The parties would not like to include a Termination Provision.<br>(See instructions for limitations to this provision) |
| <b>Additive/Replacing Relationship to other instream water rights:</b> Instream leases are generally additive to other existing instream water rights created as a result of instream leases and transfers and/or allocations of conserved water. Since instream leases are also generally senior to other instream rights created through a state agency process or conversion of minimum flows, they generally replace a portion of these junior instream rights.<br>If you would like this lease to relate to other instream water rights differently than described above, please check this box. <input type="checkbox"/> And attach an explanation of your intent. |  |
| <b>Precedent:</b> If a right which has been leased is later proposed to be leased again or later transferred or become part of an allocation of conserved water project, a new injury review shall be required. An instream lease shall not set a precedent on a future transaction.   |  |
| <b>Validity of the rights to be leased:</b><br><input checked="" type="checkbox"/> The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last five years or have been leased instream; or<br><input type="checkbox"/> The water right(s) <b>have not been used</b> for the last five years according to the terms and conditions of the rights. However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right is not subject to forfeiture has been provided.   |  |

### Eligible Water Rights

Surface and Storage water rights subject to Instream Lease include:

1. Certificated rights.
2. Adjudicated rights evidenced by a court decree.
3. Permits or transferred rights upon which satisfactory proof has been made.
4. Conserver's portion of conserved water allocation under ORS 537.445 to 537.500.
5. Secondary water rights for the use of stored water.

A water right that has not been used for five or more years may no longer be valid under Oregon law. If the Department reasonably suspects the right may no longer be valid, an affidavit attesting to the use and supporting documentation may be required or the lease may be denied as incomplete. An irrigation district or other water purveyor may provide evidence for water right holders, verifying the delivery of water for the lands appurtenant to the rights to be leased. Municipal water rights, in general, are not subject to forfeiture. However, if you have any questions, please contact the Department for additional information and/or clarification.

### Deadline for Submittal

A lease involving a water right with a seasonal use must be received prior to July 1. A lease involving a water right with a year round use must be received prior to October 1.

### Other Water Rights

It is important to provide an inventory of *all water rights appurtenant* to the same lands involved in the lease application. These are rights that are not being included in the lease application. This includes other primary and supplemental rights, even if the rights are still in permit status.

### Conservation Reserve Enhancement Program (CREP)

Indicate if some or all of the lands involved in the lease application are enrolled in the CREP program (or other similar Federal Program). The Department will send a copy of the order approving the lease to the Farm Services Administration and other associated parties. If lands involved in the lease are enrolled in another Federal Program, please provide the name of that program in the space provided in Part 1 of 4.

### Term of the lease

The term of the lease can be no less than one calendar year and no more than five calendar years.

**Note:** A lease may be renewed many times. See the link to Instream Leasing Forms above.

### Termination provision

For multiyear leases, this provision gives the Lessor(s) and any Lessee an opportunity to request or prohibit an Instream Lease to terminate prior to the scheduled termination date. Unless otherwise specified, the Lessee, if there is one, has the same standing as the Lessor for management of the instream lease.

## United States Department of the Interior

BUREAU OF RECLAMATION  
1375 SE Wilson Avenue, Suite 100  
Bend, Oregon 97702-2607

Mr. Brian Hampson  
Rogue River Valley Irrigation District  
3139 Merriman Road  
Medford, OR 97501

Subject: Rogue River Valley Irrigation District 2015 Instream Lease Application

Dear Mr. Hampson

Thank you for your May 18<sup>th</sup> letter requesting Reclamation concurrence on the application for a temporary instream lease of 76.22 acres of supplemental water under water right certificate S83729. Reclamation has no objections to this application and believes it's very important that the District and Reclamation protect this water right for future use. Please contact myself at (541) 398-6541 extension 226 or Kathy Kihara at extension 229 should you need additional information.

Sincerely,

Douglas DeFlicht  
Bend Field Office Manager
