Application for District Instream Lease

Part 1 of 4 – Minimum Requirements Checklist

This Application to be used for water rights in the name of or conveyed by an Irrigation District (or similar organization) Complete Parts 1 through 4 and any required attachments	OWRD #	IL-1658
	District #	IL-18-12

Check all items included with this application. (N/A = Not Applicable)

Yes N/A **Pooled Lease**-a lease with more than one Lessor (Landowner/water right interest holder)

Fee in the amount of:

<input checked="" type="checkbox"/> \$520.00 for a lease involving four or more landowners or four or more water rights	Or <input type="checkbox"/> \$350.00 for all other leases
<input type="checkbox"/> Check enclosed <u>or</u>	
<input checked="" type="checkbox"/> Fee Charged to customer account <u>Deschutes River Conservancy</u> (Account name)	

Part 1 –

Completed Minimum Requirements Checklist

Part 2 – Completed District and Other Party Signature Page

Part 3 – Completed Place of Use and Lessor Signature Page
(Include a separate Part 3 for each Lessor.)

Part 4 – Completed Water Right and Instream Use Information
(Include a separate Part 4 for each Water Right.)

How many Water Rights are included in the lease application? _____ (# of rights)

List each water right to be leased instream here: 83571

Yes N/A **Other water rights**, if any, appurtenant to the lands involved in the lease application and not proposed to be leased instream.

List those other water rights here: 76714

Yes No **Conservation Reserve Enhancement Program CREP** – Are some or all of the lands to be leased part of CREP or another Federal program (list here: _____)?

Required Attachments:

Yes N/A Instream lease application map(s). More than one QQ and property may be included on each map. A map is **not** required if an entire right is being leased or if the right is for use of municipal or quasi-municipal water use. The map should include the following:

- A north arrow and map scale (no smaller than 1" = 1320').
- Label township, range, section and quarter-quarter (QQ).
- If an irrigation right, the numbers of acres to be leased in each quarter-quarter identify and hachure/shade to differentiate between the acreage being leased and any remaining. If the place of use has more than one priority date, source stream, and/or point of diversion you **must identify each with separate hachuring or shading** and label.
- Tax lot lines and numbers must be included on the map and should clearly identify the property(s) involved.

Yes N/A **If the Lessor(s) is not the deeded land owner**, include one of the following:

- A notarized statement from the land owner consenting to the lease and a copy of the recorded deed; or
- A water right conveyance agreement and a copy of the recorded deed for the landowner at the time the water right was conveyed; or
- Other documentation.

Yes N/A If the right has **not** been used in the last five years; provide supporting documentation indicating why a right (or portion thereof) is **not** subject to forfeiture.

Received by OWRD

MAR 27 2018

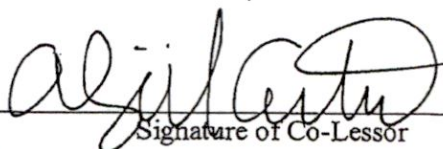

Salem, OR

Part 2 of 4 – District and other party Signature

Term of the Lease: The lease is requested to begin in: <u>month April year 2018</u> and end: <u>month October year 2018</u> .	
Public use: Check the public use(s) this lease will serve (as defined by ORS 537.332): <input checked="" type="checkbox"/> Conservation, maintenance and enhancement of aquatic, fish and wildlife, fish and wildlife habitat and any other ecological values. <input checked="" type="checkbox"/> Recreation <input checked="" type="checkbox"/> Pollution abatement <input type="checkbox"/> Navigation	Termination provision (for multiyear leases): The parties to the lease request (choose one): <input type="checkbox"/> a. The option of terminating the lease prior to expiration of the full term with written notice to the Department by the Lessor(s) and/or Lessee. <input type="checkbox"/> b. The option of terminating the lease prior to expiration of the full term, with consent by all parties to the lease. <input checked="" type="checkbox"/> c. The parties would not like to include a Termination Provision. (See instructions for limitations to this provision)
Additive/Replacing Relationship to other instream water rights: Instream leases are generally additive to other existing instream water rights created as a result of instream leases and transfers and/or allocations of conserved water. Since instream leases are also generally senior to other instream rights created through a state agency process or conversion of minimum flows, they generally replace a portion of these junior instream rights. If you would like this lease to relate to other instream water rights differently than described above, please check this box. <input type="checkbox"/> And attach an explanation of your intent.	
Precedent: If a right which has been leased is later proposed to be leased again or later transferred or become part of an allocation of conserved water project, a new injury review shall be required. An instream lease shall not set a precedent on a future transaction.	
Validity of the rights to be leased: <input checked="" type="checkbox"/> The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last five years or have been leased instream; or <input type="checkbox"/> The water right(s) have not been used for the last five years according to the terms and conditions of the rights. However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right is not subject to forfeiture has been provided.

