Application for Permanent Water Right Transfer

Part 1 of 5 – Minimum Requirements Checklist

SALEM, OR

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Transfer Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator. If you have questions, call Customer Service at (503) 986-0801.
- Part 4 – Completed Applicant Information and Signature.
- ~~Part 5~~ – Information about Water Rights to be Transferred: **How many water rights are to be transferred? 1 List them here: Certificate 87661**
Please include a separate Part 5 for each water right. (See instructions on page 6)

Attachments:

- Completed Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- N/A Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
- N/A Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.

(For Staff Use Only)

WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):

- Application fee not enclosed/insufficient Map not included or incomplete
- Land Use Form not enclosed or incomplete
- Additional signature(s) required Part _____ is incomplete

Other/Explanation _____

Staff: _____ 503-986-0 _____ Date: ____/____/____

APR 20 2016

Your transfer application will be returned if any of the map requirements listed below are not met.

SALEM, OR

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

Part 4 of 5 – Applicant Information and Signature

Applicant Information

APPLICANT/BUSINESS NAME Glen and Rebecca Halvorson			PHONE NO. (541) 545-9601	ADDITIONAL CONTACT NO. (949) 291-9601
ADDRESS 1700 West Langell Valley Road				FAX NO.
CITY Bonanza	STATE Or	ZIP 97623	E-MAIL	
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.				

Agent Information – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME Adkins Consulting Engineering			PHONE NO. (541) 884-4666	ADDITIONAL CONTACT NO.
ADDRESS 2950 Shasta Way				FAX NO.
CITY Klamath Falls	STATE Or	ZIP 97603	E-MAIL adkins@adkinsengineering.com	
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.				

Explain in your own words what you propose to accomplish with this transfer application, and why: Well #2 be added as an additional point of appropriation for the supplemental and primary grounds listed in Certificate 87661. This additional point of appropriation is a backup to well #1, so that if there are any problems with well #1, water will be available to irrigate those lands. In addition, this well is at a lower elevation which will require less head, which in turn will use less power to produce the certificated amount of water. Additionally, acres from the primary place of use will be transferred north for irrigation purposes.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

- Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

Check One Box

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); **OR**
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**
- I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

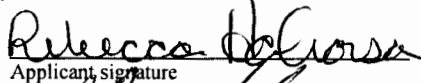

RECEIVED BY OWRD

APR 20 2016

SALEM, OR

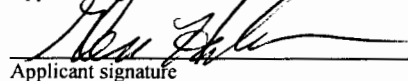

I understand that prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Harold and News.

I (we) affirm that the information contained in this application is true and accurate.

Applicant signature

Rebecca Halvorson owner
Print Name (and Title if applicable)

4/15/16
Date

Applicant signature

Glen Halvorson
Print Name (and Title if applicable)
owner

4/15/16
Date

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? Yes No *If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.*

RECEIVED BY OWRD

APR 20 2016

SALEM, OR

Check the following boxes that apply:

- The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold? Yes No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see: <http://www.oregon.gov/owrd/docs/transfer-propertytransactions.pdf>

INSTRUCTIONS for editing the Application Form

To add additional lines to tables within the forms or to copy and paste additional Part 5 pages, please **save the application form to your computer**. Unlock the document by using one of the following instructions for your Microsoft Word software version:

Microsoft Word 2003

Unlock the document by one of the following:

- Using the **Tools** menu => click **Unprotect Document**;
- OR**
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the **Tools** menu => click **Protect Document**;
- OR**
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

Microsoft Word 2007

- Unlock the document by clicking the **Review** tab, then click **Protect Document**, then click **Stop Protect**
- To relock the document, click **Editing Restrictions**, then click **Allow Only This Type of Editing**, select **Filling In Forms** from the drop-down menu, then check **Yes, Start Enforcing Protection**.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab, toggle the **Restrict Editing** icon at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the “**Allow only this type of editing** in the document: **Filling in forms**” in the “Editing restrictions” section on the right-hand list of options.
- To relock the document, check the **Editing Restrictions/Allow Only This Type of Editing/Filling In Forms** box from the drop-down menu, then check **Yes, Start Enforcing Protection**. You do not need to assign a password for the editing restrictions.

