Application for Instream Lease

Part 1 of 4 – Minimum Requirements Checklist

Complete Part 1 through 4 and include the required attachments Fill in or check boxes as indicated. (N/A= Not Applicable)	OWRD # <u>1L-1431</u>
	Fee- <u>\$300.⁰⁰</u>

Pursuant to ORS 537.348(2) and OAR 690-077

Check all items included with this application. (N/A = Not Applicable)

Yes **Part 1 – Completed Minimum Requirements Checklist and Application Fee**

Fees	<input type="checkbox"/> \$450.00 for a lease involving four or more landowners or four or more water rights	<input checked="" type="checkbox"/> \$300.00 for all other leases
	<input type="checkbox"/> Check enclosed or	
	<input type="checkbox"/> Fee Charged to customer account _____ (account name)	

RECEIVED BY OWRD

Yes **Part 2 – Completed Instream Lease Application Map Checklist.**

Yes **Part 3 – Completed Water Right and Instream Use Information**
 Include a separate **Part 3** for **each water right**

AUG 19 2014

Yes **Part 4 – Completed Instream Lease Provisions and Signatures**

SALEM, OR

Yes **How many water rights are leased? 3 List them here: Certs #185, 15877 & 26160**
 Include a separate **Part 3** for each **water right**.

Yes N/A **Other Water Rights**, if any, appurtenant to the lands involved in the lease application and not proposed to be leased instream?

List those other water rights here: Permit S-54649

Yes No **Conservation Reserve Enhancement Program (CREP)**. Are some or all of the lands to be leased part of CREP or another Federal program (list here: crep)?

Attachments:

Yes N/A **Map:** Instream Lease map requirements (see Part 2 of this application)

Yes N/A **Tax Lot Map:** If a portion of the water right *not included in the lease* is appurtenant to lands owned by others, a tax lot map must be included with the lease application. The tax lot map should clearly show the property involved in the lease.

Yes N/A Supporting documentation describing why a right (or portion thereof) is valid and not subject to forfeiture even though the right has not been exercised for five or more consecutive years. This information only needs to be provided if the checkbox has been checked to identify that the water right has not been used in the last five years and is not subject to forfeiture (See Part 4 of 4).

Yes N/A If the Lessor (water right holder) is not the deeded landowner - provide one of the following.

- A notarized statement from the landowner consenting to the lease and a copy of the recorded deed; or.
- A water right conveyance agreement and a copy of the recorded deed for the landowner at the time the water right was conveyed; or
- Other documentation which provides authority to pursue the lease absent consent of the landowner.

Part 2 of 4 – Instream Lease Application Map Checklist

A Map is generally required for each water right not leased in its entirety

The application map (if required) should include all the items listed below and match the existing water right(s) of record. Check all boxes that apply.

