SALEM, OR

Part 2 of 4 - Instream Lease Application Map Checklist

A Map is generally required for each water right not leased in its entirety

The application map (if required) should include all the items listed below and match the existing water right(s) of record. Check all boxes that apply.

This should be a <u>simple</u> map. *(See example below)*. A copy of a final proof survey map with the portion to be leased shaded or hachured in will also suffice.

□ N/A	A map is required for each water right not leased in its entirety. More than one QQ and property may be included on each map. A map is not required, if leasing the entire right or if the right to be leased is for municipal or quasi-municipal water use.
<b>1</b>	The map should be of sufficient quality to be reproducible. Please do not use highlighters to mark items on the map as highlighters do not always copy.
	A North arrow and map scale (no smaller than $1" = 1320$ ').
	Township, Range, Section, quarter quarter (QQ), and a clearly labeled survey corner.
	For irrigation or other similar use, the number of acres to be leased in each quarter- quarter clearly labeled and hatchured to differentiate between the acres being leased and any remaining. If the place of use is broken down by more than one priority date, or source stream, and/or point of diversion you must identify each with separate hachuring and clearly label.
	If available, identify the existing point(s) of diversion.

**EXAMPLE MAP** (the darker shaded portion representing the portion leased instream)

## Part 3 of 4 - Water Right and Instream Use Information

## Use a separate Part 3 for each water right to be leased instream

#### Water Right Information

#### Water right # 87479

#### Table 1

Water Right Information: Provide a description of the originating water right to be leased. Also include your tax lot number(s). Fill in all applicable information. For example, if your water right has multiple points of diversion (POD) but they're not numbered, you do not need to include a number. If not enough room below, you may add additional rows (see instructions) or attach spreadsheet (matching Table 1). Please clearly label any attachments.

If only leasing a portion of the right - complete Table 1 as indicated					<b>Entirety</b> - If the entire water right is to be leased, skip to Table 3.					
Priority Date POD # Twp Rng Sec				Q-Q	Tax Lot	Gov't Lot/DLC	Acres	USE	Previous Lease # (if any)

Instream Lease Application (revised 2-12-2014)

# Part 4 of 4 – Lease Provisions and Party Signatures

Term of the Lease (may be from 1 year up to 5 years):									
The lease is requested to begin in: month $4 year 2014$ and	l end: month <u>9</u> year <u>2014</u>								
Note: The begin month is generally the first month of the i in the irrigation season. If not an irrigation right, this wou									
period of allowed use.									
<b>Public use:</b> Check the public use(s) this lease will serve	Termination provision (for multiyear leases):								
(as defined by ORS 537.332):	The parties to the lease request (choose one):								
Conservation, maintenance and enhancement of	a. The option of terminating the lease prior to								
aquatic, fish and wildlife, fish and wildlife habitat and	expiration of the full term with written notice to the Department by the Lessor(s) and/or Lessee.								
any other ecological values.	$\boxtimes$ b. The option of terminating the lease prior to								
Pollution abatement	expiration of the full term, with consent by all								
Navigation	parties to the lease.								
	c. The parties would not like to include a								
	Termination Provision.								
	(See instructions for limitations to this provision)								
Additive/Replacing Relationship to other instream wate	er rights: Instream leases are generally additive to								
other existing instream water rights created as a result of ir	nstream leases, transfers and/or allocations of								
conserved water. Since instream leases are also generally									
agency process or conversion of minimum flows, they gen	erally replace a portion of these junior instream								
rights.									
If you would like this lease to relate to other instream wate	r rights differently, please check this box.								
And attach an explanation of your intent.									
Validity of the Right(s) to be leased (check the appropr									
The water right(s) to be leased have been used under t	he terms and conditions of the right(s) during the last								
five years or have been leased instream; or The water right(s) have not been used for the last five	years according to the terms and conditions of the								
right(s). However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right(s) is not subject to forfeiture is provided.									
Precedent: If a right which has been leased is later pro	oposed to be leased again or later transferred or								
become part of an allocation of conserved	l water project, a new injury review shall be required								
An instream lease shall not set a preceden	t on a future transaction.								
The undersigned declare:									
1. The Lessor(s) agree during the term of this lease, to s	suspend use of water allowed under the subject water								
right(s) and under any appurtenant primary or supple									
application; and	0 ( )								
2. The Lessor(s) certify that I/we are the water right hol	der(s) of the right(s) described in this instream								
lease application. If not the deeded landowner, I/we									
application that I/we have authorization to pursue the									
from the deeded landowner; and	11
