Application for District Instream Lease

SALEM, OR Part 1 of 4 – Minimum Requirements Checklist

This Application to be used for water rights in the name of or conveyed by an Irrigation District (or similar organization) Complete Parts 1 through 4 and any required attachments	OWRD #	<u>1L-1414</u>
	District #	<u>ISL2014</u>

Check all items included with this application. (N/A = Not Applicable)

Yes N/A **Pooled Lease**-a lease with more than one **Lessor** (Landowner/water right interest holder)

Fee in the amount of:

<input checked="" type="checkbox"/> \$450.00 for a lease involving four or more landowners or four or more water rights	Or <input type="checkbox"/> \$300.00 for all other leases
<input checked="" type="checkbox"/> Check enclosed <u>or</u> <input type="checkbox"/> Fee Charged to customer account _____ (<i>Account name</i>)	

Part 1 – Completed Minimum Requirements Checklist

Part 2 – Completed District and Other Party Signature Page

Part 3 – Completed Place of Use and Lessor Signature Page
 (Include a separate **Part 3** for each Lessor.)

Part 4 – Completed Water Right and Instream Use Information
 (Include a separate **Part 4** for each Water Right.)

How many Water Rights are included in the lease application? 3 (# of rights)

List each water right to be leased instream here: C-81340, C-80929, C-84803

Yes N/A **Other water rights**, if any, appurtenant to the **lands** involved in the lease application and not proposed to be leased instream.

List those other water rights here: _____

Yes No Conservation Reserve Enhancement Program **CREP** – Are some or all of the lands to be leased part of CREP or another Federal program (list here: _____)?

Required Attachments:

Yes N/A Instream lease application map(s). More than one QQ and property may be included on each map. A map is **not** required if an entire right is being leased or if the right is for use of municipal or quasi-municipal water use. The map should include the following:

- A north arrow and map scale (no smaller than 1" = 1320').
- Label township, range, section and quarter-quarter (QQ).
- If an irrigation right, the numbers of acres to be leased in each quarter-quarter identify and hachure/shade to differentiate between the acreage being leased and any remaining. If the place of use has more than one priority date, source stream, and/or point of diversion you **must identify each with separate hachuring or shading** and label.
- Tax lot lines and numbers must be included on the map and should clearly identify the property(s) involved.

Yes N/A **If the Lessor(s) is not the deeded land owner**, include one of the following:

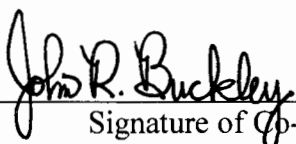

- A notarized statement from the land owner consenting to the lease and a copy of the recorded deed; or
- A water right conveyance agreement and a copy of the recorded deed for the landowner at the time the water right was conveyed; or
- Other documentation.

Yes N/A If the right has **not** been used in the last five years; provide supporting documentation indicating why a right (or portion thereof) is **not** subject to forfeiture.

Term of the Lease: SALEM, OR The lease is requested to begin in: month <u>June</u> year <u>2014</u> and end: month <u>September</u> year <u>2016</u> .	
Public use: Check the public use(s) this lease will serve (as defined by ORS 537.332): <input checked="" type="checkbox"/> Conservation, maintenance and enhancement of aquatic, fish and wildlife, fish and wildlife habitat and any other ecological values. <input type="checkbox"/> Recreation <input type="checkbox"/> Pollution abatement <input type="checkbox"/> Navigation	Termination provision (for multiyear leases): The parties to the lease request (choose one): <input checked="" type="checkbox"/> a. The option of terminating the lease prior to expiration of the full term with written notice to the Department by the Lessor(s) and/or Lessee. <input type="checkbox"/> b. The option of terminating the lease prior to expiration of the full term, with consent by all parties to the lease. <input type="checkbox"/> c. The parties would not like to include a Termination Provision. (See instructions for limitations to this provision)
Additive/Replacing Relationship to other instream water rights: Instream leases are generally additive to other existing instream water rights created as a result of instream leases and transfers and/or allocations of conserved water. Since instream leases are also generally senior to other instream rights created through a state agency process or conversion of minimum flows, they generally replace a portion of these junior instream rights. If you would like this lease to relate to other instream water rights differently than described above, please check this box. <input type="checkbox"/> And attach an explanation of your intent.	
Precedent: If a right which has been leased is later proposed to be leased again or later transferred or become part of an allocation of conserved water project, a new injury review shall be required. An instream lease shall not set a precedent on a future transaction.	
Validity of the rights to be leased: <input checked="" type="checkbox"/> The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last five years or have been leased instream; or <input type="checkbox"/> The water right(s) have not been used for the last five years according to the terms and conditions of the rights. However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right is not subject to forfeiture has been provided.	

SIGNATURES

The undersigned declare that the information contained in this application is true and accurate.

Date: May 21, 2014

Signature of Co-Lessor

Printed name (and title): John R. Buckley, Manager

Business/Organization name: East Fork Irrigation District

Mailing Address (with state and zip): PO Box 162, Odell, OR 97044

Phone number (include area code): 541-354-1185 **E-mail address: cindyefid@hoodriverelectric.net

Date: _____

Signature of Co-Lessor

Printed name (and title): _____

(cfs = cubic feet per second and af = acre-feet)

Priority Date	POD #	Use	Acres	Other Information (such as conditions/limitations on the right)	Rate (cfs)	Volume (af)
08/08/1977	1	IR	2.95		0.037	8.85

Total af from storage, if applicable: _____ AF or N/A
 If the POD is not described on the certificate or, if there is more than one POD listed on the certificate, then the specific POD must be described: _____

Table 3

Instream Use created by the lease **River Basin:** Hood **River/Stream Name:** East Fork, tributary to Hood River

Proposed Instream Reach: A reach typically begins at the POD and ends at the mouth of the source stream: From the POD #1 to Mouth (RM0.0)
Or Proposed Instream Point: Instream use protected at the POD

OR Please check this box if you are not sure of the proposed reach and want water to be protected within a reach below the POD, if possible. If no reach is identified or the above box is not checked, and there is only one POD listed on the water right, the lease may be processed to be protected at the POD.)

Instream Portion: May not exceed the maximum rate/volume for the right (identified in Table 2)
 Use the table 3 to illustrate the instream rate, volume and instream period by priority date, POD, Use and acreage, as appropriate. If not enough room below, you may add rows (see instructions) or create a spreadsheet (clearly labeled and matching the below portion of Table 3) and attach.

Priority date	POD #	Use	Acres	Proposed Instream Period	Instream Rate (cfs)	Total instream volume (af)
08/08/1977	1	IR	2.95	June 2014 thru September 2016	0.037	8.85

OR Please check this box if you are not sure of the proposed rate, volume and instream period. As part of its review process, the Department will identify the appropriate instream rate, volume and period considering the water right(s) being leased and instream benefits.

Yes N/A **Conditions to avoid enlargement or injury to other water rights, if any, or other limitations:** list here _____
 Note: The Department may identify additional conditions to prevent injury and/or enlargement.

Any additional information about the proposed instream use: _____