**Deschutes River Conservancy
Instream Leasing Program**

MAR 27 2018

**Policy Concerning Weeds & Instream Leases
Information on Farm Deferral & Lease Payment**

Salem, OR

The Deschutes River Conservancy is dedicated to restoring stream flow and improving water quality in the Deschutes Basin; land stewardship is a component of these goals.

Weed Policy

The DRC expects participants in the Leasing Program will continue to exercise agricultural best management practices on lands enrolled in the Program, particularly with respect to the control of noxious and/or nuisance weeds. Failure to control weeds on leased acres may result in exclusion from Program compensation.

Information and Resources Attached

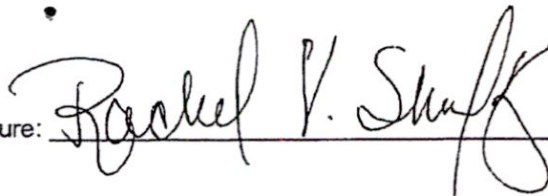

Farm Deferral Notice

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. It is the landowner's responsibility to know their tax assessment status and qualifying uses.

Information and Resources Attached

Donated Leases: One year and multi-year leases of less than 10 acres, leases with public entities, leases submitted after the due date, and leases with verified weed complaints are not paid a per acre or per acre-foot rate by the DRC.

I, Rachel Shultz understand the DRC weed policy and have

EXHIBIT C

**Deschutes River Conservancy
Instream Leasing Program**

**Policy Concerning Weeds & Instream Leases
Information on Farm Deferral & Lease Payment**

The Deschutes River Conservancy is dedicated to restoring stream flow and improving water quality in the Deschutes Basin; land stewardship is a component of these goals.

Weed Policy

The DRC expects participants in the Leasing Program will continue to exercise agricultural best management practices on lands enrolled in the Program, particularly with respect to the control of noxious and/or nuisance weeds. Failure to control weeds on leased acres may result in exclusion from Program compensation.

Information and Resources Attached

Farm Deferral Notice

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. It is the landowner's responsibility to know their tax assessment status and qualifying uses.

Information and Resources Attached

Donated Leases: One year and multi-year leases of less than 10 acres, leases with public entities, leases submitted after the due date, and leases with verified weed complaints are not paid a per acre or per acre-foot rate by the DRC.

I, Jim MERRY understand the DRC weed policy and have
Print Name
been informed about farm deferral and donations.

EXHIBIT C

**Deschutes River Conservancy
Instream Leasing Program**

**Policy Concerning Weeds & Instream Leases
Information on Farm Deferral & Lease Payment**

The Deschutes River Conservancy is dedicated to restoring stream flow and improving water quality in the Deschutes Basin; land stewardship is a component of these goals.

Weed Policy

The DRC expects participants in the Leasing Program will continue to exercise agricultural best management practices on lands enrolled in the Program, particularly with respect to the control of noxious and/or nuisance weeds. Failure to control weeds on leased acres may result in exclusion from Program compensation.

Information and Resources Attached

Farm Deferral Notice

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. It is the landowner's responsibility to know their tax assessment status and qualifying uses.

Information and Resources Attached

Donated Leases: One year and multi-year leases of less than 10 acres, leases with public entities, leases submitted after the due date, and leases with verified weed complaints are not paid a per acre or per acre-foot rate by the DRC.

I, Enwas Kobbé understand the DRC weed policy and have
Print Name
been informed about farm deferral and donations.

