an obligation by its charter and by state law to appropriately utilize water rights within the District boundaries; and

WHEREAS, pursuant to ORS Chapter 540, the District is empowered to transfer water rights off of property within the District boundaries where the owners of the property have failed to use their water rights for at least four successive years. The District's right to transfer these water rights is governed by the above-referenced statutes as well as by the administrative regulations at division 385 of Chapter 690; and

WHEREAS, the District desires to implement a consistent and predictable policy regarding the transfer of water rights in jeopardy of being forfeited as a result of non-use; and

WHEREAS, this Resolution is designed to provide a predictable policy for addressing water rights transfers where the water rights are in danger of forfeiture due to non-use;

NOW, THEREFORE, BE IT RESOLVED:

The District shall, as soon as practicable, implement a water rights transfer policy with the following components:

1. A survey of the entire District will be conducted and documented each year. Throughout the season, District staff shall document the use of all water rights as fully used, partially used, or not used. If the water rights are in partial use, an estimate will be made of the actual acres irrigated. Current aerial photos may be used when available.

2. The surveys will be submitted to the District office no later than August 15th of each year and will be kept as a permanent record.

3. The survey results will be entered into a database. The District will compile a list of all appurtenant water rights reported as partially used or not used. A letter will be sent out no later than September 30th giving water users the options available to them to beneficially use their water rights for the following year and also giving them 30 days to respond with a plan on how they intend to use their water rights the following year, or with evidence that they had used the water during the current season. If non-use has exceeded two years, the Watermaster or his appointed representative may visit the property and visually verify the report.

4. All water users with a documented four years of non-use shall receive a notice from the District which shall comport with the current statutes and regulations regarding transfer of water rights, including the following items: an accurate statement of the applicable law as required by OAR 690-385-5000 — 5800; the options the water users have to protect their water rights; and the District's right to petition Oregon Water Resources Department (the "Department") to remove the water if not used in the fifth year. A copy of the notice shall be sent to any security interest holders of record in the real property at issue. The notice shall be sent by certified mail, and the District shall provide the Department with a copy of each notice sent to a water user within 30 days of the mailing date of the notice.

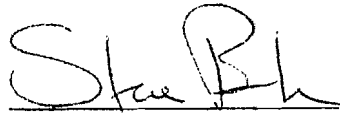

5. Documentation of four years non-use may be supported by: Dated aerial photographs from GeoSpatial Solutions or the NRCS, if available, District photographs, an affidavit by the Watermaster or his appointee, and/or affidavits by District staff or neighbors.

6. If, during the season of the fifth year, the water user does not take one of the following actions with regard to its water rights — lease the rights instream (application must be filed before March 1st), transfer off the water rights, or exercise the water rights on the land — the District may file a Petition with the Department to transfer the water rights off of the property. No later than September 30th, a notice that conforms with the applicable statutes and regulations will be sent by certified mail to the water user stating the District's intent to transfer the water rights off the user's property. The water user has 30 days to advise the District in writing of any objections.

7. The District Manager shall attempt to resolve the matter with the water user. If the Manager is unable to resolve the matter, a hearing will be held before the District Board of Directors. The Board shall determine whether to submit the petition to the Department Director.

8. If the District does not receive a written objection in 30 days, the District may submit the Petition to the Department Director requesting approval. The District shall attempt to submit the petition prior to December 31st of the fifth year of nonuse.

PASSED AND ADOPTED by the District Board on the 19 day of _____, 2010.

Re: Airport – Preservation of Water Rights

10-11-12

The airport has significant Farmers Irrigation District water rights. However, the location of many of these water rights are shown as allocated to non-irrigable areas such as existing runway, future runway, taxiways, hangars, etc. To preserve these water rights it is necessary to remap / reallocate some of these water rights to areas of the airport that are not covered by buildings or asphalt.

The cost for remapping / reallocating these water rights is \$400.00.

RECOMMENDATION: Authorize the payment of \$400.00 to the Farmers Irrigation District for remapping and reallocating certain existing water rights at the Hood River Ken Jernstedt airport.

This right was perfected under Permit 4961. The date of priority is FEBRUARY 12, 1921. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 0.15 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

NE 1/4 NW 1/4, AND NW 1/4 NW 1/4, SECTION 34, T. 3 N., R. 10 E., W. M.

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second per acre or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

Re: Airport – Preservation of Water Rights

#^s 31-33-34

The airport has significant Farmers Irrigation District water rights. However, the location of many of these water rights are shown as allocated to non-irrigable areas such as existing runway, future runway, taxiways, hangars, etc. To preserve these water rights it is necessary to remap / reallocate some of these water rights to areas of the airport that are not covered by buildings or asphalt.

The cost for remapping / reallocating these water rights is \$400.00.

RECOMMENDATION: Authorize the payment of \$400.00 to the Farmers Irrigation District for remapping and reallocating certain existing water rights at the Hood River Ken Jernstedt airport.
