

Application for Permanent Water Right Transfer

Part 1 of 5 - Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

Check all ite	ms included with this application. $(N/A = Not Applicable)$				
\boxtimes	Part 1 – Completed Minimum Requirements Checklist.				
\boxtimes	Part 2 – Completed Transfer Application Map Checklist.				
	Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator . If you have questions, call Customer Service at (503) 986-0801.				
\boxtimes	Part 4 – Completed Applicant Information and Signature.				
	Part 5 – Information about Water Rights to be Transferred: How many water rights are to be transferred? 1 List them here: Certificate 93321 Please include a separate Part 5 for each water right. (See instructions on page 6)				
	Attachments:				
\boxtimes	Completed Transfer Application Map.				
\boxtimes	Completed Evidence of Use Affidavit and supporting documentation.				
□ N/A	Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)				
□ N/A	Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.				
⊠ □ n/a	Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.				
⊠ ∏ N/A	Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.				
□ ⊠ N/A	Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.				
DEC 0 8 2017	(For Staff Use Only) WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S): Application fee not enclosed/insufficient Map not included or incomplete Land Use Form not enclosed or incomplete Additional signature(s) required Part is incomplete Other/Explanation Staff: 503-986-0 Date: /				

Your transfer application will be returned if any of the map requirements listed below are not met.

		sure that the transfer application map you submit includes all the required items and the existing water right map. Check all boxes that apply.
	□ N/A	Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/ . CWRE stamp and signature are not required for substitutions.
	⊠ N/A	If more than three water rights are involved, separate maps are needed for each water right.
\boxtimes		Permanent quality printed with dark ink on good quality paper.
\boxtimes		The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30×30 inch maps, one extra copy is required.
\boxtimes		A north arrow, a legend, and scale.
		The scale of the map must be: $1 \text{ inch} = 400 \text{ feet}$, $1 \text{ inch} = 1,320 \text{ feet}$, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than $1 \text{ inch} = 1,320 \text{ feet}$, or a scale that has been pre-approved by the Department.
\boxtimes		Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
\boxtimes		Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
\boxtimes		Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
\boxtimes		Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
		Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
\boxtimes	□ N/A	Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
\boxtimes		Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
	⊠ N/A	If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).
	Davidad 7/07/	more digits after the decimal (example – 42.53/64°). DEC 0 8 2017

, ng	FEE WORKSHEET for PERMANENT TRANSFER Part 3 of 5	- Fee	Worksheet
1	Base Fee (includes one type of change to one water right for up to 1 cfs)	1	\$1,160
	Types of change proposed: ☐ Place of Use ☐ Character of Use ☐ Point of Diversion/Appropriation		
	Number of above boxes checked = $\frac{1}{2}$		
2	Subtract 1 from the number in line $2a = 0$ (2b) If only one change, this will be 0 Multiply line 2b by \$930 and enter $ >>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>$	2	\$0
	Number of water rights included in transfer $\frac{1}{3a}$ (3a) Subtract 1 from the number in 3a above: $\frac{0}{3b}$ If only one water right this will be 0		•
3	Multiply line 3b by \$520 and enter » » » » » » » » » » » » » »	3	\$0
	Do you propose to add or change a well, or change from a surface water POD to a well? No: enter 0 »» » » » » » » » » » » » » » » » » »		
4	Yes: enter \$410 » » » » » » » » » » » » » » » » »	4	\$0
	Do you propose to change the place of use or character of use? No: enter 0 on line 5 » » » » » » » » » » » » » » » » » »	REC	CEIVE
	Yes: enter the cfs for the portions of the rights to be transferred (see example below*): $0.056 (5a)$	DE	C 0 8 2017
	Subtract 1.0 from the number in 5a above: -0.944 (5b) If 5b is 0 or less, enter 0 on line 5 » » » » » » » » » » » » » » » » » »	0	WRD
5	and multiply 5c by \$350, then enter on line 5 » » » » » » » » »	5	\$0
6	Add entries on lines 1 through 5 above » » » » » » » » » Subtotal:	6	\$1,160
	Is this transfer: necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.932? endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat? If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »		
7	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » » »	7	\$0
8	Subtract line 7 from line 6 » » » » » » » » » » » » » Transfer Fee:	8	\$1,160

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

- 1. For irrigation calculate cfs for each water right involved as follows:
 - a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).
 - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
- 2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

	FEE WORKSHEET for SUBSTITUTION		. Table
1	Base Fee (includes change to one well)	1	\$840.00
	Number of wells included in substitution (2a)		
	Subtract 1 from the number in 3a above: (2b) If only one well this will be 0		
2	Multiply line 2b by \$410 and enter » » » » » » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above » » » » Fee for Substitution:	3	NA

Explain in your own words what you propose to accomplish with this transfer application, and why:

Our original layout included 20 homes, but over time, an additional lot was added. We need to change the right to Quasi Municipal in order to establish a service area to include the additional household.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or partially funded by the American Recovery and
Reinvestment Act. (Federal stimulus dollars)

I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

OWRD

I understand that prior to Department approval of the transfer application; I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Bend Bulletin

I (we) affirm that the information contained in this application is true and accurate.

