SUBJECT: Water Right Transfer Application T-11908

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-11908. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

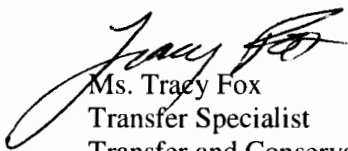

A public notice is being published in the Department's weekly publication simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me at Tracy.L.Fox@wr.d.state.or.us or 503 986-0827 if I may be of assistance.

Sincerely,

  
Ms. Tracy Fox  
Transfer Specialist  
Transfer and Conservation Section

**BEFORE THE WATER RESOURCES DEPARTMENT  
OF THE  
STATE OF OREGON**

In the Matter of Transfer Application	)	PRELIMINARY DETERMINATION
T-11908, Douglas County	)	PROPOSING APPROVAL OF A
	)	CHANGE IN POINT OF DIVERSION

**Authority**

Oregon Revised Statute (ORS) 540.505 to 540.580 establishes the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rule (OAR) Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

**Applicants**

HARDING BRENT AND JACALYN SUE HEDGPETH  
17110 102ND AVE NE  
BOTHELL, WA 98011

**Findings of Fact**

1. On October 22, 2014, HARDING BRENT AND JACALYN SUE HEDGPETH filed an application to change the point of diversion under Certificate 22105. The Department assigned the application number T-11908.
2. Notice of the application for transfer was published on October 28, 2014, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On January 26, 2015, the Department contacted the applicants by telephone and by email to notify them of deficiencies in the application. The deficiencies included a missing delivery system description, the ¼ ¼ and tax lot numbers needed clarification and some labeling issues on the transfer application map. The Department requested that the deficiencies be resolved by February 26, 2015.
4. On February 10, 2015, the applicants submitted amended documents resolving the deficiencies.
5. On February 13, 2015, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-11908 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of March 16, 2015, for the applicants to respond. The applicants requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

applicants are authorized to pursue the transfer (or amended the application or did not respond by the deadline).

6. The portion of the right to be transferred is as follows:

**Certificate:** 22105 in the name of H. M. KNAPP (perfected under Permit S-22870)  
**Use:** IRRIGATION of 6.5 ACRES  
**Priority Date:** MARCH 26, 1954  
**Rate:** 0.08 CUBIC FOOT PER SECOND  
**Limit/Duty:** The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.  
**Source:** NORTH UMPQUA RIVER, a tributary of UMPQUA RIVER

**Authorized Point of Diversion:**

Twp	Rng	Mer	Sec	Q-Q	Gov Lot
26 S	6 W	WM	32	SW NE	2

**Authorized Place of Use:**

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	Gov Lot	Acres
26 S	6 W	WM	32	NW NE	2	6.2
26 S	6 W	WM	32	SW NE	2	0.3

7. Certificate 22105 does not describe the measured distances of the point of diversion, however information is available from the applicants and the Certified Water Rights Examiner (CWRE) indicating that the point of diversion is further described as follows:

Twp	Rng	Mer	Sec	Q-Q	Gov Lot	Measured Distances
26 S	6 W	WM	32	SW NE	2	1590 FEET SOUTH AND 1580 FEET WEST FROM THE NE CORNER OF SECTION 32

8. Transfer Application T-11908 proposes to move the authorized point of approximately 590 feet downstream to:

Twp	Rng	Mer	Sec	Q-Q	Gov Lot	Measured Distances
26 S	6 W	WM	32	SW NE	2	1550 FEET SOUTH AND 2170 FEET WEST FROM THE NE CORNER OF SECTION 32

9. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. This diversion may be eligible for screening cost-share funds.

***Transfer Review Criteria [OAR 690-380-4010(2)]***

10. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
11. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-11908.
12. The proposed change would not result in enlargement of the right.
13. The proposed change would not result in injury to other water rights.

**Determination and Proposed Action**

The change in point of diversion proposed in Transfer Application T-11908 appears to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

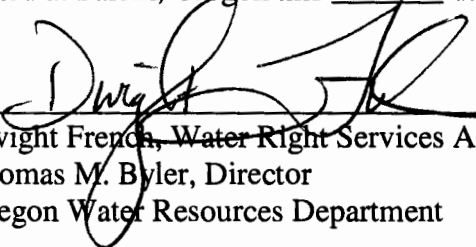

*If Transfer Application T-11908 is approved, the final order will include the following:*

1. *The change in point of diversion proposed in Transfer Application T-11908 is approved.*
2. *The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 22105 and any related decree.*
3. *Water right Certificate 22105 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.*
4. *The quantity of water diverted at the new point of diversion shall not exceed the quantity of water lawfully available at the original point of diversion.*
5. *Water use measurement conditions:*
  - a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each new point of diversion.*
  - b. *The water user shall maintain the meter or measuring device in good working order.*
  - c. *The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the Watermaster shall request access upon reasonable notice.*
6. *Prior to diverting water, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.*

*The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.*

7. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2016**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*
8. *After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*

Dated at Salem, Oregon this 23 day of March, 2015.

  
Dwight French, Water Right Services Administrator, for  
Thomas M. Byler, Director  
Oregon Water Resources Department

This Preliminary Determination was prepared by Tracy Fox. If you have questions about the information in this document, you may reach me at 503 986-0827 or Tracy.L.Fox@wrdd.state.or.us.

Protests should be addressed to the Water Rights Services Division, Oregon Water Resources Department, 725 Summer Street, Suite A, Salem, OR 97301-1266.
