Application for Water Right Instream Transfer

Part 1 of 6 – Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 6 and all required attachments are not completed and included.
 For questions, please call (503) 986-0900, and ask for Transfer Section.

FOR ALL INSTREAM TRANSFER APPLICATIONS

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator. If you have questions, call Customer Service at (503) 986-0801.
 Note: Instream transfers are considered both a change in place of use and character of use. In addition, an automatic 50% fee waiver applies to all instream transfers.
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Completed Instream Use Information.
- Part 6 – Information about the Transferred Water Rights: **How many water rights are to be transferred? 1 List them here: 8934**
 Please include a separate Part 6 for each water right. (See instructions on page 8)

RECEIVED BY OWRC

Attachments:

- NA Completed Instream Transfer Application Map. OCT 23 2013
- NA Completed Evidence of Use Affidavit and supporting documentation. SALEM, OR
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- Land Use Notice - Notice of the intent to file an instream transfer application must be provided to each affected local government along the proposed reach. Copies of the notices must be enclosed with the instream transfer application.

(For Staff Use Only)

WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):

___ Application fee not enclosed/insufficient	___ Map not included or incomplete
___ Land Use Form not enclosed or incomplete	___ Additional signature(s) required

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For list of CWREs see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/.
- OR**
- N/A Waiver of requirement that map be prepared by a CWRE. Completed map waiver form is signed by the Department’s Regional Manager and included in the application. The map **must** still meet Department mapping requirements described below.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, quarter-quarter, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- Existing diversion point(s) with distance and bearing or coordinates from a recognized survey corner. This information can generally be found in your water right certificate or permit.

Part 3 of 6 – Fee Worksheet

FEE WORKSHEET for INSTREAM TRANSFER			
1	Base Fee (includes Place of Use and Character of Use to Instream changes to one water right for up to 1 cfs)	1	\$1,800
2	Number of water rights included in transfer <u>(2a)</u> Subtract 1 from the number in 2a above: <u>(2b)</u> <i>If only one water right, this will be 0</i> Multiply line 2b by \$450 and enter » » » » » » » » » » » » » » » »	2	0
3	Enter the cfs for the portions of the rights to be transferred (see example below*): <u>0.93 (3a)</u> Subtract 1.0 from the number in 3a above: <u>0 (3b)</u> If 3b is 0, enter 0 on line 3 » » » » » » » » » » » » » » » » If 3b is greater than 0, round up to the nearest whole number: <u>3 (3c)</u> and multiply 3c by \$300, then enter on line 3 » » » » » » » » » » » » » » » »	3	0
4	Add entries on lines 1 through 3 above » » » » » » » » » » Subtotal:	4	1800.00
5	Multiply line 4 by 0.5 and enter on line 5 » » » » » » » » » » » » » » » »	5	900.00
6	Subtract line 5 from line 4 » » » » » » » » » » » » » » » » Transfer Fee:	6	900.00

*Example for Line 3a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each water right involved as follows:
 - a. Divide total authorized cfs by total acres in the water right (*for C12345, 1.25 cfs ÷ 100 ac*); then multiply by the number of acres to be transferred to get the transfer cfs ($x 45 ac = 0.56 cfs$).
 - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (*For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs*)
2. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land.** The fee should be assessed only once for each “on the ground” acre included in the transfer. (*In this example, blank 3a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 3b would be 0 and Line 3 would then also become 0.*)

Part 5 of 6 – Proposed Instream Use Information

Identify the Public Use for which the instream right is requested (check at least one box):

- Conservation, maintenance and enhancement of aquatic and fish life, wildlife, fish and wildlife habitat and other ecological values.
- Recreation
- Navigation
- Pollution Abatement

Instream use proposed to be created by the instream transfer:

Originating Water Right Number (as identified in Part 5)	Priority Date	Source	Proposed Instream Period	Rate (cfs)*	Volume (ac-ft)**
T-8934 (C-43760)	1923	Little Applegate R.	April 1 – July 1	0.93	None given
			July 1 to October 31	0.54	None Given
TOTAL VOLUME					

***Tip:** To calculate rate (if other than the rate allowed by the right), divide the volume by the number of days in the period and then divide by 1.983471; or

****Tip:** To calculate volume, multiply the rate by the number of days in the instream period and then multiply by 1.983471.

