Revised 8/8/2017

Part 2 of 5 - Temporary Transfer Application Map Checklist

Your temporary transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

П	⊠N/A	If more than three water rights are involved, separate maps are needed for each water right
\boxtimes		Permanent quality printed with dark ink on good quality paper.
\boxtimes		The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30×30 inch maps, one extra copy is required.
\boxtimes		A north arrow, a legend, and scale.
		The scale of the map must be: $1 \text{ inch} = 400 \text{ feet}$, $1 \text{ inch} = 1,320 \text{ feet}$, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than $1 \text{ inch} = 1,320 \text{ feet}$, or a scale that has been pre-approved by the Department.
\boxtimes		Township, Range, Section, 1/4 1/4, DLC, Government Lot, and other recognized public land survey lines.
\boxtimes		Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
		Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
		Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
		Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
	□N/A	Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
		Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
	□N/A	If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

MAY 2 3 2018

Part 3 of 5 - Fee Worksheet

	FEE WORKSHEET for TEMPORARY (not drought) TRANSFERS		
1	Base Fee (includes temporary change to one water right for up to 1 cfs)	1	\$810.00
	Number of water rights included in transfer(2a)		
	Subtract 1 from the number in 3a above: (2b) If only one water right this will		
	be 0		
2	Multiply line 2b by \$260.00 and enter » » » » » » » » » » » »	2	
	Do you propose to change the place of use for a non-irrigation use?		
	\square No: enter 0 on line 4 » » » » » » » » » » » » » » » »		
	\square Yes: enter the cfs for the portions of the rights to be transferred: (4a)		
	Subtract 1.0 from the number in 4a above:(4b)		
	If 4b is 0, enter 0 on line 4 » » » » » » » » » » » » » » » »		
	If 4b is greater than 0, round up to the nearest whole number: (4c) and		
	multiply 4c by \$200.00, then enter on line 4 (or \$0.50 if submitted in a		
3	Department approved digital format) » » » » » » » » »	4	
	Do you propose to change the place of use for an irrigation use?		
	\square No: enter 0 on line 5 » » » » » » » » » » » » » » » »		
	\square Yes: enter the number of acres for the portions of the rights to be transferred:		
	(5a)		
4	Multiply the number of acres in 5a above by \$2.30 and enter on line 5 » »	5	
5	Add entries on lines 1 through 5 above » » » » » » » » » » Subtotal:	6	
	Is this transfer:		
	☐ necessary to complete a project funded by the Oregon Watershed		
	Enhancement Board (OWEB) under ORS 541.932?		
	☐ endorsed in writing by ODFW as a change that will result in a net benefit to		
	fish and wildlife habitat?		
	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »		
6	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » »	7	
7	Subtract line 7 from line 6 » » » » » » » » » » » » » » Transfer Fee:	8	

	FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS		
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
	Enter the cfs for the portions of the rights to be transferred (see example below*):		
	1.2 (2a)		
	Subtract 1.0 from the number in 2a above: 0.2 (2b)		
	If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » »		
	If 2b is greater than 0, round up to the nearest whole number: $1 (2c)$ and		
2	multiply 2c by \$50, then enter on line 2 » » » » » » » » »	2	\$50
3	Add entries on lines 1 through 2 above » » » » » » » Transfer Fee::	3	\$250

^{*}Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

MAY 2 3 2018

^{1.} Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

^{2.} If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

^{3.} Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

INSTRUCTIONS for editing the Application Form

To add additional lines to tables within the forms or to copy and paste additional Part 5 pages, please **save the application form to your computer**. Unlock the document by using one of the following

instructions for your Microsoft Word software version:

Microsoft Word 2003

Unlock the document by one of the following:

• Using the Tools menu => click Unprotect Document; OR

• Using the Forms toolbar => click on the Protect/Unprotect icon.

To relock the document to enable the checkboxes to work, you will need to:

• Using the **Tools** menu => click **Protect Document**;

OR

• Using the Forms toolbar => click on the Protect/Unprotect icon.

