ATTN: JESSICA JOYE Transfers Section CC: Shavon Haynes
District 13 Watermaster
Shaynallah Edelhertz

Dear Jessica,

This letter is in reference to temporary transfer application T-12659 of which you returned with a request for revisions on June 12, 2017. There have been three distinct changes to the application which are outlined below.

- 1) Duration of temporary transfer shall be 5 years commencing in 2017 and ending in 2022.
- 2) Temporary place of use has been defined; map and application revised.
- 3) Add point of appropriation to serve temporary place of use only to account for any deficiency in rate or duty at the temporary place of use which will be served by an additional point of diversion.

These changes were under the direction of the property owner. The property owner lives in a remote area out of state for a portion of the year and will be sending an additional check for \$359.50 to account for difference in fees along with a newly signed page 4 of the application.

Please find the following attached.

- 1) Revised application
- 2) Revised application map
- 3) Well Log Jack 63007

This should address your prior concerns. Please contact me with any questions.

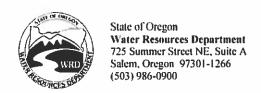

Sincerely,

Scott Fein

Certified Water Rights Examiner

Part 2 of 5 - Temporary Transfer Application Map Checklist

Your temporary transfer application <u>will be returned</u> if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required

items and matches the existing water right map. Check all boxes that apply. N/A If more than three water rights are involved, separate maps are needed for each water right. X Permanent quality printed with dark ink on good quality paper. The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, 11×17 inches, or up to 30×30 X inches. For 30 x 30 inch maps, one extra copy is required. 冈 A north arrow, a legend, and scale. 冈 The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department. X Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines. \boxtimes Tax lot boundaries (property lines) are required. Tax lot numbers are recommended. 冈 Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads. 冈 Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches. \boxtimes Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each guarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. Proposed temporary place of use that includes separate hachuring for each water right, M priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. 冈 Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit. M If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal $(example - 42.53764^{\circ}).$ RECEIVED BY OWRD

Part 3 of 5 - Fee Worksheet

	· · · -		
	FEE WORKSHEET for TEMPORARY (not drought) TRANSFERS	M.	
1	Base Fee (includes temporary change to one water right for up to 1 cfs)	1	\$700.00
	Number of water rights included in transfer 2 (2a)		
	Subtract 1 from the number in 3a above: 1 (2b) If only one water right this will be 0		
2	Multiply line 2b by \$225.00 and enter » » » » » » » » » » » » »	2	225.00
	Do you propose to add or change a well, or change from a surface water POD to a		
	well?		
	No: enter 0 » » » » » » » » » » » » » » » » » »		8
_3		3	350
		REC	EIVED BY O
	No: enter 0 on line 4 » » » » » » » » » » » » » » »		
	Yes: enter the cfs for the portions of the rights to be transferred: (4a)		JUL 1 3 2017
	Subtract 1.0 from the number in 4a above:(4b)		
	If 4b is 0, enter 0 on line 4 » » » » » » » » » » » » » » »		SALEM, OR
	If 4b is greater than 0, round up to the nearest whole number:(4c) and		
4	multiply 4c by \$175.00, then enter on line 4 » » » » » » » » »	4	0
	Do you propose to change the place of use for an irrigation use?		
	No: enter 0 on line 5 » » » » » » » » » » » » » » » » »		
	Yes: enter the number of acres for the portions of the rights to be		
	transferred: $\underline{2.25 (5a)}$		
5	Multiply the number of acres in 5a above by \$2.00 and enter on line 5 » »	5	4.50
6	Add entries on lines 1 through 5 above » » » » » » » » » Subtotal:	6	1279.50
	Is this transfer:		
	necessary to complete a project funded by the Oregon Watershed		
	Enhancement Board (OWEB) under ORS 541.932?		
	endorsed in writing by ODFW as a change that will result in a net benefit to		
	fish and wildlife habitat?		
	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »		
7	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » »	7	0
8	Subtract line 7 from line 6 » » » » » » » » » » » » » Transfer Fee:	8	1279.50

	FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS												
1	Base Fee (includes drought application and recording fee for up to 1 cfs)		\$200.00										
	Enter the cfs for the portions of the rights to be transferred (see example below*):												
	(2a)												
	Subtract 1.0 from the number in 2a above: (2b)												
	If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » »												
	If 2b is greater than 0, round up to the nearest whole number: (2c) and												
2	multiply 2c by \$50, then enter on line 2 » » » » » » » » »	2											
3	Add entries on lines 1 through 2 above » » » » » » » Transfer Fee::	3											

^{*}Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

^{1.} Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac = 0.56 cfs).

