In your own words tell us what change(s) you want made and the reason for the change(s): **We propose to move the POD to a downstream location closer to the place of use and install a pump in the creek. This will improve distribution network efficiency and benefit fish and wildlife by providing a fish screen on the pump inlet while better conserving water thereby leaving more water in the creek. We also propose to transfer the type of use on water right certificate 68374 from irrigation to multipurpose in a pond. This transfer application is being submitted in conjunction with an**

application to store water (alternate process).
