Application for Permanent Water Right Transfer

Part 1 of 5 – Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

RECEIVED BY OWRD

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist. JUL 27 2016
- Part 2 – Completed Transfer Application Map Checklist. SALEM, OR
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator. If you have questions, call Customer Service at (503) 986-0801.
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Water Rights to be Transferred: **How many water rights are to be transferred? 1 List them here: 14336**
Please include a separate Part 5 for each water right. (See instructions on page 6)

Attachments:

- Completed Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- N/A Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
- N/A Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.

(For Staff Use Only)

WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):

- Application fee not enclosed/insufficient Map not included or incomplete
- Land Use Form not enclosed or incomplete
- Additional signature(s) required Part _____ is incomplete

Other/Explanation _____
 Staff: _____ 503-986-0 _____ Date: ____/____/____

Part 2 of 5 – Transfer Application Map Checklist

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper. **RECEIVED BY OWRD**
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required. JUL 27 2016
- A north arrow, a legend, and scale. **SALEM, OR**
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

Part 3 of 5 – Fee Worksheet

FEE WORKSHEET for PERMANENT TRANSFER

1	Base Fee (includes one type of change to one water right for up to 1 cfs)	1	\$1,000
	Types of change proposed: <input checked="" type="checkbox"/> Place of Use <input checked="" type="checkbox"/> Character of Use <input checked="" type="checkbox"/> Point of Diversion/Appropriation Number of above boxes checked = _____ (2a) Subtract 1 from the number in line 2a = _____ (2b) <i>If only one change, this will be 0</i>		
2	Multiply line 2b by \$800 and enter » » » » » » » » » » » » » » » »	2	1600
3	Number of water rights included in transfer _____ (3a) Subtract 1 from the number in 3a above: _____ (3b) <i>If only one water right this will be 0</i> Multiply line 3b by \$450 and enter » » » » » » » » » » » » » » » »	3	0
4	Do you propose to add or change a well, or change from a surface water POD to a well? <input checked="" type="checkbox"/> No: enter 0 » <input type="checkbox"/> Yes: enter \$350 »	4	0
5	Do you propose to change the place of use or character of use? <input type="checkbox"/> No: enter 0 on line 5 » <input checked="" type="checkbox"/> Yes: enter the cfs for the portions of the rights to be transferred (see example below*): _____ (5a) Subtract 1.0 from the number in 5a above: _____ (5b) If 5b is 0 or less, enter 0 on line 5 » If 5b is greater than 0, round up to the nearest whole number: _____ (5c) and multiply 5c by \$300, then enter on line 5 » » » » » » » » » » » » » » » »	5	0
6	Add entries on lines 1 through 5 above » » » » » » » » » » » » Subtotal:	6	2600
7	Is this transfer: <input type="checkbox"/> necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.932? <input type="checkbox"/> endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat? If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 » If no box is applicable, enter 0 on line 7» »	7	0
8	Subtract line 7 from line 6 » » » » » » » » » » » » » » » » Transfer Fee:	8	2600

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each water right involved as follows:
 - a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs ÷ 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac = 0.56 cfs).
 - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
2. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land.** The fee should be assessed only once for each “on the ground” acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

FEE WORKSHEET for SUBSTITUTION			
1	Base Fee (includes change to one well)	1	\$725.00
	Number of wells included in substitution _____ (2a) Subtract 1 from the number in 3a above: _____ (2b) <i>If only one well this will be 0</i> Multiply line 2b by \$350 and enter »		
2	Multiply line 2b by \$350 and enter »	2	
3	Add entries on lines 1 through 2 above » » » » » » Fee for Substitution:	3	

JUL 27 2016

Part 4 of 5 – Applicant Information and Signature

Applicant Information

APPLICANT/BUSINESS NAME SALEM, OR Christopher S. & Theresa L. Siler		PHONE NO. 916-296-5698	ADDITIONAL CONTACT NO.
ADDRESS PO BOX 1957		FAX NO.	
CITY Ashland	STATE OR	ZIP 97520	E-MAIL
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

Agent Information – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME Scott Fein Water Rights; Scott Fein CWRE		PHONE NO. 541-842-0795	ADDITIONAL CONTACT NO.
ADDRESS 600 Tyler Creek Rd.		FAX NO.	
CITY Ashland	STATE OR	ZIP 97520	E-MAIL sfeinsurveyor@gmail.com
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

Explain in your own words what you propose to accomplish with this transfer application, and why: Transfer a portion of water right currently under cert. 14336 to multipurpose storage in an alternate reservoir. Modify the existing place of use to reflect future development objectives of the water user for the beneficial use of water. Add an additional point of diversion to enable a secondary pumping station below the reservoir. Establish new infrastructure to utilize water more efficiently with water availability schedule. Document the relationship of primary and supplemental water rights between certificates 14336 and 15980.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

Check One Box

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); **OR**
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**
- I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

I understand that prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Ashland Daily Tidings.

