

Application for Permanent Water Right Transfer

Part 1 of 5 - Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

Che	ck all ite	ms included with this application. $(N/A = Not Applicable)$
\boxtimes		Part 1 – Completed Minimum Requirements Checklist.
		Part 2 – Completed Transfer Application Map Checklist.
\boxtimes		Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator . If you have questions, call Customer Service at (503) 986-0801.
\boxtimes		Part 4 - Completed Applicant Information and Signature.
\boxtimes		Part 5 – Information about Water Rights to be Transferred: How many water rights are to be transferred? 3 List them here: 72404, 89938, 89939 Please include a separate Part 5 for each water right. (See instructions on page 6)
		Attachments:
\boxtimes		Completed Transfer Application Map. See Attachment A
\boxtimes		Completed Evidence of Use Affidavit and supporting documentation. See Attachment C
	N/A	Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
	N/A	Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
	□ N/A	Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone. See Attachment D
	N/A	Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation. See Attachment E for well logs for existing POAs. Proposed
	N/A	<u>POAs have not yet been constructed.</u> Geologist Report for a change from a surface water point of diversion to a ground water point
	_	of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.
RECEIVED BY	OVVIID	(For Staff Use Only)
AUG 0 1 20	016	WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S): Application fee not enclosed/insufficient Map not included or incomplete Land Use Form not enclosed or incomplete
SALEM, C)R	Additional signature(s) required Part is incomplete Other/Explanation
		Staff:503-986-0 Date:/

Your transfer application will be returned if any of the map requirements listed below are not met.

_		sure that the transfer application map you submit includes all the required items and he existing water right map. Check all boxes that apply.
\boxtimes	□ N/A	Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/ . CWRE stamp and signature are not required for substitutions.
] N/A	If more than three water rights are involved, separate maps are needed for each water right.
\boxtimes]	Permanent quality printed with dark ink on good quality paper.
\boxtimes]	The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30×30 inch maps, one extra copy is required.
\boxtimes		A north arrow, a legend, and scale.
]	The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
\boxtimes]	Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
\boxtimes]	Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
\boxtimes]	Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
\boxtimes]	Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
]	Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
\boxtimes] N/A	Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
]	Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
AUG	D BY OWF	If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°). 	FEE WORKSHEET for PERMANENT TRANSFER Part 3 of 5	– Fee	Worksheet
1	Base Fee (includes one type of change to one water right for up to 1 cts)	1	\$1,000
	Types of change proposed:		
	☐ Place of Use		
	Character of Use		
	Point of Diversion/Appropriation		
	Number of above boxes checked = $\frac{3(2a)}{}$		
	Subtract 1 from the number in line $2a = 2(2b)$ If only one change, this will be 0		
2	Multiply line 2b by \$800 and enter » » » » » » » » » » » » » » »	2	\$1,600
	Number of water rights included in transfer 3 (3a)		
	Subtract 1 from the number in 3a above: 2 (3b) If only one water right this will		
	be 0	2	0000
3	Multiply line 3b by \$450 and enter » » » » » » » » » » » » » »	3	\$900
	Do you propose to add or change a well, or change from a surface water POD		
	to a well?		
	No: enter 0 »» » » » » » » » » » » » » » » » » »		\$250
4	☐ Yes: enter \$350 » » » » » » » » » » » » » » » » » » »	4	\$350
	Do you propose to change the place of use or character of use? No: enter 0 on line 5 » » » » » » » » » » » » » » » » » »		
	Yes: enter the cfs for the portions of the rights to be transferred (see		
	example below*): 1.355 (5a)		
	Subtract 1.0 from the number in 5a above: 0.355 (5b)		
	If 5b is 0 or less, enter 0 on line 5 » » » » » » » » » » » » » » » » » »		
	If 5b is greater than 0, round up to the nearest whole number: 1.0 (5c)		
5	and multiply 5c by \$300, then enter on line 5 » » » » » » » »	5	\$300
6	Add entries on lines 1 through 5 above » » » » » » » » » Subtotal:	6	\$4,150
	Is this transfer:		
	necessary to complete a project funded by the Oregon Watershed		
	Enhancement Board (OWEB) under ORS 541.932?		
	endorsed in writing by ODFW as a change that will result in a net		
	benefit to fish and wildlife habitat?		
	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »		
7	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » » »	7	\$0
R	Subtract line 7 from line 6 " " " " " " " " " " " " " " " Transfer Fee.	R	\$4 150