Applicant Signature	ROALD YOUR Print Name and title if applicable	11-27717 Date
Applicant Signature	Print Name and title if applicable	Date

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? Yes No If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.

Revised 7/27/2017

Permanent Transfer Application Form - Page 4 of 8

TACS

Check the following boxes that apply:							
The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.							
The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.							
Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.							
At this time, are the lands in this transfer application in the process of being sold? Yes No							
If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

DEC 0 8 2017

2

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \square Yes \boxtimes No

If YES, list the certificate, water use permit, or ground water registration numbers: NA.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

RECEIVED

Ground water supplemental Permit or Certificate # <u>NA</u>; Surface water primary Certificate # <u>NA</u>.

DEC 0 8 2017

For a change from Supplemental Irrigation Use to Primary Irrigation Use

OWRD

Identify the primary certificate to be cancelled. Certificate # NA

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

\boxtimes	Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated
	with the corresponding well(s) in Table 1 above and on the accompanying application map.
	Tip: You may search for well logs on the Department's web page at:
	http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not
have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each
requested information element in the table. The Department recommends you consult a licensed well
driller, geologist, or certified water right examiner to assist with assembling the information necessary
to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? 								_						

Attachment A Proposed Transfer for Certificate 93321 Additional Remarks

Generally, water rights issued for group domestic use specify a given rate determined by the Department according to a formula based on the number of households. These types of rights do not typically specify a duty; therefore, the water users have the right to use water at the specified rate 24 hours per day, 7 days per week. For Certificate 93321, continuous use at the allowed rate of 0.056 cfs would be equivalent to a daily use of about 1,810 gallons per day (gpd) for each of the 20 authorized households.

However, it is unrealistic to expect that group domestic users could place a 24-hour per day demand on the system. For establishing a reasonable duty on the water right, it might make more sense to assume a maximum demand of no more than 12 hours per day. For Certificate 93321, use at the allowed rate of 0.056 cfs for 12 hours per day would be equivalent to a daily use of about 905 gpd for each of the 20 authorized households. This value seems more reasonable and falls within the upper range of daily use that would be expected for a household. Average use for domestic purposes (i.e., not including irrigation) in a 2- to 3- person household is generally accepted to be from 200 to 300 gallons per day. Larger households which are practicing intense irrigation of lawn and landscaping may use up to 1,000 gpd or more during the dry summer months. Therefore, the average values for daily household uses probably range between 200 and 1,000 gpd.

Marion County specifies that a household use of 525 gpd must be assumed when preparing a Water Use Inventory or Hydrogeology Review for a proposed partition or subdivision within their Sensitive Ground Water Overlay Zone (Marion County Planning Division. 1998. *A Manual for Completion of Hydrogeology Reviews and Studies In Compliance with the Marion County Sensitive Groundwater Overlay Zone*. June 28, 1998, Revised October 2005). In an ordinance similar to Marion County's, Clackamas County specifies that single household use should be assumed to consist of 400 gpd domestic (in-house) use year-round, plus 2,000 gpd for irrigation of lawn and landscaping during the 122-day irrigation season of June through September (*Clackamas County, 2011. Guidance for the Preparation of Hydrogeologic Review Reports*, Zoning and Development Ordinance, Section 1006, January 2011). These figures result in an average daily household use of about 1,068 gallons.

The values specified by Marion County and Clackamas County are intended to represent actual per-household use. For establishing a maximum volume limit for a group domestic use, a reasonable value for average daily use might therefore be closer to the upper end of the range between 525 and 1,068 gpd. A household use of 905 gpd meets this criterion. For Certificate 93321, a household use of 905 gpd for 20 homes is equivalent to a use at the allowed rate of 0.056 cfs for 12 hours per day, which is equal to 20.3 Acre Feet per year. Therefore, we recommend that a duty of 20.3 Acre Feet be established as a condition for this proposed transfer to prevent enlargement of the water right.

DEC 0 8 2017
