33970

Explain in your own words what you propose to accomplish with this modification; and why: Consistent with JLR's notice pursuant to ORS 540.520(9) to the Oregon Water Resources Department (the "Department") in October 2012 of its intent to change the authorized specific uses for Certificate Nos. 33969, 33970, 38981, and 40299 from specific to general, JLR now seeks to make Ground Water Registration No. 2218 consistent with these Certificates, by modifying the authorized character of use from specific to general industrial use, and by modifying the authorized place of use. In addition, this application seeks authorization for an additional point of appropriation under Ground Water Registration No. 2218, which would be located approximately 50 feet to the east of the existing point of appropriation and would allow for redundancy... * * *

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

(Check one box)

- By signing this application, I (we) understand that, upon receipt of the draft preliminary determination and prior to Department approval of the ground water modification, I (we) will be required to provide landownership information and evidence that I am authorized to pursue the modification as identified in OAR 690-382-0400(16)(a); **OR**
- I (we) affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**

I understand that prior to Department approval of the groundwater registration modification, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the groundwater registration is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following paper: _____.

Is the applicant the sole owner of the land on which the ground water registration modification, or portion thereof, is located? Yes No *If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the ground water registration has been conveyed.*

- * The specific "Food/Vegetable Processing" use is a subcategory of industrial use. JLR, LLC would like to recategorize this as "General Industrial Use". This would be consistent with certificate Nos. 33969, 33970, 38981, and 40299.

- ** Currently, POU for GR-2218 is T5S, R1W, Sec 17, NW $\frac{1}{4}$ SW $\frac{1}{4}$. The POU will not go beyond this quarter-quarter section. We wanted to ensure the authorized POU includes all of TL 700 (which is included in NW $\frac{1}{4}$ SW $\frac{1}{4}$). This is consistent with the other listed Certificates. Thus, the original POU map included with GR-2218 would change to the attached TL 700 map, while the legal description would NOT change.

- Check here if the ground water registration proposed for modification is or will be located within or served by an irrigation or other water district.

Additional remarks: Applicant also requests that GR-2123 be modified from supplemental to primary because the primary right listed on the registration certificate (Well No. 1) was abandoned.

Groundwater Registration # GR-2218 (Certificate # GR-2123)

For a modification in place of use or character of use:

Are there other water right certificates, water use permits, or ground water registrations associated with the “from” or “to” lands? Yes No

If YES, list the other certificate, water use permit, or other ground water registration numbers:

CERT. 33967, CERT. 33970, CERT. 38981, CERT. 40299

Pursuant to OAR 690-382-0200, any “layered” water use, such as an irrigation right that is supplemental to a primary irrigation right proposed for transfer, must be concurrently transferred with the registration or be cancelled. Any change to a water right must be filed separately in a transfer application. Any change to a water use permit must be filed separately with a permit amendment. Any modification to a ground water registration on the “to” lands must be filed separately with a ground water registration modification.

For modifications in point(s) of appropriation (well(s) or additional point(s) of appropriation:

Well log(s) are attached for each well that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

(Tip: You may search for well logs on the Department’s web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/)

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide “a best estimate” for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your modification application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