^{2.} If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac \times 0.0125 cfs/ac = 0.56 cfs)

^{3.} Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

Explain in your own words what you propose to accomplish with this transfer application; and why: In order to temporarily server the new place of use for a period of up 5 years the water water user seeks to be able to divert water from Thompson Creek directly as oppossed to utilizing lengthy ineffecient ditches which are very diffuclt to maintain. Water user seeks to develop more efficient methods of irrigation suchs install of high pressure sprinkler and drip irrigation in the temporary place of use to be served by an additional point of diversion on Thompson Creek for pumping via a pipeline to the temporary place of use. Water user also seeks to add a point of appropriation (Jack 63007) to account for any deficiciency in rate or duty from the additional point of diversion in serving the temporary place of use. The proposed point of appropriation would be hydraullically connected to the waters of Thompson creek under OAR 690-009-0040 (4)(a) as the point of appropriation is less than one quarter mile from Thompson Creek. Regarding the waters of Dry Gulch & Seepage under certificate 15301, water user will not divert at the authorized ditch point of diversion and will allow natural flow of Dry Gulch to Thompson Creek and divert the waters of Dry Gulch within Thompson Creek at the aforementioned additional point of diversion to serve the tempoary place of use. Water user is imporving their property and is developing more efficient use of CI C p

of water as is economically feasible. This is exemplified by development of an access road and crop cultivation areas in the temporary place of use. It shall be noted that rights are layered between certificates 16470 and 15301 only for the character of use of irrigation. Certificate 16470 shall be orimary and certificate 15301 shall be subordinated to supplemental rights.										
If you need additional space,	continue on a s	separate piece of paper and attach to the	e application as "Att	achment 1".

INSTRUCTIONS for editing the Application Form

To add additional lines to tables within the forms or to copy and paste additional Part 5 pages, please save the application form to your computer. Unlock the document by using one of the following instructions for your Microsoft Word software version:

Microsoft Word 2003

Unlock the document by one of the following:

- Using the Tools menu => click Unprotect Document;
 OR
- Using the Forms toolbar => click on the Protect/Unprotect icon.

To relock the document to enable the checkboxes to work, you will need to:

Using the Tools menu => click Protect Document;
 OR

• Using the Forms toolbar => click on the Protect/Unprotect icon.

Once the application has been unlocked, you may:

- add additional rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

Microsoft Word 2007

- Unlock the document by clicking the Review tab, then click Protect Document, then click Stop Protect
- To relock the document, click Editing Restrictions, then click Allow Only This Type of Editing, select Filling In Forms from the drop-down menu, then check Yes, Start Enforcing Protection.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab, toggle the **Restrict Editing icon** at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the "Allow only this type of editing in the document: Filling in forms" in the "Editing restrictions" section on the right-hand list of options.
- To relock the document, check the Editing Restrictions/Allow Only This Type of Editing/Filling In Forms box from the drop-down menu, then check Yes, Start Enforcing Protection. You do not need to assign a password for the editing restrictions.

Other Alternatives:

- Photocopy pages or tables in Part 5, mark-through any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

Temporary Transfer Application - Page 10 of 11

1592 Revised 7/1/2013

Creek to divert Thompson Creek waters to the temporary place of use. A point of appropriation is being added with the source being well Creek. Water user will be installing more efficient methods of irrigation such as drip and high pressure sprinklers. Water user seeks this to be a long term additional point of diversion, however as a recent property owner is only applying for a temporary transfer at this time maintaining harmony with other water users of Thompson Creek prior to applying for a permanent transfer for this additional point of JACK 63007 supplement any deficiency in rate or duty to serve the temporary place of use as a back up source of water to Thompson Additional remarks: Water user seeks to add an additional point of diversion to place a pumping station with fish screen in Thompson to ensure that long term cultivatin of crops in the tempoary place of use is viable and meets the water users long terms needs while diversion.

	Certificate #
For Pl	ace of Use Changes
	there other water right certificates, water use permits or ground water registrations associated the "from" or the "to" lands? Yes No
If YI	ES, list the certificate, water use permit, or ground water registration numbers:
to a punus allov	uant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental primary right proposed for temporary transfer can be included in the transfer or remain sed on the authorized place of use. If the primary water right does not revert soon enough to w use of the supplemental right within five years, the supplemental right shall become subject incellation for nonuse under ORS 540-610.
	change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if ary to convey the water to the new temporary place of use:
	Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip : You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)
ANI	D/OR
	Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For <i>proposed wells not yet constructed or built</i> , provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right
