## Application for Water Right Temporary or Drought Temporary Transfer Part 1 of 4 – Minimum Requirements Checklist

**This temporary transfer application will be returned if Parts 1 through 4 and all required attachments are not completed and included.**  
 For questions, please call (503) 986-0900, and ask for Transfer Section.

### FOR ALL TEMPORARY TRANSFER APPLICATIONS

**Check all items included with this application. (N/A = Not Applicable)**

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Temporary Transfer Application Map Checklist.
- Part 3 – Completed Temporary Transfer Application – Applicant Information and Signature.
- Part 4 – Completed Temporary Transfer Application – Water Right Information. Please include a separate Part 4 for each water right. List all water right certificates to be transferred here: **62259 and 62262.**

N/A For Temporary Transfer (one to five years) **Begin Year 2013 End Year 2017.**

N/A Temporary Drought Transfer (For use in counties where the Governor has declared drought)

RECEIVED BY OWRD

**Attachments:**

Completed Temporary Transfer Application Map. APR 18 2013

Completed Evidence of Use Affidavit and supporting documentation. SALEM, OR

Current recorded deed for the land **from** which the authorized place of use is temporarily being moved.

N/A Affidavit(s) of Consent.

Fees – Amount enclosed: \$ **976.60.**  
 See <http://www.wrd.state.or.us/OWRD/PUBS/forms.shtml#fees> or call (503) 986-0883.

N/A Supplemental Form D – For water rights served by or issued in the name of a district. Complete when the temporary transfer applicant is not the district.

N/A Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.

N/A For changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation, if necessary to convey the water to the new temporary place of use, Water Well Report(s)/Well Log(s).

**(For Staff Use Only)**  
**WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):**

<input type="checkbox"/> Application fee not enclosed/insufficient	<input type="checkbox"/> Map not included or incomplete
<input type="checkbox"/> Land Use Form not enclosed or incomplete	<input type="checkbox"/> Part _____ is incomplete
<input type="checkbox"/> Additional signature(s) required	
Other/Explanation _____

## Part 2 of 4 – Temporary Transfer Application Map Checklist

**Your temporary transfer application will be returned if any of the map requirements listed below are not met.**

**Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.**

- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32' 15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

In your own words tell us what change(s) you want made and the reason for the change(s): **We would like to temporarily transfer portions of water right number 62259 that is currently irrigated using handline irrigation to the neighboring farm owned by the Stangels. This will allow us to use a more efficient center pivot irrigation system and reduce energy and labor costs. We would also like to move parts of water rights #62259 and #62262 to two small parcels next to Kurt Melville's house and relative Crystal Newton's house to be used to irrigate pasture for 4-H projects. At the same time working with these maps we noticed several small discrepancies of field boundaries that do not match the final proof map from 1982. We would like to temporarily move water rights around to cover these discrepancies while we pursue having them corrected with a permanent transfer later. To do these temporary transfers we will add onto our current underground distribution system and extend it approximately 2750 feet with 8" pvc pipe and install a 880 foot center pivot and additional end gun that will irrigate approximately 63 acres in taxlot 3400 of T1S R44E Sec36. We will also add on to our existing underground mainlines with a 4" and then 3" pvc mainline that will service the new parcels in taxlots 701 and 200 in T2S R44E Sec1.**

## Part 4 of 4 – Water Right Information

Please use a separate Part 4 for each water right being changed. See instructions at [http://www.wrd.state.or.us/OWRD/PUBS/docs/Hints\\_Forms\\_MS\\_Word.doc](http://www.wrd.state.or.us/OWRD/PUBS/docs/Hints_Forms_MS_Word.doc).

**CERTIFICATE # 62259**

RECEIVED BY OWRD

**Description of Water Delivery System**

System capacity: \_\_\_\_\_ cubic feet per second (cfs) OR  
1800 gallons per minute (gpm)

APR 18 2013

SALEM, OR

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. **The water delivery system for certificate 62259 is shared with the delivery system for certificate number 62262 and consists of two 150 hp turbine pumps at POD #1. A small NRCS designed diversion in Prairie Creek screens and diverts the water to the pumps. Each of the turbines has a capacity of 1800gpm. One pump is equipped with a variable frequency drive that can also start or stop the other pump on demand. These pump into two 12" pvc lines that run approximately 6000 feet to the center of the property. At this point the water is diverted to the four main pivots via 10" pvc and two booster pumps, 30hp and 75hp as needed. From each pivot point there are smaller pvc lines that run out to each of the "corners" and along the perimeter boundaries to service handlines.**

**Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)**  
 (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

**For Place of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: \_\_\_\_\_.

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540-610.

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if necessary to convey the water to the new temporary place of use:**

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: [http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx))

**OR**

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.
