Application for Instream Lease

A summary of review criteria and procedures that are generally applicable to these applications is available at www.wrd.state.or.us/OWRD/PUBS/forms.shtml.

Pursuant to ORS 537.348(2) and OAR 690-077

Optional Identification by Lessor/Lessee: _____
Lease Application Number (assigned by WRD): IL-1318

The water right to be leased is located in Wasco County.

This Lease is between:

Lessor #1:

Name Charlie Hanna
Mailing address 3500 Japanese Hollow Road
City, State, Zip Code The Dalles, OR 97058
Telephone number _____
E-mail address** _____

Lessor #2, 3, etc. (provide same information as identified above)

Lessee (if different than Oregon Water Resources Department):

Name The Freshwater Trust
Mailing address 65 SW Yamhill St. Suite 200
City, State, Zip Code Portland, OR 97204
Telephone number 503-222-9091
E-mail address** natasha@thefreshwatertrust.org

****BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.**

Trustee:

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, OR 97301-1266

~I~ Water Right Holder and Water Right Information

1.1 Lessor #1 is the water right holder, or authorized agent for water right holder of the property located at: Township 2 N, Range 15 E, Section 32 and Tax Lot number 500. If the water right appurtenant to these lands is also appurtenant to lands owned by others who are not included in this application, then Attachment 1 (tax lot map), needs to be included.

1.2 Lessor #2 is the (Check one):

Not applicable

Official representative of _____, the irrigation district which conveys water to the subject water rights.

Another party with an interest in the subject water rights representing _____.

1.3 For the water right(s) being leased, list all water rights appurtenant to the same lands.

Indicate if there are any supplemental or overlying rights.

Certificate No(s). 5635

1.4 Are some or all of the lands being leased part of a Conservation Reserve Enhancement Program. Yes No or other Federal program: _____

1.5 Water Rights Proposed to be Leased Instream.

The first right to be leased identified in Section 1.3 is further described as follows:

Certificate No.: 5635

(If you need to enter another leased right, please use the additional water right form.)

Legal Season of Use: Not Listed

Is the entire water right certificate being leased? Yes No

If no, list below the acres of the subject water right by legal description of township, range, section, and 1/4 1/4 which will be dried up as part of this lease, and include a map (Attachment 2) showing the lands which will not receive water.

[Attached maps must identify the water right holder, township, range, section, 1/4 1/4, tax lot number, map orientation, and scale.]

Total number of acres being leased, if for irrigation (or other acre equivalent uses): 15

Acre-feet of storage, if applicable: N/A

Maximum rate associated with the right to be leased (cfs): Not listed

(Use additional lines if there is more than one rate associated with the water right.)

Maximum duty associated with the right to be leased (ac-ft): 45

(Use additional lines if there is more than one duty associated with the water right.)

Conditions or other limitations, if any: _____

1.6 Validity of rights to be leased as described in Section 1.5 of this form and on any Additional Water Right Form. Lessor(s) attests (mark one) that:

the water has been used over the past five years according to the terms and conditions of the water right certificate or as an instream water right or

the water has not been used over the past five years according to the terms and conditions of the water right certificate, however the water right is not subject to forfeiture under ORS 540.610(2)(____)(include necessary supporting documentation as Attachment 3).

~II~ Instream Water Right Information

2.1 Public use. This lease will increase streamflows that will benefit:

- Conservation, maintenance and enhancement of aquatic and fish life, wildlife, and fish and wildlife habitat
- Pollution abatement
- Recreation and scenic attraction

2.2 Instream use created by lease of the water right described in Section 1.5.

The instream use to be created is described as follows:

In the Fifteenmile Creek
Tributary to Columbia River in the Hood Basin.

Instream volume in acre-feet (may be up to the same as the duty identified in Sec 1.5): 45

Instream rate in cfs (may be up to the same as the rate identified in Sec 1.5): _____

(If not certain of the instream rate or volume, please contact the Department for more information on how to fill out this section of the application).

- Instream use protected at the point of diversion (POD).
- Or within a proposed reach.

Describe the proposed reach (an instream reach generally begins at the POD and generally ends at the mouth of the source creek/river). If possible list the reach by river mile): From the POD, located 396 feet North and 2112 feet West from the East 1/4 corner of said Section 32, and being within the SW1/4 NE1/4, Section 32, Township 2 North, Range 15 East, W.M., to the mouth of Fifteenmile Creek.