Note: The instream rate may not exceed the max rate allowed by the existing right(s) and the total volume may not exceed to max volume or duty allowed by the existing right(s). **RECEIVED BY OWRD**

Additional Information: There is no duty associated with this right.

OCT 23 2013

Identify the location of the proposed instream water right.

- Water is requested to be protected at a point.
Location (i.e. the point of diversion (POD) – use the POD Name or Number from Table 1):

- Water is requested to be protected within a reach:
Location of proposed reach (If an instream water right reach is requested, identify the upstream and downstream extent of the reach): **From the Farmers Ditch diversion on the Little Applegate River in NW-NW Section 13, T39S, R3W, W.M. to the mouth of the Little Applegate River at river mile 0.**

SALEM, OR

Recommendations for conditions on the instream use to avoid taking away or impairing existing water rights.

- None
- Other (such conditions may include, but are not limited to, reductions in the instream flow levels in cfs per month or total ac-ft, the effective reach(es) or lake levels of the instream flow, measuring locations and the strategy for monitoring the instream flow or lake levels): **Similar conditions as previous instream transfers from the Farmers Ditch.**

Are there any existing instream water rights on the same point or within the same requested reach(es) or lake, or on a portion thereof?

- No Yes (identify other instream water rights):

Note: New instream water rights are generally (but not always) additive to instream water rights established under ORS 537.348 (instream transfer application process) and ORS 537.470 (allocation of conserved water) and replace a portion of instream water rights established under ORS 537.341 (state agency application process) or ORS 537.346 (conversion of minimum perennial streamflows) with an earlier priority date.

Is it your intent to have the proposed instream water right transfer be additive to any instream water right established under ORS 537.348 and ORS 537.470 and replace a portion of any instream water right established under ORS 537.341 and ORS 537.346 with an earlier priority date?

- Yes No. If no, please explain your intent below:

_____.

If the proposed conversion would add to the amounts of an existing instream water right(s) established under ORS 537.341 or 537.346, provide documentation demonstrating why additional instream flows are necessary. Supporting documentation should include information from the Oregon Dept. of Fish and Wildlife (ODFW) (fish life), Dept. of Environmental Quality (DEQ) (pollution abatement), and/or Parks and Recreation Dept. (recreation).

Is the requested instream flow intended to exceed the estimated average natural flow or level occurring from the drainage system?

- No; **OR**
 Yes (Provide supporting documentation that demonstrates why additional flows are significant for the public use requested.); **OR**
 Yes, and it is presumed that flows that exceed the estimated average natural flow or natural lake levels are significant because:

- The requested flow does not exceed the maximum amount of any instream water right application applied for under ORS 537.341 (state agency instream water right application process) for the same reach or portion thereof, and the requested public use is for the same public use as the afore mentioned instream water right application, **and**
 For the specified time period that flows are requested to exceed the estimated average natural flow or lake level, the stream is in an ODFW flow restoration priority watershed. A copy of the priority watershed map indicating the specific watershed involved should be included with the application. Priority watershed maps may be found on the OWRD web page; **or**
 The stream is listed as water quality limited and DEQ has provided scientific information that demonstrates that increased flows would improve water quality. The scientific information provided by DEQ should be included with the transfer application.