I (we) affirm that the information contained in this application is true and accurate.

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? Yes No *If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.*

RECEIVED BY OWRD

JUL 27 2016

SALEM, OR

Check the following boxes that apply:

- The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold? Yes No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see: <http://www.oregon.gov/owrd/docs/transfer-propertytransactions.pdf>

INSTRUCTIONS for editing the Application Form

To add additional lines to tables within the forms or to copy and paste additional Part 5 pages, please **save the application form to your computer**. Unlock the document by using one of the following instructions for your Microsoft Word software version:

Microsoft Word 2003

Unlock the document by one of the following:

- Using the **Tools** menu => click **Unprotect Document**;
- OR**
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the **Tools** menu => click **Protect Document**;
- OR**
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

Microsoft Word 2007

- Unlock the document by clicking the **Review** tab, then click **Protect Document**, then click **Stop Protect**
- To relock the document, click **Editing Restrictions**, then click **Allow Only This Type of Editing**, select **Filling In Forms** from the drop-down menu, then check **Yes, Start Enforcing Protection**.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab, toggle the **Restrict Editing** icon at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the "Allow only this type of editing in the document: **Filling in forms**" in the "Editing restrictions" section on the right-hand list of options.
- To relock the document, check the **Editing Restrictions/Allow Only This Type of Editing/Filling In Forms** box from the drop-down menu, then check **Yes, Start Enforcing Protection**. You do not need to assign a password for the editing restrictions.

Once the application has been unlocked, you may:

- add additional rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

Other Alternatives:

- Photocopy pages or tables in Part 5, ~~mark through~~ any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

SALEM, OR

Part 5 of 5 – Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

CERTIFICATE # 14336

RECEIVED BY OWRD

Description of Water Delivery System

System capacity: 0.13 cubic feet per second (cfs) OR
 _____ gallons per minute (gpm)

JUL 27 2016

SALEM, OR

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. **Drainage and seepage waters of the east, middle, and west draws in the Neil Creek watershed have been collected in a series of pipes buried in the ground in the SE 1/4 of the SW 1/4 of section 30 below the Hill Ditch and cross over the Talent Irrigation District Canal and drain as shown on the accompanying map. At the confluence of draws 1, 2, and 3 seepage at the points of diversion is collected naturally due to topogarchy. A wooden headgate on a corrugated metal pipe crossing under an existing road was historically utilized to impound water as a bulge against the side slope of the existing road and natural topography. In draw 3 a long standing flood irrigation ditch flowing to the northeast with turnouts was utilized to flood irrigate the northeasterly portion of taxlot 1904; diversion was a wood and rock headgate with rocks and dirt utilized to plug turnouts. Draw # 1 was utilized to flood irrigate the most northwesterly portion of taxlot 1904. Any unused water in draw # 1 has historically been utilized to feed a stock pond on Corp Ranch being tax lot 117 to the north. Water has also been historically fed by a comingle diversion box of Hill Ditch and Talent Irrigation District waters and the seepage waters cotained in this certificate on tax lot 2105 to the southeast into draw # 3 flowing across taxlot 2100 to the south which was diverted at P.O.D. 1. All three draws converge as shown on the accompanying map with documentation of gravity flow and flood irrigation methods for beneficial use by a certified water rights examiner. At the confluence of the draws where a small dam was constructed piping existed when flows were great enough that enough hydraulic head was built through gravity flow to siphon water from the confluence of the draws to the most westerly portion of taxlot 1904. It is unclear what portion of the water utilized to historically irrigate taxlot 1904 are drainage and seepage waters under certificate 14336 or waters of Neil Creek under certificate 15980; as the confluence of all of these waters has historically occurred on taxlot 1904. The non existent measurement infrastructure combined with lack of quality maps on either aforementioned certificate make the determination of the source of water challenging. Regardless water has been historically utilized on taxlot 1904 of as shown with the related infrastructure and supporting evidence attached hereto. A review of the Final Rogue River Decree calls for certificate 15980 as delivering water to the subject property via the East Side Neil Ditch which is in error from historic use. Waters of cert. 15980 appear to have been historically delivered waters through taxlots 2105 and 123 (39-2E-30) via pipelines to taxlot 1904 and overflows at the turnouts on the pipeline flow through a ditch on taxlot 2100 north of the Talent Irrigation District canal. Where the place of use of cert. 15980 and cert. 14336 are coincident as a result of this transfer, shall result in cert. 14336 as supplemental rights and where cert. 15980 no longer overlaps with cert. 14336 only primary rights exist per cert. 15980.**

