Part 4 of 4 – Ground Water Registration Information

Please use a separate Part 4 for each registration being modified. See instructions on page 5, to copy and paste additional Part 4s, or to add additional rows to tables within the form.

Table 1. Location of Authorized and Proposed Point(s) of Appropriation (POA)

(Note: If the POA name is not specified in the registration, assign it a name or number here.)

POA Name or Number	Is this POA Authorized by the registration or is it Proposed?	OWRD Well Log ID# (or Well ID Tag # L)	Т	wp	R	ng	Sec	1/4	i 1⁄4	Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
Hassler Well	Authorized	MARI 9150	8	s	1	W	34	SE	SE		655' north and 55' west from the SE corner of Section 34.
Sublimity Well #1	Authorized	MARI 9149	8	S	1	w	34	NW	SE		1,423' north and 1,445' west from the SE corner of Section 34.
	Authorized Proposed Authorized Proposed								-		

Check all type(s) of modifications(s) proposed below (modification "CODES" are provided in parentheses):

Place of Use (POU)

Point of Appropriation (well) (POA)

Additional Point of Appropriation (APOA)

Character of Use (USE)

Will all of the proposed changes affect the entire ground water registration?

Yes Complete only the proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.

 \boxtimes

No Complete all of Table 2 to describe the portion of the registration to be changed.

Table 2. Description of Modifications to Registration GR-269. Certificate # GR-249. List only the part of the registration that will be modification. If more than one modification proposed. If more than one modification, specify the acreage associated with each POA. AUTHORIZED (the "from" or "or" "and") The listing that repears in the registration that will be changed. Two will be modification. If more than one POA, specify the acreage associated with each POA. The listing that repears in the registration that will be changed. Two will be acreage associated with each POA. Two will be acreage associated with each point. Two will part or proton of the groundwater registration that will be changed. Groundwater Registration # GR-<u>269</u> (Certificate # GR-<u>249</u>) For a modification in place of use or character of use:

Are there other water right certificates, water use permits, or ground water registrations associated with the "from" or "to" lands? \boxtimes Yes \square No

If YES, list the other certificate, water use permit, or other ground water registration numbers: <u>CITY OF SUBLIMITY HAS OTHER PERMITS. SEE ATTACHED LEDGER</u>

Pursuant to OAR 690-382-0200, any "layered" water use, such as an irrigation right that is supplemental to a primary irrigation right proposed for transfer, must be concurrently transferred with the registration or be cancelled. Any change to a water right must be filed separately in a transfer application. Any change to a water use permit must be filed separately with a permit amendment. Any modification to a ground water registration on the "to" lands must be filed separately with a ground water registration.

For modifications in point(s) of appropriation (well(s) or additional point(s) of appropriation:

Well log(s) are attached for each well that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (**Tip**: You may search for well logs on the Department's web page at: <u>http://apps.wrd.state.or.us/apps/gw/well_log/</u>)

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your modification application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). <u>If</u> less than full rate of water right
