Application for **Permanent** Water Right Transfer Part 1 of 5 – Minimum Requirements Checklist

		SALEM, OR				
	Th	is transfer application <u>will be returned</u> if Parts 1 through 5 and all required attachments are not completed and included. For questions, please call (503) 986-0900, and ask for Transfer Section.				
Che	ck all ite	ms included with this application. (N/A = Not Applicable)				
\boxtimes		Part 1 – Completed Minimum Requirements Checklist.				
\boxtimes		Part 2 – Completed Transfer Application Map Checklist.				
		Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: <u>http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator</u> . If you have questions, call Customer Service at (503) 986-0801.				
\boxtimes		Part 4 – Completed Applicant Information and Signature.				
\boxtimes						
		Please include a separate Part 5 for each water right. (See instructions on page 6)				
		Attachments:				
\boxtimes		Completed Transfer Application Map.				
\boxtimes		mpleted Evidence of Use Affidavit and supporting documentation. The applicant is a unicipality as defined under ORS 540.510(2).				
	N/A	Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.) Both the applicant and the landowner are divisions of the US Government.				
	N/A	Supplemental Form $D - For$ water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.				
	N/A Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.					
	N/A	Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.				
	N/A N/A	Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.				
		(For Staff Use Only) WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S): Application fee not enclosed/insufficient Map not included or incomplete Land Use Form not enclosed or incomplete Additional signature(s) required Part is incomplete Other/Explanation Staff: 503-986-0 Date:/

JAN 07 2016

Part 2 of 5 - Transfer Application Map Checklist

	SALEM, OR						
Ye	Your transfer application <u>will be returned</u> if any of the map requirements listed below are not met.						
		sure that the transfer application map you submit includes all the required items and he existing water right map. Check all boxes that apply.					
N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a CWREs, see <u>http://apps.wrd.state.or.us/apps/wr/cwre_license_view/</u> . CWRE s signature are not required for substitutions.							
	N/A	If more than three water rights are involved, separate maps are needed for each water right.					
\boxtimes		Permanent quality printed with dark ink on good quality paper.					
\boxtimes		The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30×30 inch maps, one extra copy is required.					
\boxtimes		A north arrow, a legend, and scale.					
		The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.					
\boxtimes		Township, Range, Section, ¹ / ₄ ¹ / ₄ , DLC, Government Lot, and other recognized public land survey lines.					
\boxtimes		Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.					
\boxtimes		Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.					
\boxtimes		Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.					
		Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.					
	N/A N/A	Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.					
	N/A	Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit. Change in Character of Use only for a portion of the Storage Right					
	N/A N/A	If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – $42^{\circ}32^{\circ}15.5^{\circ}$) or degrees-decimal with five or more digits after the decimal (example – 42.53764°). 7	If no box is applicable, enter 0 on line 7 » » » » » » » » » » » » » » » » » »	7	0
8	Subtract line 7 from line 6 » » » » » » » » » » » » » » » Transfer Fee:	8	\$1,000
	C 11 C 1 1 1 1 1 1 1 1 1 C 1 C 1 C C C 1 1 2 1 C 1 C	<u> </u>	1450

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each water right involved as follows:

- a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).
- b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
- 2. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental** rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

	FEE WORKSHEET for SUBSTITUTION		
1	Base Fee (includes change to one well)	1	\$725.00
	Number of wells included in substitution (2a)		
	Subtract 1 from the number in 3a above: (2b) If only one well this will be 0		
2	Multiply line 2b by \$350 and enter » » » » » » » » » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above » » » » » » Fee for Substitution:	3	NA

Explain in your own words what you propose to accomplish with this transfer application, and why:

Water right certificate 57612 (as perfected under Permit R-2232) allows for the storage of 155,000 acre feet for the purpose of irrigation. This transfer proposes to change the character of use of 83,987 acre feet pursuant to the Crooked River Collaborative Water Security and Jobs Act of 2014, as follows: 1) up to 5,100 acre feet will be stored for fish life and wildlife use that will subsequently be protected instream under a secondary water right as mitigation for the City of Prineville for groundwater pumping; 2) the remainder of the transferred amount will be stored for irrigation, fish life and wildlife use. The use of the remaining 71,013 acre feet of stored water will not change (i.e., the use will remain as irrigation).