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)
 (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or	Is this POD/POA	If POA, OWRD Well	Twp	Rng	Sec	¼ ¼	Tax Lot	Measured Distances

 SALEM, OR

Additional remarks: **This right is layered with that in certificate 15980; the water source of certificate 14336 is distinct from 15980. Water user is also applying for storage with an accompanying Alternate Reservoir Application. Upon approval of the transfer the water will apply for a permit to appropriate said stored water.**

RECEIVED BY OWRD

JUL 27 2016

SALEM, OR

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the “from” or the “to” lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: **15980.**

Pursuant to ORS 540.510, any “layered” water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # _____;
Surface water primary Certificate # _____.

SALEM, OR

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

- Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department’s web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

- Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide “a best estimate” for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well: OWRD Well ID Tag No. L-	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well -specific rate (cfs or gpm). If less than full rate of water right

SALEM, OR

RE: Documents Requested Under T-12448 & R-88268

April 18, 2016

Dear Ms. Blakely,

This letter shall serve as the reply to your February 9, 2017 letter regarding transfer application T-12448 and the request for additional information and matters which need further clarification. Please refer to application R-88268 to be processed in conjunction with T-12448. Appreciate your extension of time granted on 4/5/2017 via email until 4/20/2017; this has provided the property owner with the opportunity to provide a comprehensive explanation to the information you requested.

Request to convert a portion of T-12448 from irrigation use to multipurpose storage

Property owner requested in transfer application T-12448 to convert a total of 3 acre feet from irrigation use to a character of use of multipurpose storage via drying up 0.67 acres of irrigation use land. Water user seeks this use for a multitude of reasons, primarily fire protection, wildlife, stock, and to account for seasonal variability in available water and therefore request a character of use to storage and has submitted R-88268 which is supposed to be processed in conjunction T-12448. Upon approval the water user will apply for a secondary water right to appropriate stored water. Currently, the proposed reservoir operates as bulge in system only during the currently authorized irrigation season of use. Fire protection is of great concern to the property owner, for year round protection due to the rural nature of the property and the fact that the property owner has a well (Jack 62295; Well Log attached) which would likely be unable adequately support a fire truck in case of emergency.

T-12448

Property owner is fully aware it will take some time to receive an opinion on whether or not this character of use change is permissible as you referenced in your 2/9/17 letter "The department is waiting on direction from its attorney regarding the authority to approve a transfer from irrigation to storage." I have discussed this matter with my client and they have proposed several options:

- 1) Hopefully approve as requested.
- 2) Approve a season of use of storage within the current authorized season of April 2- October 31 annually.
- 3) Remove the portion requested for transfer and remain unchanged with the place of use for 0.67 acres.

Property owner is willing to wait for the legal opinion from your attorney and is willing to consider one of the three options. Transfer map and application will be updated as necessary dependent upon the legal opinion received.

Currently the area proposed for storage is being operated as a bulge in system; property owner has been in contact with watermaster to ensure they are in regulatory compliance. Please refer to documents attached hereto; information provide by property owner relative to development of this bulge in system.

Certificates of Record in NESW & Layered Rights with Certificate 14336; Transfer Map Revisions

RECEIVED BY OWRI

Certificate 83727 is not appurtenant to the subject property.

APR 25 2017

Certificate 48663 is not appurtenant to the subject property.

SALEM, OR

Certificate 15980 is appurtenant to the subject property for 5.23 acres and is layered with certificate 14336 and shall be subordinated to certificate 14336 and serve as supplemental water rights. Transfer application map has been updated to reflect this. Please note the correction to the drafting error in acreage, mislabeling the acreage for those rights under certificate 15980. Part 5 of 5 Table 2 has been provided attached for certificates 14336 and 15980.