Once the application has been unlocked, you may:

- add additional rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

Microsoft Word 2007

- Unlock the document by clicking the Review tab, then click Protect Document, then click Stop Protect
- To relock the document, click Editing Restrictions, then click Allow Only This Type of Editing, select Filling In Forms from the drop-down menu, then check Yes, Start Enforcing Protection.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab; toggle the **Restrict Editing icon** at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the "**Allow only this type of editing** in the document: **Filling in forms**" in the "Editing restrictions" section on the right-hand list of options.
- To relock the document, check the Editing Restrictions/Allow Only This Type of Editing/Filling In
 Forms box from the drop-down menu, then check Yes, Start Enforcing Protection. You do not need
 to assign a password for the editing restrictions.

 RECEIVED

MAY 2 3 2018

Other Alternatives:

- Photocopy pages or tables in Part 5, -mark-through any non-applicable information, insert/attach
 photocopied pages to document in the appropriate location, and manually amend page numbers as
 necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

Part 5 of 5 - Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

Description of Water Delivery System

Certificate No. 25341

System capacity: ≥1.2 cubic feet per second (cfs) OR

____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. Water is diverted from either Berry or Canyon Creeks at either one of the three diversions on Berry Creek or a location on Canyon Creek. Water is conveyed through either an open ditch or gravity pressurized pipe and applied to the field via laterals or risers.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

Additional remarks:

Temporary Transfer Application – Page 9 of 16 Revised 8/8/2017

TACS

For Place of Use Changes

of the of ose changes	
Are there other water right certificates, water use permits or ground water registrations with the "from" or the "to" lands? \boxtimes Yes \square No	associated
If YES, list the certificate, water use permit, or ground water registration numbers: 769	2 &17312
Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is su to a primary right proposed for temporary transfer can be included in the transfer or remunused on the authorized place of use. If the primary water right does not revert soon eallow use of the supplemental right within five years, the supplemental right shall become	main enough to
to cancellation for nonuse under ORS 540-610	me saejeet

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if necessary to convey the water to the new temporary place of use:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and
associated with the corresponding well(s) in Table 1 above and on the accompanying
application map. (Tip: You may search for well logs on the Department's web page at:
http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells
that do not have a well log. For proposed wells not yet constructed or built, provide "a best
estimate" for each requested information element in the table. The Department recommends
you consult a licensed well driller, geologist, or certified water right examiner to assist with
assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? For Place of Use or Character of Use Changes

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if necessary to convey the water to the new temporary place of use:
Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540-610.
If YES, list the certificate, water use permit, or ground water registration numbers: 25431.
Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ⊠ Yes □ No
or rance or each or earmened or each entanger

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (**Tip**: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Additional remarks: There are several issues with this water right. The Final Proof Survey (FPS) indicates the basis for properly locating the irrigated lands was a fence intersection described on the map with the statement "said to be cor". A review of historic aerial photos depicts what is likely the fence intersection referenced to be well north of any PLS corner. Additionally, the overall shape of the irrigated field as depicted in the FPS does not match the topographical characteristics of the land or irrigation system; this determination was made based on a review of aerial photos, historic maps and LiDAR data. However, when the field is shifted to the north by aligning the mapped fence intersection with the historic fence intersection depicted on the aerial photo, the FPS better matches the terrain and irrigation system. We feel the location of the 1.8 acres of irrigation is accurately depicted in our "From" Lands map.

The second issue with the water right is the location of the Point of Diversion (POD). The FPS depicts the POD at the exit of a drain and dam from an upper ditch which conveys water from Canyon Creek. Since this is an irrigation right with Canyon Creek as the source, the proper POD description needs to reflect the location where water is diverted from the stream. The authorized POD for the "upper ditch" is the same as Certificate Nos 25431 and 7692; this transfer application and map reference the POD description for the Canyon Creek Ditch.

Information used to aid in these determinations includes a copy of the file information associated with Certificate No. 17372 provide by OWRD Salem, historic aerial photos from 1939, 1956, 1957, 1962 and 1976, the John Day Adjudication Map and LiDAR flown Fall, 2015. These findings were discussed with Eric Julsrud, Canyon City Watermaster who agreed with the reasoning based on the information gathered.
