Other (describe): \_\_\_\_\_

- 2.3 **Term of lease.** This lease shall terminate on October 31, 2009.
- 2.4 **Flow protection.** The Trustee will regulate use of water from the source, subject to prior appropriation and the agency enforcement guidance, to assure the water is delivered to the point of diversion, and through the reach past junior downstream users, so long as flow is sufficient to meet the demand under priority date of the new instream use (see Section 2.2). As part of regulation activities the watermaster or a designee has access to the point of diversion and place of use for the water rights involved in this lease. No party is required to continuously measure the flow of the waterway described in Section 2.2.

**~III~ Other Information**

- 3.1 **Accuracy.** The Undersigned Lessor(s) and Lessee(s) declare that, to the best of their knowledge and belief, the information contained in this application is true, correct and complete. If after the lease order is signed, any information is determined to be false, the lease order may be modified or terminated. The lease only exercises the water rights being leased, for the term of the lease. It shall not be construed to overcome any claim that the water right may otherwise be subject to forfeiture for nonuse pursuant to ORS 540.610 during the period of time prior to the execution of the lease.
- 3.2 **Lease.** Lessor(s) and Lessee(s) agree to lease the water rights listed in Section(s) 1.5 for instream use for the term of this lease through Lessee to the Trustee, the Oregon Water Resources Department, pursuant to the provisions of ORS 537.348(2) and OAR 690-077.
- 3.3 **Precedent.** If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077 a new injury review shall be required, and a prior short term lease shall not set a precedent for the amount of water to be leased or transferred instream.
- 3.4 **Suspension of original use.** During the period of the lease, the water right holder agrees to suspend use of water allowed under the subject water rights and under any water right that is supplemental to the subject water rights.
- 3.5 **Termination provision.**
- For multiyear leases, the Lessor(s) shall have the option of terminating the lease each year with written notice to the Department. The lease may be terminated at any time during the calendar year. However, if the termination request is received less than 30-days prior to the period of allowed instream use or after the period of allowed use has begun for the water right(s) being leased, water may not be used under the right(s) leased until the following calendar year, unless the Director determines that enlargement would not occur. The Department may also require:
    - Written notice to the Department with original signatures;
    - Consent by all parties to the lease; and/or
    - Written notice to the Watermaster's office.
  - For multiyear leases, the lessor shall not have the option of terminating the lease, without consent by all parties to the lease.

**RECEIVED**

JUN 22 2009

3.6 **Modification to prevent injury.** Allocation of water to the instream use described in Section 2.2 during the term of this lease is not reasonably expected to cause injury to other rights to use water from the same source. If injury is found after this lease is signed, the lease may be modified or terminated to prevent injury.

3.7 **Fees.** Pursuant to ORS 536.050, the following fee is included:

- \$200 for an application with four or more landowners or four or more water rights.  
 \$100 for all other applications.

Note: The section numbering associated with this form corresponds to that found on the "Standard Instream Lease Application" form. The "Pooled Lease" form and "Pooled Water Right Holder" form(s) are used to provide the same information as the "Standard Instream Lease Application" form. Consequently, the numbering on this form is not always sequential.

### ~I~ Water Right Holder and Water Right Information

1.1 Lessor #1 is the water right holder, or authorized agent for property described in Section 1.5. If the water right appurtenant to these lands is also appurtenant to lands owned by others who are not included in this application, then Attachment 1 (tax lot map), needs to be included.

1.3 For the water right(s) being leased, list all water rights appurtenant to the same lands. Indicate if there are any supplemental or overlying rights.

Certificate No. 74145

1.4 Are some or all of the lands being leased part of a Conservation Reserve Enhancement Program.  Yes  No

1.5 **Water Right(s) Proposed to be Leased Instream.** Water right holder proposes to lease the water rights shown on the map attached as Exhibit 5-B and described as follows:

[This information may be included on Exhibit 5-A, or an additional map may be attached. Crosshatch the area of water rights being leased. Attached map(s) must identify water right holder, township, range, section and 1/4, tax lot number, map orientation and scale.]

**1.6 Validity of rights.** Lessor(s) attests (mark one) that:

- The water has been used over the past five years according to the terms and conditions of the water right certificate or as an instream water right or
- The water has not been used over the past five years according to the terms and conditions of the water right certificate, however the water right is not subject to forfeiture under ORS 540.610(2)(  )(include necessary supporting documentation as Attachment 3).

**~II~ Instream Water Right Information**

**2.3 Term of lease.** This lease shall terminate on Oct. 31, 2009. (If there is a conflict between the Pooled Lease Form and this form, the Pooled Lease Form will be the official term of the lease.)

**~III~ Other Information**

- 3.1 Accuracy.** The Undersigned Lessor(s) and Lessee(s) declare that, to the best of their knowledge and belief, the information contained in this application is true, correct and complete. If after the lease order is signed, any information is determined to be false, the lease order may be modified or terminated. The lease only exercises the water rights being leased, for the term of the lease. It shall not be construed to overcome any claim that the water right may otherwise be subject to forfeiture for nonuse pursuant to ORS 540.610 during the period of time prior to the execution of the lease.
- 3.2 Lease.** Lessor(s) and Lessee(s) agree to lease the water rights listed in Section(s) 1.5 for instream use for the term of this lease through Lessee to the Trustee, the Oregon Water Resources Department, pursuant to the provisions of ORS 537.348(2) and OAR 690-077.
- 3.3 Precedent.** If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077 a new injury review shall be

**RECEIVED**

required, and a prior short term lease shall not set a precedent for the amount of water to be leased or transferred instream.

**3.4 Suspension of original use.** During the period of the lease, the water right holder agrees to suspend use of water allowed under the subject water rights and under any water right that is supplemental to the subject water rights.

**3.5 Termination provision.**

- For multiyear leases, the Lessor(s) shall have the option of terminating the lease each year with written notice to the Department. The lease may be terminated at any time during the calendar year. However, if the termination request is received less than 30-days prior to the period of allowed instream use or after the period of allowed use has begun for the water right(s) being leased, water may not be used under the right(s) leased until the following calendar year, unless the Director determines that enlargement would not occur. The Department may also require:
- Written notice to the Department with original signatures;
  - Consent by all parties to the lease; and/or
  - Written notice to the Watermaster's office.
- For multiyear leases, the lessor shall not have the option of terminating the lease, without consent by all parties to the lease.

**3.6 Modification to prevent injury.** Allocation of water to the instream use described in Section 2.2 during the term of this lease is not reasonably expected to cause injury to other rights to use water from the same source. If injury is found after this lease is signed, the lease may be modified or terminated to prevent injury.
