Part 3 of 5 – Fee Worksheet

[illegible]

*Example for Line 5a calculation to transfer 45.0 acres of Primary Permit S-12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Permit S-87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each permit involved as follows:
 - a. Divide total authorized cfs by total acres in the permit (*for S-12345, 1.25 cfs ÷ 100 ac*); then multiply by the number of acres to be changed to get the application cfs (*x 45 ac = 0.56 cfs*).
 - b. If the water right permit does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (*For S-87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs*)
2. Add cfs for the portions of permits on all the land included in the application; however **do not count cfs for supplemental permits on acreage for which you have already calculated the cfs fee for the primary permit on the same land**. The fee should be assessed only once for each “on the

ground" acre included in the application. (In this example, blank 5a would be only 0.56 cfs, since both permits serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

Explain in your own words what you propose to accomplish with this permit amendment; and why: Our well authorized under Permit G-12331, MULT-4228, went dry in March 2013. We simultaneously began hiring tanker trucks to furnish water to the "bulge" in our system and completed construction of a replacement well (MULT-113080) on May 9, 2013. We thought that we could simply amend our permit.

However, we found difficulties with that approach and contacted Watermaster, Cole Beaman, requesting his patience with us as we try to pursue the appropriate course of action with the Oregon Water Resources Department (WRD). This action included withdrawal of our pending COBU because Mr. Borden identified incomplete actions such as our failure to submit an initial SWL or annual SWL prior to our "C" date. Simultaneously, we requested a Time Extension from WRD.

With the COBU withdrawn and the Time Extension now granted, we request a Permit Amendment (PA) to allow our new well location on the Permit and simultaneous use of both the old and new wells. After the PA is approved, we then propose to provide the SWL measurements and pump test on the new well and file an amended COBU.

Hopefully, WRD will issue a Certificate for our amended COBU.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".
