Lisa Jaramillo Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, OR 97301

Re: Temporary Transfer Application – Saraband Enterprises, LLC

Sarbanand Enterprises, LLC (Sarbanand) is seeking to temporarily change the place of use and add a point of diversion for Certificate 66583. The proposed change will allow irrigation of a different portion of Sarbanand's Amity Farm. Please find enclosed a temporary transfer application and related documents. Also enclosed is the required fee of \$1,208.13

Please contact me if you have any questions or concerns. My number is 541-257-9004.

Sincerely,

Kimberly Grigsby Supervising Water Resources Consultant

Part is incomplete

Date:

Your temporary transfer application will be returned if any of the map requirements listed
below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

	N/A	If more than three water rights are involved, separate maps are needed for each water right.
\boxtimes		Permanent quality printed with dark ink on good quality paper.
\boxtimes		The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30×30 inch maps, one extra copy is required.
\boxtimes		A north arrow, a legend, and scale.
		The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
\square		Township, Range, Section, ¹ / ₄ ¹ / ₄ , DLC, Government Lot, and other recognized public land survey lines.
\boxtimes		Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
\boxtimes		Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
\boxtimes		Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
		Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
	N/A	Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
\square		Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
	N/A	If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example $-42^{\circ}32^{\circ}15.5^{\circ}$) or degrees-decimal with five or more digits after the decimal (example -42.53764°).

Part 3 of 5 - Fee Worksheet

	FEE WORKSHEET for TEMPORARY (not drought) TRANSFERS					
1	Base Fee (includes temporary change to one water right for up to 1 cfs)	1	\$810.00			
	Number of water rights included in transfer 1 (2a)					
	Subtract 1 from the number in 3a above: $0 (2b)$ If only one water right this will be 0					
2	Multiply line 2b by \$260.00 and enter » » » » » » » » » » » » » » »	2	0			
	Do you propose to change the place of use for a non-irrigation use?					
	\boxtimes No: enter 0 on line 4 » » » » » » » » » » » » » » » » » »					
	\Box Yes: enter the cfs for the portions of the rights to be transferred: (4a)					
	Subtract 1.0 from the number in 4a above:(4b)					
	If 4b is 0, enter 0 on line 4 » » » » » » » » » » » » » » » » » »					
	If 4b is greater than 0, round up to the nearest whole number: (4c) and					
	multiply 4c by \$200.00, then enter on line 4 (or \$0.50 if submitted in a					
3	Department approved digital format) » » » » » » » » » »	4	0			
	Do you propose to change the place of use for an irrigation use?					
	No: enter 0 on line 5 » » » » » » » » » » » » » » » » » »					
	\boxtimes Yes: enter the number of acres for the portions of the rights to be					
	transferred: <u>173.1 (5a)</u>					
4	Multiply the number of acres in 5a above by \$2.30 and enter on line 5 » »	5	398.13			
5	Add entries on lines 1 through 5 above » » » » » » » » » » » Subtotal:	6	1208.13			
	Is this transfer:					
	necessary to complete a project funded by the Oregon Watershed					
	Enhancement Board (OWEB) under ORS 541.932?					
	endorsed in writing by ODFW as a change that will result in a net benefit to					
	fish and wildlife habitat?					
	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »					
6	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » » » »	7	0			
7	Subtract line 7 from line 6 » » » » » » » » » » » » » » » Transfer Fee:	8	1208.13			

	FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS								
1	1 Base Fee (includes drought application and recording fee for up to 1 cfs)								
	Enter the cfs for the portions of the rights to be transferred (see example below*):								
	<u>(2a)</u>								
	Subtract 1.0 from the number in 2a above: (2b)								
	If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » » » »								
	If 2b is greater than 0, round up to the nearest whole number: (2c) and								
2	multiply 2c by \$50, then enter on line 2 » » » » » » » » » »	2							
3	Add entries on lines 1 through 2 above » » » » » » » » » Transfer Fee:	3	N/A						

<u>*Example for Line 2a calculation</u> to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac = 0.56 cfs).

2. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs) 3. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental**

rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

Explain in your own words what you propose to accomplish with this transfer application; and why: The Applicant proposes to temporarily change the place of use and add an additional downstream point of diversion for Certificate 66583 to allow for irrigation on higher elevation portions of Amity Farm.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

I (we) affirm that the information contained in this application is true and accurate.

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

Description of Water Delivery System

System capacity: cubic feet per second (cfs) **OR**

1,000 gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Water is diverted using a 100 hp centrifugal pump with a capacity of 1,000 gpm. A 10-inch main line conveys the water 2,000 feet and an 8inch main line conveys water 6,000 feet. The Applicant is in the process of converting the irrigation system to drip irrigation.

Certificate # 66583

For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \Box Yes \boxtimes No

If YES, list the certificate, water use permit, or ground water registration numbers:

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540-610.

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if necessary to convey the water to the new temporary place of use: N/A

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well log/Default.aspx)

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation- N/A

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aguifer.

Proposed or Authorized POA Name or Number	Is well already built?