Please note remaining rights were not able to be mapped in the field due to access issues and neighbor conflicts. Acreage shown as remaining right under certificate 15980 in the NESW of section 30 were digitized and scaled from the September 18, 1911 Rogue River Decree Adjudication map drawn by State Engineer John H. Lewis. Portion mapped on the subject property being taxlot 1904 was based upon field survey. It is not possible for a certified water rights examiner to ascertain specific acreage of the remaining rights without cooperation and consent of neighboring land owners to specify the exact location or the remaining rights and which lands they may be appurtenant to. Historic aerial imagery from google earth confirms the general location of the remaining rights within the NESW of section 30. The lands within section 30 served by both the Neil Ditch and Hill ditch could greatly benefit from the Oregon Water Resources Department providing updated mapping to reflect present day use.

It appears that the subject property has had irrigation from the Hill ditch; however the decree leading certificate 15980 specifies the East Side Neil Ditch. At the northwesterly corner of the subject property near the easterly right of way line of Neil Creek Rd. a small bulge in system exists with a 6 ins. diam. pipe. The conditions reported from the field indicate waters of Neil Creek are appurtenant to the subject property; whether or not the 1911 Rogue River Decree accurately specified the correct ditch as the parent claim under Proof 225, Vol. 4 leading to certificate 15980 is accurate or reflects the historic use for many years is not pertinent to transfer application T-12448. From my review of the decree, within section 30 there are number of decreed rights from various ditches which have been very difficult to

T-12448

identify. Attached is a map of Neil Creek Ditches that I received from the Jackson County Watermaster via request in 2015.

The lands which shall be served by A.P.O.D #4 have been specified for 5.23 acres.

Talent Irrigation District- Supplemental Form D

Certificate 83727 is not appurtenant to the subject property and is not layered with certificate 14336. Water user will provide the Supplemental Form D.

Property owner is in process of obtaining district water rights. Please refer the attached district transfer map which I have prepared for the land owner and easements which enable access to the Talent Irrigation District canal to the south. This is also noted on the revisions of T-12448 transfer application map.

Evidence of Use

Aerial and terrestrial imagery have been provided with dates as an attachment hereto.

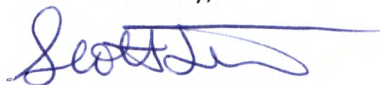

Water System Operation

Please refer to the attached revised transfer application map.

It is essential to note that injury occurred to Corp, fee owners of taxlots 39-2E-30- 123, 115, 116, 117 by Hormel, fee owner of taxlot 39-2E-30- 2100 in the late spring to early summer of 2016 when Hormel ceased allowing waters of certificate 14336 and 15980 (via Hill Ditch to Corp Pipeline to Draw #3) to flow across his taxlot 2100 through draw #3 as shown on the attached map as they had historically for many years. Corp irrigates with wheel lines via gravity feed pipes from the weed filter/diversion box as shown the map. When Corp switches the wheel line location water would overflow into draw 3 under certificate 14336. When Hormel ceased allowing this water to cross his land, said Corp diversion box, overflowed flooding the Corp pasture in the SWSE and NWSE of section 30 per Chris Siler. Corp and Siler reached agreement for Siler to be granted an irrigation utilities easement (see ORJCO 2016-022266 attached hereto) and install a 6 ins. diam. irrigation line to address the drainage overflow and enable Siler to continue to use the waters of draw # 3 under certificate 14336 as they had been historically utilized. Please refer to the attached map and photo exhibits. A symbiotic relationship exists between the Corp and Siler properties to ensure beneficial use of water without waste.

Hope I have addressed any of your concerns and provide all essential information. Please contact me should you need anything further.

Sincerely,

Scott Fein

Irrigation Easement to Access the Waters of the Talent Irrigation District

Exhibit "A" (1 of 2)

An appurtenant easement to those lands described in 2015-24328 over and across those lands described in 2012-023661 to access irrigation waters of the Talent Irrigation District, more particularly described as follows.

Located in the NE 1/4 of the SE 1/4 of Section 30, Township 39 South, Range 2 East, W.M.
A 15 foot wide irrigation easement being 7.50 feet on each side of the following described centerline.

Commencing at a found 3/4 ins. diameter iron pipe per survey 4108 (marking the southeast corner of those lands described in 2015-24328) from which the quarter corner common to section 30 and 31 bears S1311.67' and W2.20', thence S256.00' and E20.00' to the true point of beginning also being the point of beginning of the existing irrigation line easement described in the document 2016-022266 of record with the Jackson County Clerk.

