**Check all items included with this application. (N/A = Not Applicable)**

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Temporary Transfer Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: [http://apps.wrd.state.or.us/apps/misc/wrd\\_fee\\_calculator](http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator). If you have questions, call Customer Service at (503) 986-0801.
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Transferred Water Rights: **How many water rights are to be transferred?** 1 **List them here:** 60082  
 Please include a separate Part 5 for each water right. (See instructions on page 5)
- N/A For standard Temporary Transfer (one to five years) **Begin Year** 2014 **End Year** 2019
- N/A Temporary Drought Transfer (Only in counties where the Governor has declared drought)

**Attachments:**

- Completed Temporary Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- Current recorded deed for the land **from** which the authorized place of use is temporarily being moved.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
- N/A Supplemental Form D – For water rights served by or issued in the name of a district. Complete when the temporary transfer applicant is not the district.
- N/A Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation (if necessary to convey water to the proposed place of use).

## Part 2 of 5 – Temporary Transfer Application Map Checklist

**Your temporary transfer application will be returned if any of the map requirements listed below are not met.**

**Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.**

- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

**\*Example for Line 2a calculation** to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:  
 1. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs ÷ 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac = 0.56 cfs).  
 2. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)  
 3. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land.** The fee should be assessed only once for each “on the ground” acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

## Part 4 of 5 – Applicant Information and Signature

ATTACHMENT 1

Explanation of the purpose of the transfer from Part 4 of 5

We need to transfer 4.5 acres of our water right (certificate 660082) to "square up" an adjacent field to enable me to fully utilize a wheel line in said field. The new area to be irrigated is a rectangle measuring 367 x 531 feet for a total of 4.473 acres. This rectangle lies mostly in the SW ¼ of the NW ¼ of section 22 but also partially in the SW ¼ of the NE ¼ of section 22. 3.9 acres of this transfer will come from the Nw ¼ of the NW¼ of section 22. .6 acres of the transfer will come off the western side of the NE ¼ of the NW ¼ of section 22.

Exhibit 1

Answer to question on top of part 5 of 5, page 6 of 8

A 75 HP electric motor pumps water up an intake tube from the Grande Ronde River at POD No. 1 and into a 10 inch mainline that runs from the pump up the east side of an old oxbow of the river then around the southern end of said oxbow, then due east to terminate at the NW corner of NW ¼ of SW ¼ of section 22. There is also a buried 8 inch lateral main line that runs from the main line at the SE corner of the oxbow to the top of the "22" on the map. The lateral terminates just west of a yard where pipe and equipment are stored and where a hay shed is located. This main line and lateral has risers every 80 feet and supply water to 4 different wheel lines. The pasture in the NW ¼ of the NW1/4 and the NE ¼ of NW ¼ of section 22 is watered by 4 inch handline that is stored in the above described equipment yard when not laid out in the pasture.

OWRD

**For Place of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the “from” or the “to” lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: \_\_\_\_\_

Pursuant to ORS 540.525, any “layered” water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540-610.

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if necessary to convey the water to the new temporary place of use:**

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (**Tip:** You may search for well logs on the Department’s web page at: [http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx))

**AND/OR**

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide “a best estimate” for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

| Proposed or Authorized POA Name or Number | Is well already built? (Yes or No) | If an existing well, OWRD Well ID Tag No. L-___ | Total well depth | Casing Diameter | Casing Intervals (feet) | Seal depth(s) (intervals) | Perforated or screened intervals (in feet) | Static water level of completed well (in feet) | Source aquifer (sand, gravel, basalt, etc.) | Well - specific rate (cfs or gpm). If less than full rate of water right |

Re: Temporary transfer of Water Right certificate 60082

Dear Sir/madam:

Enclosed you will find my completed Temporary Transfer application, Application for Water Right Transfer Evidence of Use Affidavit, with a check for \$709. I believe all the required attachments are also enclosed. To the Evidence of Use Affidavit, I have attached the following:

Receipt for 1/3 of 2006 grass seed crop for \$1,781.93

Grain settlement statement from Island City Grain for my share of the wheat raised on the irrigated land in 2013.

\$1100 check for sale of cattle who grazed the irrigated pasture on the north end of the irrigated lands.

Three utility bills from Oregon Trail Electric Coop for the pump that supplies water to the irrigated lands. More utility bills are available upon request.

Crop production services invoice for 1/3 of herbicide and fertilizer bills for 2012 crop year

2011 Aerial map that depicts the lands irrigated with this water right.

OVRD

Page 2, Letter to Water Resources dept. with Temporary transfer of part of Certificate 60082 water right.

Additional Utility bills, herbicide and fertilizer bills and photos or irrigation equipment in use are available upon request. A copy of the 2004 lease of these lands from West Family Ranch LLC to Randy and Pam Glenn is also available. It was not clear from the evidence of use affidavit of how much documentation you wanted.

Please expedite this transfer as the farmer who farms our ground would like to irrigate with the transferred water in late June.

If you have any questions, please call me at 5419104616 or email me at [rwest@oregonwireless.net](mailto:rwest@oregonwireless.net).

Sincerely yours,

Russell B. West, Vice President, West Family Ranch LLC
