Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

The applicant requested the completion date be extended to October 1, 2023 and for the Department to proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

6. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
7. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-12558.
8. The proposed change would not result in enlargement of the right.
9. The proposed change would not result in injury to other water rights.
10. All other application requirements are met.

Determination and Proposed Action

The additional points of appropriation proposed in Transfer Application T-12558 appear to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

If Transfer Application T-12558 is approved, the final order will include the following:

- 1. The additional points of appropriation proposed in Transfer Application T-12558 are approved.*
- 2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 92078 and any related decree.*
- 3. Water right Certificate 92078 is cancelled.*
- 4. The quantity of water diverted at the additional points of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.*
- 5. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
- 6. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2023**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*
- 7. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*
