December 5, 2016 Parametrix No. 297-7378-009

Kelly Starnes Oregon Water Resources Dept. 725 Summer Street NE, Suite A Salem, OR 97301-1266

Re: Sunriver Water, LLC

Dear Kelly:

Thank you very much for your continuing assistance with water rights for Sunriver Water, LLC in Deschutes County. We greatly appreciate the Department's help and direction over the years. Enclosed is a Permit Amendment application for Permit G-17288 to add an additional point of appropriation.

Sunriver currently has three quasi-municipal water rights, Permit G-17288, Permit G-17460 and Transfer T-11672. Permit G-17640 currently has a single approved point of diversion, Well 16. Permit G-17288 and Transfer T-11672 have five common authorized points of appropriation [Wells 2, 9, 12, 14, and 16 (AKA well 15)]. The three quasimunicipal rights have wells that pump into a common system that serves the entire Sunriver community. Sunriver Water, LLC and Parametrix recently completed a Water Master Plan that recommends the construction of another water supply well (Well 16) to provide full build out peak day demand with one well out of service. Based on system reliability and system hydraulics, Sunriver Water, LLC prefers to construct the new North Well adjacent to the new North Reservoir. This proposed permit amendment application proposes to add the future North Well as an additional point of appropriation.

This will increase the flexibility for the water system operators to utilize water from the wells throughout the Sunriver communities and will better match how water is actually used.

The quasi-municipal rights are critically important to Sunriver. Please carefully consider the application(s) and never hesitate to contact me if you have questions or require additional information.

imported people my and white me mile in a light

Sincerely,

Niall Boggs, PE, CWRE

Project Engineer

Your permit amendment application will be returned if any of the map requirements listed below are not met.

Please be sure that the map you submit includes all the items listed below and meets the requirements of OAR 690-380-3100, however, the map does <u>not</u> have to be prepared by a Certified Water Right Examiner. Check all boxes that apply.

□ ⊠ N/A	If more than three permits are involved, separate maps for each permit.
	Permanent quality printed with dark ink on good quality paper.
	The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30×30 inch maps, one extra copy is required.
	A north arrow, a legend, and scale.
	The scale of the map must be: $1 \text{ inch} = 400 \text{ feet}$, $1 \text{ inch} = 1,320 \text{ feet}$, the scale of the county assessor map if the scale is not smaller than $1 \text{ inch} = 1,320 \text{ feet}$, or a scale that has been preapproved by the Department.
	Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
\boxtimes \checkmark	Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
$\boxtimes \checkmark$	Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
\boxtimes \checkmark	Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
	Existing place of use that includes separate hachuring for each water use permit, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the permit is being changed, a separate hachuring is needed for the portion of the permit left unchanged.
⊠ □N/A	If you are proposing a change in place of use, show the proposed place of use with hachuring that includes separate hachuring for each permit, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
	Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water use permit.
N/A N/A	If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°). SALEM, OR

For a change in place of use:

Does the permit holder of record own or control the land TO which the place of use is being moved? \boxtimes Yes \square No

If NO, the landowner of the land TO which the place of use is being moved must be assigned to the permit as a permit holder of record by submitting a completed Request for Assignment form and the required statutory fee for an assignment.

Is the proposed place of use contiguous to the authorized place of use? ☑ Yes ☐ No

The permitted place of use can be moved only to lands that are contiguous to the authorized place of use **unless** the change to non-contiguous lands is in furtherance of mitigation or conservation efforts undertaken for the purposes of benefiting a species listed as sensitive, threatened, or endangered under ORS 496.171 to 496.192 or the federal Endangered Species Act of 1973 (16 U.S.C. 1531 to 1544), as determined by the listing agency. Contiguous land being either adjacent land or land separated from the land to which a permit is authorized by roads, utility corridors, irrigation ditches or publicly owned rights of way.

Are there other water rights certificates, water use permits or ground water registrations associated with the "from" or "to" lands? 🖾 Yes 🗌 No

If YES, list the other certificate, permit, or ground water registration numbers:

Permit G-17460

Transfer T-11672 (Certificates 88801CN, 88802CN, T-8260)

Certificate 85484

Certificate 85485

JAN 2 4 2017

SALEM, OR

If the permit(s) are for irrigation or supplemental irrigation use, other water rights existing on the same land for irrigation that are subject to transfer must either change concurrently or be cancelled. Any change to a water right certificate or ground water registration must be filed separately in a water right transfer application or ground water registration modification application, respectively.

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps2.wrd.state.or.us/apps/gw/well log/Default.aspx)

OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist or certified water right examiner for the proper information needed to complete the table.
