Re: Termination of IL-615 / MP-33

On April 10, 2015, the Department issued an order approving IL-615 and Mitigation Project MP-33. The mitigation project was awarded 90.0 mitigation credits for use in the Whychus Creek and General Zones of Impact.

On March 16, 2015, the Department received a request from the DRC Mitigation Bank and Matt Cyrus for Aspen Lakes Development to terminate the instream lease and mitigation credit project prior to the 2017 calendar year. The lease term of this lease has been modified by the Department to end on October 31, 2106, and the mitigation credits awarded to this project were will longer be valid after December 31, 2016.

Enclosed is a copy of the final order. If you have any questions, please call me at (503) 986-0898.

Sincerely,

Codi Holmes
Natural Resource Specialist
