

Application for Water Right Temporary or Drought Temporary Transfer Part 1 of 5 – Minimum Requirements Checklist

This temporary transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.											
	N/A	Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation (if necessary to convey water to the proposed place of use).											
		(For Staff Use Only) WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S): Application fee not enclosed/insufficient											

Your temporary transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

N/A If more than three water rights are involved, separate maps are needed for each water right. Permanent quality printed with dark ink on good quality paper. The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required. \boxtimes A north arrow, a legend, and scale. X The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department. \boxtimes Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines. \boxtimes Tax lot boundaries (property lines) are required. Tax lot numbers are recommended. X Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads. X Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches. X Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. \boxtimes Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. \boxtimes Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit. If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digital ter the decimal $(example - 42.53764^{\circ}).$ SEP 0 1 2017

Part 3 of 5 - Fee Worksheet

	Part 3 01 5 -	· Fe	e Workshee
	FEE WORKSHEET for TEMPORARY (not drought) TRANSFERS		20 to 10 to
1	Base Fee (includes temporary change to one water right for up to 1 cfs)	1	\$810.00
	Number of water rights included in transfer 1 (2a)		
	Subtract 1 from the number in 3a above: <u>0 (2b) If only one water right this will be 0</u>		
2	Multiply line 2b by \$260.00 and enter » » » » » » » » » » » » »	2	0
	Do you propose to change the place of use for a non-irrigation use?		
	\boxtimes No: enter 0 on line 4 \times		
	Yes: enter the cfs for the portions of the rights to be transferred: (4a)		
	Subtract 1.0 from the number in 4a above: (4b)		
	If 4b is 0, enter 0 on line 4 » » » » » » » » » » » » » » » »		
	If 4b is greater than 0, round up to the nearest whole number: (4c) and		
	multiply 4c by \$200.00, then enter on line 4 (or \$0.50 if submitted in a		_
3	Department approved digital format) » » » » » » » »	4	0
	Do you propose to change the place of use for an irrigation use?		
	No: enter 0 on line 5 » » » » » » » » » » » » » » » »		
	Yes: enter the number of acres for the portions of the rights to be		
	transferred: (5a)	_	•
4	Multiply the number of acres in 5a above by \$2.30 and enter on line 5 » »	5	0
5	Add entries on lines 1 through 5 above » » » » » » » » » Subtotal:	6	\$810.00
	Is this transfer:		
	necessary to complete a project funded by the Oregon Watershed		1
	Enhancement Board (OWEB) under ORS 541.932?		
	endorsed in writing by ODFW as a change that will result in a net benefit to		
	fish and wildlife habitat?		
	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »	_	
6	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » »	7	0
7	Subtract line 7 from line 6 » » » » » » » » » » » » » Transfer Fee:	8	\$810.00

	FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS		3 9 8
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
	(2a)		
	Subtract 1.0 from the number in 2a above: (2b)		
	If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » »	li	
	If 2b is greater than 0, round up to the nearest whole number: (2c) and		
2	multiply 2c by \$50, then enter on line 2 » » » » » » » » »	2	NA
3	Add entries on lines 1 through 2 above » » » » » » » Transfer Fee::	3	NA

^{*}Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

SEP 0 1 2017

^{1.} Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac = 0.56 cfs).

^{2.} If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac \times 0.0125 cfs/ac = 0.56 cfs)

Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

Part 4 of 5 - Applicant Information and Signature

Explain in your own words what you propose to accomplish with this transfer application; and why: We are proposing to add a Point of Diversion (POD) temporarily to our 83.0-acre portion of the 162.5-acre water right. The proposed POD will be downstream of our authorized POD on the South Yamhill River and is intended to facilitate irrigating our hazelnut orchard. The proposed changes will not affect the 79.5 acres owned by others.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

☐ Check this box if t	his project is fully o	r partially f	funded by the	American l	Recovery a	nd
Reinvestment Act.	(Federal stimulus d	lollars)				

I (we) affirm that the information contained in this application is true and accurate.

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

Description of Water Delivery System

System capacity: 1.11 cubic feet per second (cfs) OR

gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. There is a 75-hp centrifugal pump at the river POD that diverts water to a 12-inch-diameter transite mainline. The mainline reduces to 6 inches in diameter at the place of use (POU). There are 2,000 feet of 3-inch-diameter handline and 300 sprinklers available. Irrigation is typically conducted using 50 sprinklers with 13/64-inch nozzles.

The lift from the river to POU is 50 feet and the system is reported to operate at 80 psi. The Department's online calculator for CRWEs shows the pump produces 1.96 cfs.

The table attached to Claims of Beneficial Use indicates 13/64-inch nozzles produce 9.2 gpm at 60 psi, but does not list a rate for 80 psi. Assuming that 50 nozzles are used at 80 psi and that each nozzle produces at least 10 gpm at 80 psi, the nozzles can deliver 500 gpm or 1.11 cfs. At 1/80 cfs per acre, the 83 acres involved in the transfer would be allotted a rate of 1.04 cfs.

For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No
If YES, list the certificate, water use permit, or ground water registration numbers: NA
Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540-610.
For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if
necessary to convey the water to the new temporary place of use:
1
Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip : You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)
AND/OR
Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.
ble 3. Construction of Point(s) of Appropriation y well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown
A Montal in this usual mast of clearly fied to collesponding Mental accided in 1 apic 1 and shown

Tab

Any on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