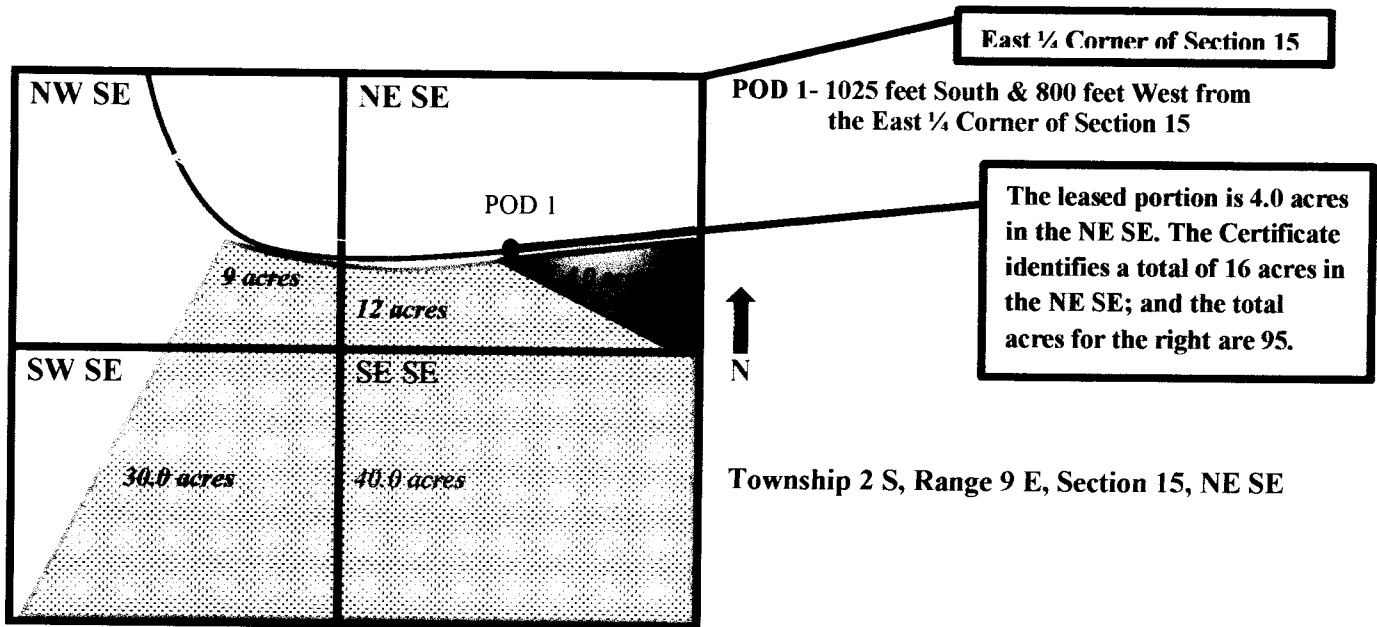

This should be a simple map. (See example below). A copy of a final proof survey map with the portion to be leased shaded or hachured in will also suffice.

- N/A A map is required for each water right not leased in its entirety. More than one QQ and property may be included on each map. A map is not required, if leasing the entire right or if the right to be leased is for municipal or quasi-municipal water use.
- The map should be of sufficient quality to be reproducible. Please do not use highlighters to mark items on the map as highlighters do not always copy.
- A North arrow and map scale (no smaller than 1" = 1320').
- Township, Range, Section, quarter quarter (QQ), and a clearly labeled survey corner.
- For irrigation or other similar use, the number of acres to be leased in each quarter-quarter clearly labeled and hachured to differentiate between the acres being leased and any remaining. If the place of use is broken down by more than one priority date, or source stream, and/or point of diversion you must identify each with separate hachuring and clearly label.
- If available, identify the existing point(s) of diversion.

SALEM, OR

Part 4 of 4 – Lease Provisions and Party Signatures

<p>Term of the Lease (may be from 1 year up to 5 years): The lease is requested to begin in: month <u>July</u> year <u>2014</u> and end: month <u>July</u> year <u>2018</u></p> <p>Note: The begin month is generally the first month of the irrigation season and the end month is the last month in the irrigation season. If not an irrigation right, this would be the first and last month of your authorized period of allowed use.</p>	
<p>Public use: Check the public use(s) this lease will serve (as defined by ORS 537.332):</p> <p><input checked="" type="checkbox"/> Conservation, maintenance and enhancement of aquatic, fish and wildlife, fish and wildlife habitat and any other ecological values.</p> <p><input type="checkbox"/> Recreation</p> <p><input type="checkbox"/> Pollution abatement</p> <p><input type="checkbox"/> Navigation</p>	<p>Termination provision (for multiyear leases): The parties to the lease request (choose one):</p> <p><input checked="" type="checkbox"/> a. The option of terminating the lease prior to expiration of the full term with written notice to the Department by the Lessor(s) and/or Lessee.</p> <p><input type="checkbox"/> b. The option of terminating the lease prior to expiration of the full term, with consent by all parties to the lease.</p> <p><input type="checkbox"/> c. The parties would not like to include a Termination Provision.</p> <p>(See instructions for limitations to this provision)</p>
<p>Additive/Replacing Relationship to other instream water rights: Instream leases are generally additive to other existing instream water rights created as a result of instream leases, transfers and/or allocations of conserved water. Since instream leases are also generally senior to other instream rights created through a state agency process or conversion of minimum flows, they generally replace a portion of these junior instream rights.</p> <p>If you would like this lease to relate to other instream water rights differently, please check this box. <input type="checkbox"/></p> <p>And attach an explanation of your intent. <u>N/A</u></p>	
<p>Validity of the Right(s) to be leased (check the appropriate box):</p> <p><input checked="" type="checkbox"/> The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last five years or have been leased instream; or</p> <p><input type="checkbox"/> The water right(s) have not been used for the last five years according to the terms and conditions of the right(s). However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right(s) is not subject to forfeiture is provided.</p>	

Precedent: If a right which has been leased is later proposed to be leased again or later transferred or become part of an allocation of conserved water project, a new injury review shall be required. An instream lease shall not set a precedent on a future transaction.