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

- 1. For irrigation calculate cfs for each water right involved as follows:
 - a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs $\div 100$ ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).
 - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
- 2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

ogt.	FEE WORKSHEET for SUBSTITUTION		
σ_1	Base Fee (includes change to one well)	1	\$725.00
MINES	Number of wells included in substitution (2a)		
*	Subtract 1 from the number in 3a above: (2b) If only one well this will be 0		
ω_2	Multiply line 2b by \$350 and enter » » » » » » » » » » » » » »	2	N/A
3	Add entries on lines 1 through 2 above » » » » » Fee for Substitution:	3	N/A

CERTIFICATE # 89938

Description of Water Delivery System

15821)

System capacity: 1.06* cubic feet per second (cfs) OR

gallons per minute (gpm)

*Theoretical capacity of Well 3 and Well 4 pump systems (as documented in Claim of Beneficial Use for Permit G-

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Groundwater is appropriated from Well 3 and Well 4 using submersible pumps and conveyed by pipe to an irrigation system that applies the water to the irrigated lands using sprinklers.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

Revised 7/1/2013

Permanent Transfer Application Form - Page 8 of 17

TACS

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \boxtimes Yes \boxtimes No

If YES, list the certificate, water use permit, or ground water registration numbers: <u>Although there are other water rights on the "to" lands, the proposed use is municipal purposes, so "layered" water rights are not applicable.</u>

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

RECEIVED BY OWRD

Ground water supplemental Permit or Certificate # N/A

Surface water primary Certificate # _____.

AUG 0 1 2016

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # N/A

SALEM, OR

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

See Attachment E for well logs for Wells 1-4. No well log included for proposed wells (Well 5 - 9), which have not yet been constructed. See below for "best estimates" of construction details.

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? SALEM, OR

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?

▼ Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: Water right 72404 is associated with the "from" lands. Although there are other water rights on the "to" lands, the proposed use is municipal purposes, so "layered" water rights are not applicable.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

SALEM, OF

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

See Attachment E for well logs for Wells 1-4. No well log included for proposed wells (Well 5 - 9), which have not yet been constructed. See below for "best estimates" of construction details.

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Part 5 of 5 - Water Right Information

CERTIFICATE # 72404

Description of Water Delivery System

System capacity:	$\underline{0.41*}$ cubic feet per second (cfs) OR
	gallons per minute (gpm)

*Theoretical capacity of Well 4 pump systems (as documented in Claim of Beneficial Use for Permit G-15821)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Groundwater is appropriated from Well 4 using a submersible pump and conveyed by pipe to an irrigation system that applies the water to the irrigated lands using sprinklers.

					7	ГОТА	L ACF	RES:	39.4											TOTA	L ACI	RES:				

Additional remarks: The authorized Place of Use of Certificate 72404 is nearly identical to that of Certificate 89939, with the exception of 0.3 additional acres under Certificate 89939. Differences in the authorized number of acres in each quarter-quarter are likely due to differences in projections of the PLSS boundaries. The authorized Place of Use under Certificate 72404 lists 13.83 acres within the NWNE of section 19. We believe this listing is a scrivener's error and that the place of use acreage in this quarter-quarter should be 3.83 acres based on the following: because 1) the place of use acreage within the NWNE on the final proof map for Certificate 72404 is clearly smaller than the 9.42 acres shown in the NWSE and 2) the place of use of Certificate 72404 in the NWNE is just slightly larger than the acreage of Certificate 89939 in the same quarter-quarter, being 3.76 acres.

The Place of Use for the resulting transfer should appear as "City of Dayton Service Area."

SALEM, OR

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ⊠ Yes □ No

If YES, list the certificate, water use permit, or ground water registration numbers: Water right 89939 is associated with the "from" lands. Although there are other water rights on the "to" lands, the proposed use is municipal purposes, so "layered" water rights are not applicable.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)