Please check this box if you are not sure of the proposed reach and want water to be protected within a reach below the POD, if possible.

(If no reach is identified or the above box is not checked, and there is only one POD listed on the certificate, the lease may be processed to be protected at the POD.)

If the POD is not described on the Certificate or if there is more than one POD listed on the certificate, then the specific POD must be described: 396 feet North and 2112 feet West from the East 1/4 corner of said Section 32, and being within the SW1/4 NE1/4, Section 32, Township 2 North, Range 15 East, W.M.

Conditions to prevent injury, if any (use this section to indicate a more restrictive period of use than allowed by the water right):

- None
- The instream flow will be allocated on a daily average basis up to the described rate from _____ through _____.
- Other (describe): Any conditions the watermaster deems necessary to prevent injury and account for channel loss.

(Note: The Department may identify additional conditions to prevent injury and/or enlargement.)

If you need to enter more instream uses, please use the additional water rights form.

2.3 Term of lease. This lease shall terminate on October 1, 2013.

2.4 Flow protection. The Trustee will regulate use of water from the source, subject to prior appropriation and the agency enforcement guidance, to assure the water is delivered to the

point of diversion, and through the reach past junior downstream users, so long as flow is sufficient to meet the demand under priority date of the new instream use (see Section 2.2). As part of regulation activities the watermaster or a designee has access to the point of diversion and place of use for the water rights involved in this lease. No party is required to continuously measure the flow of the waterway described in Section 2.2.

~III~ Other Information

- 3.1 Accuracy.** The Undersigned Lessor(s) and Lessee(s) declare that, to the best of their knowledge and belief, the information contained in this application is true, correct and complete. If after the lease order is signed, any information is determined to be false, the lease order may be modified or terminated. The lease only exercises the water rights being leased, for the term of the lease. It shall not be construed to overcome any claim that the water right may otherwise be subject to forfeiture for nonuse pursuant to ORS 540.610 during the period of time prior to the execution of the lease.
- 3.2 Lease.** Lessor(s) and Lessee(s) agree to lease the water rights listed in Section(s) 1.5 for instream use for the term of this lease through Lessee to the Trustee, the Oregon Water Resources Department, pursuant to the provisions of ORS 537.348(2) and OAR 690-077.
- 3.3 Precedent.** If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077 a new injury review shall be required, and a prior lease shall not set a precedent for the amount of water to be leased or transferred instream.
- 3.4 Suspension of original use.** During the period of the lease, the water right holder agrees to suspend use of water allowed under the subject water rights and under any water right that is supplemental to the subject water rights.
- 3.5 Termination provision.**
- For multiyear leases, the Lessor(s) shall have the option of terminating the lease each year with written notice to the Department. The lease may be terminated at any time during the calendar year. However, if the termination request is received less than 30-days prior to the period of allowed instream use or after the period of allowed use has begun for the water right(s) being leased, water may not be used under the right(s) leased until the following calendar year, unless the Director determines that enlargement would not occur. The Department may also require:
 - Written notice to the Department;
 - Consent by all parties to the lease; and/or
 - Written notice to the Watermaster's office.
 - For multiyear leases, the lessor shall not have the option of terminating the lease, without consent by all parties to the lease.
- 3.6 Modification to prevent injury.** Allocation of water to the instream use described in Section 2.2 during the term of this lease is not reasonably expected to cause injury to other rights to use water from the same source. If injury is found after this lease is signed, the lease may be modified or terminated to prevent injury.

3.7 Fees. Pursuant to ORS 536.050, the following fee is included:

\$400 for an application with four or more landowners or four or more water rights.

\$250 for all other applications.

Lessor #1: Charlie Hanna Date: 4-15-13
Charlie Hanna

For additional Lessors, type in space for signature and date

Lessee: [Signature] Date: 4-16-13
The Freshwater Trust

Other Attachments as Needed:

Attachment 1: Tax Lot Map. (See instructions.)

Attachment 2: Detailed map illustrating lands under subject rights to be leased; required if only part of a right is being leased instream. (See instructions.)

Attachment 3: Supporting documentation indicating why a right is valid and not subject to forfeiture even though the right has not been exercised for five or more consecutive years (required if the second box in Section 1.6 is checked).

Attachment 4: Split Season Instream Use Form

Instructions for the Standard Instream Leasing Form

When Do I Use This Form?

