

Application for Permanent Water Right Transfer

Part 1 of 5 - Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

L		
Che	ck all ite	ms included with this application. (N/A = Not Applicable)
\boxtimes		Part 1 – Completed Minimum Requirements Checklist.
\boxtimes		Part 2 – Completed Transfer Application Map Checklist.
\boxtimes		Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator . If you have questions, call Customer Service at (503) 986-0801.
\boxtimes		Part 4 – Completed Applicant Information and Signature.
\boxtimes		Part 5 – Information about Water Rights to be Transferred: How many water rights are to be transferred? 4 List them here: C-80996, C-16868, C-76533, and C-66523, Please include a separate Part 5 for each water right. (See instructions on page 6)
		Attachments:
\boxtimes		Completed Transfer Application Map.
\boxtimes		Completed Evidence of Use Affidavit and supporting documentation.
	⊠ N/A	Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
	⊠ N/A	Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
\boxtimes	□ N/A	Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
	⊠ N/A	Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
	N/A	Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.

JAN 2 0 2015

Your transfer application will be returned if any of the map requirements listed below are not met. Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply. N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions. \boxtimes N/A If more than three water rights are involved, separate maps are needed for each water right. \boxtimes Permanent quality printed with dark ink on good quality paper. \boxtimes The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30 x 30 inch maps, one extra copy is required. \boxtimes A north arrow, a legend, and scale. \boxtimes The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department. \boxtimes Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines. M Tax lot boundaries (property lines) are required. Tax lot numbers are recommended. \boxtimes Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads. \boxtimes Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches. \boxtimes Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. X Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a

- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
 N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example 42.53764°).

Exampl	e for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 10	0 acres)	and 45.0 acres

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each water right involved as follows:

a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

	FEE WORKSHEET for SUBSTITUTION		
1	Base Fee (includes change to one well)	1	\$725.00
	Number of wells included in substitution (2a)		
1	Subtract 1 from the number in 3a above: (2b) If only one well this will be 0		
2	Multiply line 2b by \$350 and enter » » » » » » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above » » » » » Fee for Substitution:	3

By providing an e-mail address, consent is given to receive all correspondence from the Department electronically. Copies of the Final Order documents will also be mailed.								
	ds an additional	source of w	rater to better our existing	transfer application, and why:				

propose to transfer 19 acres of 1865 priority water right under C-80996 from the John Day River, the authorized point of diversion being the Enterprise Ditch. We propose an upstream additional point of diversion to be located at the authorized and existing Luce Long Ditch POD. From this APOD the water will gravity flow approximately 3 miles along the Luce Long Ditch to a pumping station where it will be pumped uphill about 1/4 mile to the golf course. We plan to incorporate this water into our existing sprinkler irrigation system.

We currently have three water rights:

- (1) C-16868 from Chimney Gulch, priority date April 9, 1942, for 0.32 cfs, for primary irrigation of 12.8 acres.
- (2) C-76533 from a sump in the John Day River Basin, priority date May 1, 1957 for 0.42 cfs, for primary irrigation of 33.6 acres.
- (3) C-66523 from another sump in the John Day River Basin, priority date June 10, 1983 for supplemental irrigation of 33.6 acres under C-76533.
- We propose to lift these three water rights, to place the 1865 priority right in the areas of most importance, then place our existing rights in areas of secondary importance. We realize that the supplemental right under C-66523 must overlay the primary right under C-76533.
- We currecutly pump water from a pond located on the east side of the golf course using the pond as a bulge in the system under C-16868. We propose to incorporate the 1865 priority water from this transfer to blend with the waters from our other three certificates and continue utilizing the pond as a bulge in the system.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or part	ially funded by the American Recovery and
Reinvestment Act. (Federal stimulus dollars	s)

Check One Box By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); OR I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; OR I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.								
I understand that prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Blue Mountain Eagle I (we) affirm that the information contained in this application is true and accurate.

	CERTIFICATE # 80996	RECEIVED BY OWRD
Description of W	ater Delivery System	1411
System capacity:	<u>0.50</u> cubic feet per second (cfs) OR	JAN 2 0 2015
	gallons per minute (gpm)	SALEM, OR

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. POD 1 is located on the south bank of the John Day River. The water is diverted through a headgate structure at the head of the Enterprise Ditch and conveyed via said ditch to flood irrigate that portion of the from lands lying south of the highway. The water is also diverted from the Enterprise Ditch through a feeder a ditch lying east of the from lands, thence westerly along the feeder ditch to the NE corner of the from lands, thence westerly, along the north side of the from lands to the NW corner of said from lands to flood irrigate the field lying north of the highway.

	Certificate # <u>70333</u>
For 1	Place of Use or Character of Use Changes
	there other water right certificates, water use permits or ground water registrations associated h the "from" or the "to" lands? Yes No
If Y	YES, list the certificate, water use permit, or ground water registration numbers: <u>C-80996, C-16868</u> ,
<u>C</u>	<u>- 66523.</u>
a p to a	rsuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to brimary right proposed for transfer must be included in the transfer or be cancelled. Any change a ground water registration must be filed separately in a ground water registration modification blication.
For s	Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)
	ound water supplemental Permit or Certificate #; rface water primary Certificate #
For a	a change from Supplemental Irrigation Use to Primary Irrigation Use
Ide	ntify the primary certificate to be cancelled. Certificate #
For a	a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:
	Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx
AN	ID/OR
	Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not

Table 3. Construction of Point(s) of Appropriation

to complete Table 3.

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary

CERTIFICATE # 66523 Description of Water Delivery System System capacity: 0.42 cubic feet per second (cfs) OR gallons per minute (gpm) SALEM, OR

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. POA#1 is located at sump dug to create a pond on private property on the north side of US Highway 26. The water is pumped southerly through a buried PVC pipeline, crossing beneath the highway and continuing southerly, crossing beneath the Luce Long Ditch, uphill to buried mainline and distribution lines throughout the golf course to sprinkler heads to irrigate the golf course. This certificate is supplemental under ground water C-76533 and supplemental for 12.8 acres under surface water C-16868.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)