Part 4 of 4 – Water Right and Instream Use Information

Use a separate Part 4 for each water right to be leased instream

Table 2

Use Table 2 to illustrate the totals for the water right proposed to be leased instream (based on Part 3 of 4) Water Right # 83571

Total rate and volume by priority date, POD, use and acreage as appropriate considering the right to be leased. If not enough room below, you may add rows (see instructions) or create a spreadsheet (matching Table 2 and clearly labeled) and attach.
(cfs = cubic feet per second and af = acre-feet)

Priority Date	POD #	Use	Acres	Other Information (such as conditions/limitations on the right)	Rate (cfs)	Volume (af)
10/31/1900	11	Irrig	50.045	Season 1 Rate / Total Volume	0.619	490.63
10/31/1900	11	Irrig	50.045	Season 2 Rate	0.825	
10/31/1900	11	Irrig	50.045	Season 3 Rate	1.092	
12/02/1907	11	Irrig	50.045	Season 3 Rate	0.437	

Total af from storage, if applicable: AF or N/A

If the POD is not described on the certificate or, if there is more than one POD listed on the certificate, then the specific POD must be described:

Table 3

Instream Use created by the lease:	River Basin: <u>Deschutes</u>	River/Stream Name: <u>Deschutes River, tributary to Columbia River</u>
Proposed Instream Reach: <input checked="" type="checkbox"/> A reach typically begins at the POD and ends at the mouth of the source stream: From the POD _____ to Mouth of the <u>Deschutes River (RM 0)</u>	Or Proposed Instream Point: <input type="checkbox"/> Instream use protected at the POD	

OR Please check this box if you are not sure of the proposed reach and want water to be protected within a reach below the POD, if possible. If no reach is identified or the above box is not checked, and there is only one POD listed on the water right, the lease may be processed to be protected at the POD.)

Instream Portion: May not exceed the maximum rate/volume for the right (identified in Table 2)

Use the table 3 to illustrate the instream rate, volume and instream period by priority date, POD, Use and acreage, as appropriate. If not enough room below, you may add rows (see instructions) or create a spreadsheet (clearly labeled and matching the below portion of Table 3) and attach.

Priority date	POD #	Use	Acres	Proposed Instream Period	Instream Rate (cfs)	Total instream volume (af)
10/31/1900	11	Irrig	50.045	Season 1 Rate / Total Volume	0.344	272.77
10/31/1900	11	Irrig	50.045	Season 2 Rate	0.459	
10/31/1900	11	Irrig	50.045	Season 3 Rate	0.850	

OR Please check this box if you are not sure of the proposed rate, volume and instream period. As part of its review process, the Department will identify the appropriate instream rate, volume and period considering the water right(s) being leased and instream benefits.

Yes N/A **Conditions to avoid enlargement or injury to other water rights, if any, or other limitations:** list here The instream flow will be allocated on a daily average basis up to the described rate from April 1 through October 26

Note: The Department may identify additional conditions to prevent injury and/or enlargement.

Any additional information about the proposed instream use: _____

Calculator for Certificate 83571

- [Main](#)
- [Help](#)
- [Return](#)
- [Contact Us](#)

Revised: 11/29/2017

This calculator is primarily designed to facilitate the calculation of how much water may be protected instream through instream leases and transfers. However, the calculator can also be used to determine the rate and duty associated with other transfers and cancellations. For questions regarding its use, please contact Laura Wilke at 503-986-0884.

Enter Total Number of Acres Involved from POD #1 (CO Canal)

Enter Total Number of Acres Involved from POD #11 (North Canal, also known as PB Canal)

Calculate

*See next page
For sum total*

Rate and duty for the acres by which the water right will be reduced by at the Point of Diversion (POD).

POD #1	October 31, 1900	December 2, 1907	Combined
Season 1 Rate (CFS)	0.619		
Season 2 Rate (CFS)	0.825		
Season 3 Rate (CFS)	1.092	0.437	1.529
Duty (AF)			490.63

POD #11	October 31, 1900	December 2, 1907	Combined
Season 1 Rate (CFS)	0.000		
Season 2 Rate (CFS)	0.000		
Season 3 Rate (CFS)	0.000	0.000	0.000
Duty (AF)			0.00

Received by OWRD
MAR 27 2018
Salem, OR

The transmission loss associated with this right is not transferable or protectable instream. The following tables show the amount of water that is protectable for Instream Leases and Instream Transfers, under the October 31, 1900 priority date. (Please contact the Department if you prefer to protect water instream under the combined October 31, 1900 and December 2, 1907 priority dates.) To prevent enlargement and injury, the instream use has been modified from the authorized season of April 1 through October 31, to April 1 through October 26.

From POD #1 to Lake Billy Chinook	
Season 1 Rate (CFS)	0.344
Season 2 Rate (CFS)	0.459
Season 3 Rate (CFS)	0.850
Maximum Volume (AF)	272.77