From said point of beginning along the centerline of said easement S 75° E, 55.00 feet more or less to the centerline of the Talent Irrigation District Canal.

Said easement is based upon field survey of an alignment as identified by Christopher Siler on February 18, 2017. Existing irrigation is subsurface and the route was identified by Christopher Siler.

GRANT OF EASEMENT FOR IRRIGATION LINE

Whereas, the Keith W. Corp Trust, Joseph Corp successor trustee, (hereafter Grantor) is the owner of the real property described in Exhibit "A", and Christopher Siler and Theresa L. Siler (hereafter Grantees) are the owners of the real property described in Exhibit "B".

Whereas Grantor has given their consent to Grantees to install, at Grantees' sole expense, an irrigation line together with any and all related installations and equipment on Grantor's land for an irrigation pipe to supply Grantees' land with irrigation water in the approximate location as shown on Exhibit "C" attached.

Now, therefore, in consideration of the mutual benefit derived and enjoyed by both parties, and other good and valuable consideration, the sufficiency of which is hereby acknowledged by all parties hereto, Grantor hereby grants unto Grantees, their heirs, assigns and successors in interest, a perpetual, exclusive easement for an irrigation line in the location shown in Exhibit "C", as follows:

An easement 15 feet in width, 7.5 feet either side of the proposed underground irrigation pipe, as approximately shown on Exhibit "C" attached hereto, for the placement, replacement, maintenance, and repair of an underground irrigation line, and any and all related installations and equipment on the real property described in Exhibit "A".

This easement is for the benefit of and appurtenant to the real property described in Exhibit "B".

The parties hereto agree that they will promptly repair any damage caused to the irrigation pipe by that party, or anyone acting on their behalf, or under their control, at that party's sole expense.

Grantor agrees to not restrict Grantee's access to the irrigation pipe, and agrees to allow any and all necessary work to be performed for the placement, replacement, maintenance, and repair of the same.

In any dispute arising out of this agreement, or if suit or action is filed to interpret, or to enforce this easement agreement, the parties agree that the prevailing party in any such dispute will be entitled to reasonable attorney fees and costs both at trial and on appeal.

DATED: 7-11-16, 2016.

GRANTOR:

Joseph Corp, Trustee of the Keith W. Corp Trust.

SUBSCRIBED AND SWORN to before me by Joseph Corp, successor trustee of the Keith W. Corp Trust this 11th day of July, 2016.

GENERAL NOTES

1. MATERIALS AND CONSTRUCTION SHALL CONFORM TO THE 2015 OREGON STANDARD SPECIFICATIONS FOR CONSTRUCTION PUBLISHED BY THE OREGON CHAPTER OF A.P.W.A.
2. ALL CONCRETE SHALL BE 3000 PSI AT 28 DAYS UNLESS OTHERWISE SPECIFIED.
3. CONTRACTOR SHALL NOTIFY OREGON UTILITY NOTIFICATION CENTER AT 1-800-332-2344 PRIOR TO BEGINNING WORK.
4. WHEN CONNECTING TO AN EXISTING PIPE, THE CONTRACTOR SHALL EXPOSE THE END OF THE EXISTING PIPE AND ALLOW THE ENGINEER TO VERIFY EXACT LOCATION AND ELEVATION BEFORE LAYING ANY NEW PIPE ON THAT SYSTEM.
5. REQUESTS BY THE CONTRACTOR FOR CHANGES TO THE PLANS MUST BE APPROVED BY THE ENGINEER BEFORE CHANGES ARE IMPLEMENTED.
6. WHEN PERFORMING EXCAVATIONS, THE CONTRACTOR SHALL COMPLY WITH THE PROVISIONS OF ORS 757.541 TO 757.571, WHICH INCLUDE REQUIREMENTS THAT THE CONTRACTOR HAND-EXPOSE (POTHOLE) UNDERGROUND FACILITIES AND USE REASONABLE CARE TO AVOID DAMAGING THEM.
7. THE LOCATION AND ELEVATION OF ALL EXISTING UTILITIES ARE SHOWN FOR REFERENCE PURPOSES ONLY. ALL LOCATIONS SHALL BE VERIFIED BY THE CONTRACTOR. IF ANY LOCATIONS VERTICAL OR HORIZONTAL VARY FROM WHAT IS SHOWN THE CONTRACTOR SHALL NOTIFY ENGINEER IMMEDIATELY.
