

Application for Water Right Temporary Transfer Part 1 of 5 – Minimum Requirements Checklist

Temporary Transfer 2017

FOR ALL TEMPORARY TRANSFER APPLICATIONS

Che	ck all itei	ns included with this application. $(N/A = Not Applicable)$
\boxtimes		Part 1 - Completed Minimum Requirements Checklist.
		Part 2 - Completed Temporary Transfer Application Map Checklist.
		Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator . If you have questions, call Customer Service at (503) 986-0801.
\boxtimes		Part 4 - Completed Applicant Information and Signature.
		Part 5 – Information about Transferred Water Rights: How many water rights are to be transferred? <u>9</u> List them here: Certs. 81815, 80652, 76050, 79439, 76717, 76722, 76715, and 75127.
		Please include a separate Part 5 for each water right. (See instructions on page 6)
	N/A	For standard Temporary Transfer (one to five years) Begin Year 2017 End Year 2017.
	□ N/A	Temporary Drought Transfer (Only in counties where the Governor has declared drought) RECEIVED BY OWRE Attachments:
\boxtimes		Completed Temporary Transfer Application Map. MAY 1 5 2017
		Completed Evidence of Use Affidavit and supporting documentation.
		Current recorded deed for the land from which the authorized place of use is temporarily being moved.
	N/A N/A	Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
	N/A	Supplemental Form D – For water rights served by or issued in the name of a district. Complete when the temporary transfer applicant is not the district.
	N/A	Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
	N/A	Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation (if necessary to convey water to the proposed place of use).
		(For Staff Use Only) WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S): Application fee not enclosed/insufficient Map not included or incomplete Land Use Form not enclosed or incomplete Additional signature(s) required Part is incomplete Other/Explanation Staff: 503-986-0 Date: / /

Part 2 of 5 – Temporary Transfer Application Map Checklist

Your temporary transfer application <u>will be returned</u> if any of the map requirements listed below are not met.

	sure that the temporary transfer application map you submit includes all the required matches the existing water right map. Check all boxes that apply.
N/A	If more than three water rights are involved, separate maps are needed for each water right.
\boxtimes	Permanent quality printed with dark ink on good quality paper.
\boxtimes	The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30×30 inch maps, one extra copy is required.
\boxtimes	A north arrow, a legend, and scale.
	The scale of the map must be: $1 \text{ inch} = 400 \text{ feet}$, $1 \text{ inch} = 1,320 \text{ feet}$, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than $1 \text{ inch} = 1,320 \text{ feet}$, or a scale that has been pre-approved by the Department.
\boxtimes	Township, Range, Section, 1/4 1/4, DLC, Government Lot, and other recognized public land survey lines.
\boxtimes	Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
\boxtimes	Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
\boxtimes	Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
	Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
∑ N/A	Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
\boxtimes	Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
□ N/A	If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°). RECEIVED BY OWRD

Part 3 of 5 - Fee Worksheet

Tart 3 UI 3 -	100	WUIKSIIC
FEE WORKSHEET for TEMPORARY (not drought) TRANSFERS		CARACT, AMERICAN, MILE HAS LIGHTLY AND IN CITIES.
Base Fee (includes temporary change to one water right for up to 1 cfs)	1	\$700.00
Number of water rights included in transfer 8 (2a)		
Subtract 1 from the number in 3a above: 7 (2b) If only one water right this will be 0 Multiply line 2b by \$225.00 and enter >>> >>> >>> >>> >>> >>>>>>>>>>>>>>>>	2	1,575
Do you propose to add or change a well, or change from a surface water POD to a well?	2	1,070
No: enter 0 » » » » » » » » » » » » » » » » » »	3	0
Do you propose to change the place of use for a non-irrigation use? No: enter 0 on line 4 » » » » » » » » » » » » » » » » » »		
multiply 4c by \$175.00, then enter on line 4 » » » » » » » » »	4	0
Do you propose to change the place of use for an irrigation use? No: enter 0 on line 5 » » » » » » » » » » » » » » » » » »	5	\$547
6 Add entries on lines 1 through 5 above » » » » » » » » » » Subtotal:	6	
Is this transfer: necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.932? endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat? If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »	7	0
7 If no box is applicable, enter 0 on line 7» » » » » » » » » » » » »	7	0
8 Subtract line 7 from line 6 » » » » » » » » » » » » » Transfer Fee:	8	\$2,822

	FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS		
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
	Enter the cfs for the portions of the rights to be transferred (see example below*):	EC	FIVED BY O
	(2a)	-	
	Subtract 1.0 from the number in 2a above: (2b)		MAY 1 5 2017
	If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » »		MAT 1 0 ZUIT
	If 2b is greater than 0, round up to the nearest whole number: (2c) and	and the same of th	
2	multiply 2c by \$50, then enter on line 2 » » » » » » » »	2	SALEM, OR
3	Add entries on lines 1 through 2 above » » » » » » » Transfer Fee::	3	

*Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac = 0.56 cfs).

2. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

3. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

Part 4 of 5 - Applicant Information and Signature

_	of Thate of Ose Changes
	Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No
	If YES, list the certificate, water use permit, or ground water registration numbers: Certs. 76050, 75127, & 80652.
	Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540-610.
	For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if necessary to convey the water to the new temporary place of use:
	Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and

associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (**Tip**: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx) N/A

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

	Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No
	If YES, list the certificate, water use permit, or ground water registration numbers: Certs. 76050, & 81815.
	Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540-610.
	For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if necessary to convey the water to the new temporary place of use:
	Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx) N/A
	AND/OR
	Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.
JI.	a 2 Construction of Daint(a) of Annuariation

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

RECEIVED BY OWRD

MAY 1 5 2017

	there other water right certificates, water use permits or ground water registrations associated the "from" or the "to" lands? Yes No
	ES, list the certificate, water use permit, or ground water registration numbers: Cert. 79439, 15, 75127, and 80652.
to a unu allo	suant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental primary right proposed for temporary transfer can be included in the transfer or remain sed on the authorized place of use. If the primary water right does not revert soon enough to w use of the supplemental right within five years, the supplemental right shall become subject ancellation for nonuse under ORS 540-610.
	change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if sary to convey the water to the new temporary place of use:
	Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx) N/A
AN	D/OR
	Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorize d POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of complete d well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with

Table 3. Construction of Point(s) of Appropriation

assembling the information necessary to complete Table 3.

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? X Yes No If YES, list the certificate, water use permit, or ground water registration numbers: Cert. 79439. Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540-610. For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if necessary to convey the water to the new temporary place of use: Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx) N/A AND/OR Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
