SUBJECT: Water Right Transfer Application T-12195

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-12195. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Eugene Register Guard newspaper, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the last date of newspaper publication.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me at if I may be of assistance at 503-986-0806 or kerri.h.cope@ wrd.state.or.us.

Sincerely,

Transfer Specialist

Authority

Oregon Revised Statute (ORS) 540.505 to 540.580 establishes the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rule (OAR) Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Findings of Fact

1. On November 4, 2015, LYNN AND RHONDA MOORE filed an application to change the point of diversion and the place of use under Certificate 28220. The Department assigned the application number T-12195.
2. Notice of the application for transfer was published on November 10, 2015, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On December 16, 2015, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-12195 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of January 13, 2016, for the applicants to respond. The applicants requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicants are authorized to pursue the transfer.
4. The portion of the right to be transferred is as follows:

Certificate:	28220 in the name of ERNEST JANSSEN (perfected under permit S-25307)
Use:	IRRIGATION OF 2.50 ACRES
Priority Date:	JANUARY 22, 1958
Rate:	0.032 CUBIC FOOT PER SECOND

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

Transfer Review Criteria [OAR 690-380-4010(2)]

8. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
9. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right was present within the five-year period prior to submittal of Transfer Application T-12195.
10. The proposed changes would not result in enlargement of the rights.

11. The proposed changes would not result in injury to other water rights.

Determination and Proposed Action

The change in point of diversion and change in place of use proposed in Transfer Application T-12195 appear to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

If Transfer Application T-12195 is approved, the final order will include the following:

- 1. The change in point of diversion and change in place of use proposed in Transfer Application T-12195 are approved.*
- 2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 28220 and any related decree.*
- 3. Water right Certificate 28220 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.*
- 4. The quantity of water diverted at the new point of diversion, shall not exceed the quantity of water lawfully available at the original point of diversion.*
- 5. The water user shall operate and maintain an approved fish screen at the new point of diversion. If Oregon Department of Fish and Wildlife (ODFW) determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.*
- 6. The former place of use of the transferred right shall no longer receive water under the right.*
- 7. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2017**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*

8. *After satisfactory proof of beneficial use is received, a new certificate confirming the rights transferred will be issued.*