Most individuals will use the “Standard Lease Form.” If you wish to lease more than one water right, then also use the “Additional Water Rights Form” for each additional water right to be leased. For more information on the different types of lease forms go to www.wrd.state.or.us/OWRD/mgmt_leases.shtml.

Instructions

Lease Agreement Number: Water Resources Department staff in Salem will assign this number.

Required Parties to the Lease

Lessors: The Lessor is the water right holder, or an authorized agent, of the property where, during the term of the lease:

- Water use will be suspended; or
- Water stored in a reservoir will be released for instream use.

If the lands to which the subject water rights are attached fall within the boundaries of an irrigation district or other water purveyor, as defined in ORS Chapters 545, 547, 552, 553, or 554, that organization must be a party to the lease and should be listed as Lessor #2.

Spouses and immediate family can all be listed as Lessor #1. If another individual or organization also has an interest in the rights being leased, they should be listed as Lessor #2, #3, etc.

Lessee: The Lessee is normally an organization, agency or individual who may compensate (or provide other consideration of value to) the Lessor for leasing the subject right for instream use.

Trustee: The Trustee is the Oregon Water Resources Department. If a person leases a right to the State without third party

involvement, the Department will also be considered the Lessee.

Other Parties: Private ditch companies, mortgage holders and others may have an interest in the lease. The legally required parties may, at their discretion, add other parties as co-lessors.

Section One

1.1 Provide the legal description for the lands being leased. Attachment 1, Tax Lot Map, is only needed if a portion of the water right not included in the lease is appurtenant to lands owned by others or for which others have an interest in the water right. Tax lot maps can be found at www.ormap.org/maps/.

1.2 Identify who is Lessor #2, #3, etc., if necessary. If this section does not apply, indicate so.

1.3 Provide an inventory of all of the water rights appurtenant to the same lands as the water right(s) being leased. Water rights information may be found at <http://www.wrd.state.or.us/OWRD/WR/wris.shtml>. List all supplemental, as well as all primary rights, even if the supplemental rights are still in permit status. Indicate if the supplemental rights are not being leased instream.

Only water right certificates can be leased instream, with the exception that a secondary right to use stored water, even if in permit status, can be leased. If this type of permit is being leased, indicate that it is a permit and list its number.

1.4 Indicate if some or all of the lands are enrolled in the federal Conservation Reserve Enhancement Program. The Department will send a copy of the lease application and the associated order to the Farm Services Administration.

Number of acres, if for irrigation (or other acre equivalent use): 37

Acre-feet of storage, if applicable: N/A

Maximum Rate associated with leased rights (cfs): .46

(Use additional lines if there is more than one rate associated with the water right.)

Maximum Duty associated with leased rights (AF): 111

(Use additional lines if there is more than one duty associated with the water right.)

Conditions or other limitations, if any: _____

~II~ Instream Water Right Information

Section 2.2 continued from Standard Application for Short-Term Instream Lease.

Instream use created by lease of the water right described in Section 1.5.

The instream use to be created is described as follows:

In the Fifteenmile Creek

Tributary to Columbia River in the Hood Basin.

Maximum instream volume in acre-feet (may be same as duty identified in Sec 1.5): 111

Maximum instream rate in cfs (may be same as rate identified in Sec 1.5): .46

(If not certain of the instream rate or volume, please contact the Department for more information on how to fill out this section of the application).

Instream use at the point of diversion (POD).

Or within a proposed reach.

Describe the proposed reach (an instream reach generally begins at the POD. If possible, list the reach by river mile): From the POD, located 430 feet North and 2460 feet East of the West 1/4 corner of Section 32, Township 2 North, Range 15 East, W.M., to the mouth of Fifteenmile Creek.

Please check this box if you are not sure of the proposed reach and want water to be protected within a reach below the POD, if possible.

(If no reach is identified, and there is only one POD listed on the certificate, the lease may be processed to be protected at the POD.)

If the POD is not described on the Certificate or if there is more than one POD listed on the certificate, then the specific POD must be described: _____

Conditions to prevent injury, if any (use this section to indicate a more restrictive period of use than allowed by the water right):

None

The instream flow will be allocated on a daily average basis up to the described rate from _____ through _____.

Other (describe): Any conditions the Watermaster deems necessary to protect other users from injury and account for channel loss.

(Note: The Department may identify additional conditions to prevent injury and/or enlargement.)
