∐Yes ⊠ N/A	Map: Instream Lease map requirements (see Part 2 of the	his appl	ication)							
☐Yes ⊠ N/A	Tax Lot Map: If a portion of the water right not included to lands owned by others, a tax lot map must be included. The tax lot map should clearly show the property involved	l with th	ne lease application.							
∐Yes ⊠ N/A	Supporting documentation describing why a right (or portion thereof) is valid and not subject to forfeiture even though the right has not been exercised for five or more consecutive years. This information only needs to be provided if the checkbox has been checked to identify that the water right has not been used in the last five years and is not subject to forfeiture (See Part 4 of 4).									
∐Yes ⊠ N/A	<ul> <li>If the Lessor (water right holder) is not the deeded lando following.</li> <li>A notarized statement from the landowner consenting the recorded deed; or.</li> <li>A water right conveyance agreement and a copy of landowner at the time the water right was conveyed.</li> </ul>	ng to the	e lease and a copy of							

Other documentation which provides authority to pursue the lease absent consent

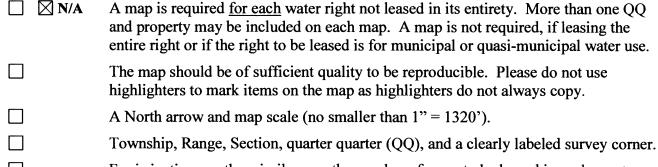

of the landowner.

## Part 2 of 4 – Instream Lease Application Map Checklist

#### A Map is generally required for each water right not leased in its entirety

The application map (if required) should include all the items listed below and match the existing water right(s) of record. Check all boxes that apply.

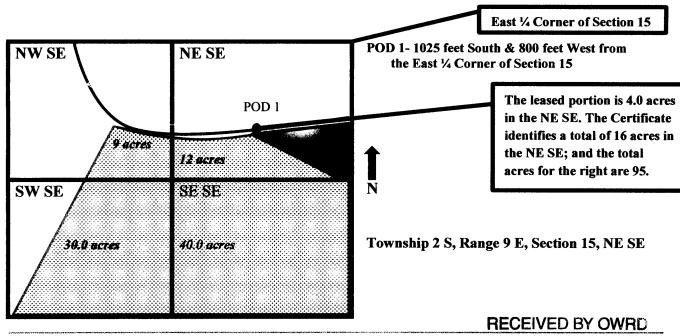

This should be a <u>simple</u> map. (See example below). A copy of a final proof survey map with the portion to be leased shaded or hachured in will also suffice.

For irrigation or other similar use, the number of acres to be leased in each quarter-quarter clearly labeled and hatchured to differentiate between the acres being leased and any remaining. If the place of use is broken down by more than one priority date, or source stream, and/or point of diversion you must identify each with separate hachuring and clearly label.

If available, identify the existing point(s) of diversion.

## EXAMPLE MAP (the darker shaded portion representing the portion leased instream)

MAR 2 7-2017

SALEM, OR

## Use a separate Part 3 for each water right to be leased instream

## Water Right Information

Water right # 86767

#### Table 1

Water Right Information: Provide a description of the originating water right to be leased. Also include your tax lot number(s). Fill in all applicable information. For example, if your water right has multiple points of diversion (POD) but they're not numbered, you do not need to include a number. If not enough room below, you may add additional rows (see instructions) or attach spreadsheet (matching Table 1). Please clearly label any attachments.

Complete		Entirety - If the entire water right is to be leased, skip to Table 3.								
Priority Date	POD#	Twp	Rng	Sec	Q-Q	Tax Lot	Gov't Lot/DLC	Acres	USE	Previous Lease # (if any)
					1 794 <u>1 3.4.</u> 2.

Total Acres: N/A

SALEM, OR

#### Table 2

## To illustrate the totals for the water right proposed to be leased instream

Total rate and volume by priority date, POD, use and acreage as appropriate considering the right to be leased. If not enough room below, you may add additional rows (see instructions) or attach spreadsheet (matching Table 2). Please clearly label any attachments. (cfs = cubic feet per second and af = acre-feet)

Priority Date	POD#	Use	Total Acres	Other Information (such as conditions/limitations on the right)	Total Rate (cfs)	Total Volume (af)
1872	1	Power	N/A	Period of April 1 through Oct 31	22.63cfs	9605.6
1872	1	Power	N/A	Period of November 1 through March 31	24.40cfs	7307.9

Total af from storage, if applicable: AF or N/A

Any additional information about the right: This water right is for hydro power generation at the specified location.

#### Table 3

**Point of Diversion (POD) description:** If the POD is not described on the certificate or if there is more than one POD listed on the certificate, then **the specific POD(s)** involved in the lease must be described. If not enough room below, you may add additional rows (see instructions) or attach spreadsheet (matching Table 3). Please clearly label any attachments.

POD#	Twp	Rng	Sec	Q-Q	DLC/ Gov't lot	Measured Distances, latitude/longitude coordinates, or river mile (if unknown you may indicate "unknown")
				SW-		90 FEET NORTH AND 1150 FEET EAST FROM THE SW

## Part 3 of 4 cont. – Water Right and Instream Use Information

## **Instream Use Information**

### Table 4

1 abic 7								
	Instream Use Created by the Lease							
River/ Stream River	River/ Stream Name: Little Butte Creek, tributary to Rogue River Basin: Rogue							
Instream Portion: Use Table 4 to illustrate the instream rate, volume and instream period by priority date, POD (if more than one), Use (if more than one), and acreage as appropriate considering the right to be leased.								
If not enough room below, you may add additional rows (see instructions) or attach a spreadsheet (matching the below portion of Table 4). Please clearly label any attachments.								
Priority date	POD#	Use	Acres	Proposed Instrea Period	m	Total instream rate (cfs)	Total instream volume (af)	
1872	1	power	N/A	4/1 through 10/3	1	22.63	9605.6	
1872	1	power	N/A	11/1 thorugh 3/3	1	24.4	7307.9	
Note: If not certain of the instream rate, volume and/or instream period, see the instructions and/or contact Department Staff for assistance. The instream rate and volume may be up to the maximum rate and duty/volume allowed by the right, as described in Table 2 or on your Certificate if leasing the entire right. The proposed instream period may be no longer than the irrigation season or the authorized period of allowed use.  OR Please check this box if you are not sure of the proposed rate, volume and instream period. As part of its review process, the Department will identify the appropriate instream rate, volume and period considering the water right(s) being leased and instream benefits.								
	Instream Reach							
Proposed Instream Reach:  A reach typically begins at the point of diversion (POD) and ends at the mouth of the source stream: From the POD to  Or Proposed Instream Point:  Instream use protected at the POD to								
OR Please check this box if you are not sure of the proposed reach and want water to be protected within a reach below the POD, if possible. (If no reach is identified or the above box is not checked, and there is only one POD listed on the certificate, the lease may be processed to be protected at the POD.)								
Additional Instream Information								
Yes N/A Conditions to avoid enlargement or injury to other water rights, if any, or other limitations: list here								
Note: The Department may identify additional conditions to prevent injury and/or enlargement.								
Any additional information about the proposed instream use: This water right is for hydro-power generation, so the proposed instream protection is solely at the Point of Diversion.