Other Alternatives:

- Photocopy pages or tables in Part 5, ~~mark-through~~ any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

Once the application has been unlocked, you may:

- add additional rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

APR 20 2016

Part 5 of 5 – Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

CERTIFICATE # 87661

RECEIVED BY OWRD

Description of Water Delivery System

System capacity: 0.74 cubic feet per second (cfs) OR
_____ gallons per minute (gpm)

APR 20 2016

SALEM, OR

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use.

Primary Lands

Well 1 uses a submersible pump. No information was found by the current owner, or by the local pump companies for this pump.

Water is pumped from Well 1 by a submersible pump. Water is conveyed through 7' of 6" steel pipe through a McCrometer flow meter to T-1. From T-1, water is conveyed to the north and south. To the south, water is conveyed through 3' of 6" steel pipe which then changes to 30' of 6" aluminum pipe. The 6" pipe connects to approximately 2,500' of 10" gated PVC pipe which is laid above ground. This pipe conveys water in a southerly direction to the main driveway. Water is diverted from the pipe through the a series of gates to irrigate the permitted lands.

Water is conveyed to the north through 5' of steel pipe before going underground. Once underground, the pipe changes to 10" PVC and continues northward approximately 230' to T-2. From T-2, water is conveyed to the north and east. To the north water is conveyed through approximately 630' of 6" PVC to a Center Pivot. Water is also conveyed to 3" handlines which flood irrigate areas that the Pivot cannot reach.

Well 2 has the capability to pipe water to the primary acres by using an existing above ground 10" PVC pipe to connect into the current primary irrigation infrastructure.

Supplemental Lands

From T-2, supplemental water is conveyed to the east through approximately 600' of 10" PVC pipe with risers spaced every 50'. From the terminus point, approximately 4,400' of 6" aluminum pipe is connected and extended along the Langell Valley Irrigation Districts (LVID) irrigation ditch to convey water to north or south to each of the turnouts.

At turnout #1, water is conveyed north through 1,500' of buried 12" PVC pipe along the LVID canal with risers spaced every 50'. Water is conveyed in a northerly direction through the field by 1,320' of 12" PVC buried pipe with risers spaced every 50'. This system flood irrigates both Fields 5 & 6.

At turnout #2, water is conveyed north along the LVID canal through 1,260' of buried 12" PVC pipe with risers spaced every 50'. Water is also conveyed easterly through 620' of 12" PVC pipe to

a 90° bend. Water is then conveyed northerly through 1,220' of 12" buried PVC pipe with risers spaced every 50'. This system flood irrigates field #4.

At turnout #3, water is conveyed to the north and east. To the north water is conveyed along the LVID canal through 800' of 10" PVC pipe with risers spaced every 50'. To the east water is conveyed through 860' of 8" PVC pipe to a 90° bend. From this bend water is conveyed in a northerly direction through 660' of 8" PVC pipe with risers spaced every 50'. This system flood irrigates the south half of Field #3.

At turnout #4, water is conveyed to the north, south and east. Water is conveyed to the north through 340' of 8" pipe with risers spaced every 50'. To the south water is conveyed through 280' of 8" PVC pipe with risers spaced every 50'. Water is conveyed to the east through 480' of 8" PVC pipe to a tee. From this tee, water is conveyed to the north and south. Water is conveyed to the north through 300' of 8" PVC pipe with risers spaced every 50'. Water is conveyed to the south through 300' of 8" PVC pipe with risers spaced every 50'. This system flood irrigates the north half of Field #3.

At turnout #5, water is conveyed to the north and south along the LVID canal, and to the east. Water is conveyed to the north through 860' of 10" PVC pipe with risers spaced every 50'. To the south water is conveyed through 640' of 10" PVC pipe with risers spaced every 50'. Water is conveyed easterly through 380' of buried 10" PVC pipe to a tee. From this tee, water is conveyed to the north and south. To the north, water is conveyed through 600' of 10" PVC pipe with risers spaced every 50'. Water is conveyed to the south through 640' of buried 10" PVC pipe with risers spaced every 50'. This system flood irrigates Field #15.

APR 20 2016

Certificate # 87661

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: _____.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # _____;
Surface water primary Certificate # _____.

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # _____

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built?
