6	Add entries on lines 1 through 5 above » » » » » » » » » Subtotal:	6	1350
	Is this permit amendment:		
	necessary to complete a project funded by the Oregon Watershed		
	Enhancement Board (OWEB) under ORS 541.932?		
	endorsed in writing by ODFW as a change that will result in a net		
	benefit to fish and wildlife habitat?		
_	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »		
7	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » »	7	0
8	Subtract line 7 from line 6 » » » » » » » Permit Amendment Fee:	8	1350

*Example for Line 5a calculation to transfer 45.0 acres of Primary Permit S-12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Permit S-87654 (1/80 cfs per acre) on the same land:

- 1. For irrigation calculate cfs for each permit involved as follows:
 - a. Divide total authorized cfs by total acres in the permit (for S-12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be changed to get the application cfs (x 45 ac = 0.56 cfs).
 - b. If the water right permit does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For S-87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
- 2. Add cfs for the portions of permits on all the land included in the application; however do not count cfs for supplemental permits on acreage for which you have already calculated the cfs fee for the primary permit on the same land. The fee should be assessed only once for each "on the ground" acre included in the application. (In this example, blank 5a would be only 0.56 cfs, since both permits serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

	Permit # <u>G-12991</u>
Are there other water rights certificates, water u with the "from" or "to" lands? ☐ Yes ☒ No	se permits or ground water registrations associated
If YES, list the other certificate, permit, or ground	l water registration numbers:
land for irrigation that are subject to transfer must	irrigation use, other water rights existing on the same teither change concurrently or be cancelled. Any change ation must be filed separately in a water right transfer tion application, respectively.
For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:
AND/OR	
not have a well log. For proposed well for each requested information element	rized and proposed well(s) in Table 3 for any wells that do alls not yet constructed or built, provide "a best estimate" at in the table. The Department recommends you consult a lifted water right examiner to assist with assembling the ble 3.
Table 3. Construction of Point(s) of Appropriation	
	o corresponding well(s) described in Table 1 and shown or

the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right