For a Time Limited Instream Transfer, please answer the following:

OCT 23 2013

- The time-limited instream transfer is for a specific number of years:

When permit is issued to use stored water Begin Year to _____ End Year **SALEM, OR**

- Time-limited instream transfer is to terminate based upon other conditions:

Conditions: **Continue until terminated by a request from the Bureau of Reclamation and the applicants or the applicants along with evidence that the stored water contract from Applegate Reservoir has been terminated or that the agreement between the applicants and the Bureau of Reclamation has not been renewed ..**

INSTRUCTIONS for editing the Application Form

To add additional lines to tables within the forms or to copy and paste additional Part 6 pages, please **save the application form to your computer**. Unlock the document by using one of the following instructions for your Microsoft Word software version:

Microsoft Word 2003

Unlock the document by one of the following:

- Using the **Tools** menu => click **Unprotect Document**;

OR

- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the **Tools** menu => click **Protect Document**;

OR

- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

Microsoft Word 2007

- Unlock the document by clicking the **Review** tab, then click **Protect Document**, then click **Stop Protect**
- To relock the document, click **Editing Restrictions**, then click **Allow Only This Type of Editing**, select **Filling In Forms** from the drop-down menu, then check **Yes, Start Enforcing Protection**.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab, toggle the **Restrict Editing** icon at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the “**Allow only this type of editing** in the document: **Filling in forms**” in the “Editing restrictions” section on the right-hand list of options.
- To relock the document, check the **Editing Restrictions/Allow Only This Type of Editing/Filling In Forms** box from the drop-down menu, then check **Yes, Start Enforcing Protection**. You do not need to assign a password for the editing restrictions.

Once the application has been unlocked, you may:

- add additional rows to tables using the Table tools, and
- select and copy the pages of Part 6 and paste as many additional sets of Part 6 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

OCT 23 2013

Other Alternatives:

- Photocopy pages or tables in Part 6, ~~mark through~~ any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

Please use a separate Part 6 for each water right being changed. See instructions on page 8, to copy and paste additional Part 6s, or to add additional rows to tables within the form.

CERTIFICATE # T-8934 (certificate to be issued)

Name on Certificate: James W. & Helen M. Christopherson, Sr.

RECEIVED BY OWRD

Date(s) of Priority: September 13, 1923

SALEM, OR

Source(s) of Water to be Affected by the Transfer: Little Applegate River

Description of Water Delivery System

System capacity: **0.93** + cubic feet per second (cfs) **OR**
 _____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. **There are two authorized POD's – The Farmers Ditch on the Little Applegate River and a pumpon the Applegate River to flood irrigate. There is a 50 HP pump connected to an underground mainline to wheel lines with sprinklers and hand lines with. Pump is also used to deliver water to flood irrigate.**

Other Water Rights

Are there other water right certificates, water use permits or ground water registrations associated with the "from" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers:

 Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

Table 1. Location of Authorized Point(s) of Diversion (POD)

(Note: If the POD name is not specified on the certificate, assign it a name or number here. Also, if the POD is not described in the Certificate, provide a description below)

POD Name or Number	Priority Date (if different between PODs)	Twp	Rng	Sec	¼ ¼	Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
Farmers Ditch	9/23/1923	39 S	3 W	13	NW NW		930 FT. SOUTH & 10 FT. EAST FROM THE NW COR SECTION 13 PER T-8935 MAP
POD-1	9/23/1923	38 S	3 W	33	NE NW	9	820 FT. SOUTH & 110 FEET EAST FROM THE SW CORNER OF DLC 40

Will the proposed instream transfer affect the entire water right?

Yes Then Table 2 on Page 10 does not need to be completed.

No Then complete all of Table 2 to describe the portion of the water right to be changed.

RECEIVED BY OWNER

OCT 23 2011

SALEM, OR

Please use additional pages of Table 2 as needed. See page 8 for instructions. If you have further questions about how to fill out the tables, contact the Department at 503-986-0900 and ask for Transfer Staff.

Table 2. Description of Change to Water Right Certificate # T-8935

List only the part of the right that will be changed. If more than one POD serves the lands, specify the acreage associated with each POD.

Twp	Rng	Sec	¼ ¼		Tax Lot	Gov't Lot or DLC	Acres if Applicable	Type of USE listed on Certificate	Priority Date (if not the same for all acres or type of use)	POD(s) (name or number from Table 1)
