Explain in your own words what you propose to accomplish with this transfer application, and why:

The property has been subdivided. The new parcels tax lots 501 & 502 do not have the authorized well located on them. The transfer application is to allow irrigation from one existing well located on tax lot 501 and one proposed well to be drilling upon transfer approval on tax lot 502. An Order approving the transfer for these parcels of land would prevent any future conflicts if the property holding the authorized well is to sell.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

- Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:**

- Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.  
**Tip:** You may search for well logs on the Department’s web page at:  
[http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

**AND/OR**

- Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide “a best estimate” for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Additional remarks: **The proposed well #2 to be located on TL 502 will be constructed to meet the department's minimum well construction standards. The construction of the proposed well #2 will be such that the well driller will be in contact with OWRD groundwater staff for purposes of not exceeding the department's limitations for completed depths of an irrigation well.**