Reclamation will release 5,100 acre-feet annually which shall be protected instream by a secondary water right as described above. The City shall contract with Reclamation for the use of the released stored water as mitigation for groundwater pumping. On an annual basis, in the event not all of the 5,100 acre feet of stored water is used by the City as mitigation, Reclamation shall release the remainder of the 5,100 acre feet for fish life and wildlife use.

During the filling of the reservoir, storable water that enters the reservoir, whether from infill, carryover, or a combination of both, first fills all contracted storage space. The total contracted storage space is 86,113 acre-feet and is comprised of 21 account holders. As the reservoir fills, the contracted space continues to fill, on a proportionate basis, until the total contracted storage space becomes full. Once the contracted storage space is full, the uncontracted storage space begins to fill until the reservoir reaches maximum capacity on the Day of Allocation (typically late spring).

Any water that is part of the remainder of the transferred amount for fish life and wildlife use that is not released during the water year, may continue to be released for downstream fish life and wildlife purposes until the reservoir reaches maximum capacity in the subsequent water year (the Day of Allocation), at which time the remaining water is credited to the first fill account up to but not to exceed 86,113. Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

Check One Box

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); OR
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; OR

I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

I understand that prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: <u>Bend Bulletin</u>.

I (we) affirm that the information contained in this application is true and accurate. Dawn Wiedmeler, Area Manager Print Name (and Title if applicable) Applicant signature

Applicant signature

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? X Yes No If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or email addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.

Check the following boxes that apply:

The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.

The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.

Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold? \Box Yes \boxtimes No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see: http://www.oregon.gov/owrd/docs/transfer-propertytransactions.pdf

CERTIFICATE # <u>57612</u>

Description of Water Delivery System

System capacity: 155,000 Acre-feet (under this storage right)

maximum capacity of outlet works at normal water surface elevation of 3234.8 feet <u>3300</u> cubic feet per second (cfs)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. The reservoir captures inflow from the Crooked River and other associated drainages behind Bowman Dam. The primary outflow from the dam discharges to the Crooked River.

 Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

 (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L)	Twp	Rng	Sec	1/4 1/4	Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
1	⊠ Authorized □ Proposed	N/A	17 S	16 E	11	SW NW	N/A	Recognized POD location identified in WRIS is T16S, R16E, Section 36, SE SE Bowman Dam – located in T17S, R16E Section 11, SW NW The center of the dam is located at: 2,350 feet South and 650 feet East from the NW Corner of Section 11, Township 17 South, Range 16 East (W.M.)

Check all type(s) of change(s) proposed below (change "CODES" are provided in parentheses):

	Place of Use (POU)	Supplemental Use to Primary Use (S to P)
\boxtimes	Character of Use (USE)	Point of Appropriation/Well (POA)
	Point of Diversion (POD)	Additional Point of Appropriation (APOA)
	Additional Point of Diversion (APOD)	Substitution (SUB)
	Surface Water POD to Ground Water POA (SW/GW)	Government Action POD (GOV)

Will all of the proposed changes affect the entire water right?

- Yes Complete only the Proposed ("to" or "on" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.
- No Complete all of Table 2 to describe the portion of the water right to be changed. <u>The proposed</u> <u>change in use affects the entirety of the POU (or footprint of the reservoir) but only modifies a portion of the</u> <u>Character of Use of the right.</u> We expect a remaining right will be issued for the unchanged portion of the right.

Please use and attach additional pages of Table 2 as needed. See page 6 for instructions. Do you have questions about how to fill-out the tables? Contact the Department at 503-986-0900 and ask for Transfer Staff.

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \Box Yes \boxtimes No - Federal Property

If YES, list the certificate, water use permit, or ground water registration numbers: _____.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation) - N/A -

Ground water supplemental Permit or Certificate # ____; RECEIVED BY OWRD Surface water primary Certificate # ____.

For a change from Supplemental Irrigation Use to Primary Irrigation Use JAN 07 2016

Identify the primary certificate to be cancelled. Certificate # - N/A -

SALEM, OR

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.
 Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
