T: 12696

RECEIVED BY OWRD

Your temporary transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

	If more than three water rights are involved, separate maps are needed for each water right.
\boxtimes / \	Permanent quality printed with dark ink on good quality paper.
	The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30×30 inch maps, one extra copy is required.
	A north arrow, a legend, and scale.
	The scale of the map must be: $1 \text{ inch} = 400 \text{ feet}$, $1 \text{ inch} = 1,320 \text{ feet}$, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than $1 \text{ inch} = 1,320 \text{ feet}$, or a scale that has been pre-approved by the Department.
	Township, Range, Section, 1/4 1/4, DLC, Government Lot, and other recognized public land survey lines.
$\boxtimes \setminus$	Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
	Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
	Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
	Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
N/A	Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
	Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
□ /⊠ N/A	If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

	necessary to complete a project funded by the Oregon Watershed		
	Enhancement Board (OWEB) under ORS 541.932?		
	endorsed in writing by ODFW as a change that will result in a net benefit to		
	fish and wildlife habitat?		
	f one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »		
	f no box is applicable, enter 0 on line 7» » » » » » » » » » » » » »	7	
8 5	Subtract line 7 from line 6 » » » » » » » » » » » » » Transfer Fee:	8	5473.8

	FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS		
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
	Enter the cfs for the portions of the rights to be transferred (see example below*):		
	(2a)		
	Subtract 1.0 from the number in 2a above: (2b)		
	If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » »		
	If 2b is greater than 0, round up to the nearest whole number: (2c) and		
2	multiply 2c by \$50, then enter on line 2 » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above » » » » » » » Transfer Fee::	3	

^{*}Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

^{1.} Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

^{2.} If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

^{3.} Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

Part 5 of 5 - Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

CERTIFICATE # 68536

RECEIVED BY OWRD

Description of Water Delivery System

JUN 15 2017

System capacity: 47 cubic feet per second (cfs) OR

Additional Point of Diversion (APOD)

21093.6 gallons per minute (gpm)

SALEM, OR

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Please refer to Delivery System Map. The Columbia River right and the two ground water rights all use the same delivery system for the irrigation of the acres authorized in each right.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L)	Т	`wp	R	ng	Sec	1/4	1/4	Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)

		of Use (PO	U)						Appr	opriation	/Well (POA)
	Point of	of Diversion	n (P	OD)					Addi	tional Po	int of Appropriation (APOA)

Check all type(s) of temporary change(s) due to drought proposed below (change "CODES" are provided in parentheses): N/A

Place of Use (POU)	Point of Appropriation/Well (POA)
Character of Use (USE)	Additional Point of Appropriation (APOA)

Point of Diversion (POD)

Additional Point of Diversion (APOD)

Will all of the proposed changes affect the entire water right?

Yes Complete only the Proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.

No Complete all of Table 2 to describe the portion of the water right to be changed.

Additional remarks: Certificate 68536 has two priority dates. The February 15, 1979 will be the priority date used for the acres described above in this transfer.

RECEIVED BY OWRD

For Place of Use Changes

		there other water right certificates, water use permits or ground water registrations associated the "from" or the "to" lands? Yes No
	If Y	ES, list the certificate, water use permit, or ground water registration numbers: 61848 & 61849.
	rigl use.	suant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary at proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of If the primary water right does not revert soon enough to allow use of the supplemental right within five s, the supplemental right shall become subject to cancellation for nonuse under ORS 540-610.
		change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if necessary to y the water to the new temporary place of use:
		Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with corresponding well(s) in Table 1 above and on the accompanying application map. (Tip : You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)
	ANI	D/OR
		Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For <i>proposed wells not yet constructed or built</i> , provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.
y	well(s	onstruction of Point(s) of Appropriation) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the

Tal

An accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	well - specific rate (cfs or gpm) If less than full rate of water right

CERTIFICATE # 61848

Description of Water Delivery System

System capacity: 47 cubic feet per second (cfs) OR

21093.6 gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Please refer to Delivery System Map. The Columbia River right and the two ground water rights all use the same delivery system for the irrigation of the acres authorized in each right.

CERTIFICATE # 61849

Description of Water Delivery System

System capacity: <u>47</u> cubic feet per second (cfs) **OR**

21093.6 gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Please refer to Delivery System Map. The Columbia River right and the two ground water rights all use the same delivery system for the irrigation of the acres authorized in each right.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L)		'wp	R	ng	Sec	1/4	1/4	Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)

CERTIFICATE #83517

Description of Water Delivery System

System capacity: 47 cubic feet per second (cfs) OR

21093.6 gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Please refer to Delivery System Map. The Columbia River right and the two ground water rights all use the same delivery system for the irrigation of the acres authorized in each right.

For Place of Use Changes

1011	lace of the Changes
	there other water right certificates, water use permits or ground water registrations associated the "from" or the "to" lands? Yes No
If YES	, list the certificate, water use permit, or ground water registration numbers:
a prima the the	nt to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to ary right proposed for temporary transfer can be included in the transfer or remain unused on authorized place of use. If the primary water right does not revert soon enough to allow use of supplemental right within five years, the supplemental right shall become subject to cellation for nonuse under ORS 540-610.
	change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if sary to convey the water to the new temporary place of use:
	Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip : You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)
AN	D/OR
	Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For <i>proposed wells not yet constructed or built</i> , provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

assembling the information necessary to complete Table 3.

For Place of Use Changes

1011	interest of the Changes
	there other water right certificates, water use permits or ground water registrations associated the "from" or the "to" lands? Yes No
If YES	, list the certificate, water use permit, or ground water registration numbers:
a prima the a	nt to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to ary right proposed for temporary transfer can be included in the transfer or remain unused on authorized place of use. If the primary water right does not revert soon enough to allow use of supplemental right within five years, the supplemental right shall become subject to cellation for nonuse under ORS 540-610.
	change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if sary to convey the water to the new temporary place of use:
	Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip : You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)
ANI	D/OR
	Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For <i>proposed wells not yet constructed or built</i> , provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aguifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Part 5 of 5 - Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

CERTIFICATE # 86992

Description of Water Delivery System

Is this

System capacity: 47 cubic feet per second (cfs) OR

21093.6 gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Please refer to Delivery System Map. The Columbia River right and the two ground water rights all use the same delivery system for the irrigation of the acres authorized in each right.

For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?

Yes

No

If YES, list the certificate, water use permit, or ground water registration numbers:

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540-610.

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation	if
necessary to convey the water to the new temporary place of use:	

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and
associated with the corresponding well(s) in Table 1 above and on the accompanying
application map. (Tip: You may search for well logs on the Department's web page at:
http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorize d POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-	Total well depth	Casing Diamete r	Casing Interval s (feet)	Seal depth(s) (intervals	Perforate d or screened intervals (in feet)	Static water level of complete d well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	well - specific rate (cfs or gpm). If less than full rate of water right

Water Right Transfer Supplemental Form D

WATER RIGHTS ISSUED IN THE NAME OF AN IRRIGATION DISTRICT

The Department encourages applicants to coordinate with districts during the planning and preparation of transfer applications involving water rights issued in the name of an irrigation district or involving the transfer of water rights located within the boundaries of an irrigation district.

This form must be included with your transfer application if the transfer involves rights issued in the name of an irrigation district.

1. APPLICANT INFORMATION

We, Greg te Velde	We, Baker Produce South c/o Frank Tiegs
