Additional remarks:

Chuck Eder Farms-Temporary Transfer (Form-Revised 7/1/2013) Page 7 of 8

### For Place of Use Changes

there other water right certificates, water use permits or ground water registrations associated the "from" or the "to" lands? $\square$ Yes $\boxtimes$ No
ES, list the certificate, water use permit, or ground water registration numbers:
suant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental primary right proposed for temporary transfer can be included in the transfer or remain sed on the authorized place of use. If the primary water right does not revert soon enough to w use of the supplemental right within five years, the supplemental right shall become subject ancellation for nonuse under ORS 540-610.
change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if sary to convey the water to the new temporary place of use:
Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. ( <b>Tip</b> : You may search for well logs on the Department's web page at: <a href="http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx">http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx</a> )
D/OR
Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For <i>proposed wells not yet constructed or built</i> , provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

## Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
