For Place of Use or Character of Use Changes
Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? 🛛 Yes 🗌 No
If YES, list the certificate, water use permit, or ground water registration numbers: Permit S-54582 & Cert 76050.
Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.
For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation) N/A
Ground water supplemental Permit or Certificate # $N/A$ : Surface water primary Certificate # $N/A$ .
For a change from Supplemental Irrigation Use to Primary Irrigation Use
Identify the primary certificate to be cancelled. Certificate # $\underline{N/A}$
For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:
Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: <a href="http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx">http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx</a> N/A
OR
Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. N/A
Construction of Point(s) of Appropriation  l(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the anying application map. Failure to provide adequate information is likely to delay the processing of your application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or water right examiner for the proper information needed to complete the table.
