Authority

Oregon Revised Statutes (ORS) 537.610, 537.705 and 540.505 to 540.580 establish the process in which the holder of a certificate of registration may submit a request for recognition of modifications to the place of use, character of use or point of appropriation under a ground water certificate of registration.

Oregon Administrative Rules (OAR) Chapter 690, Divisions 382 and 380 implement the statutes and provide the Department's procedures and criteria for evaluating ground water registration modification applications.

Applicant

LINDA DAVIS
5237 CHAPMAN ST S
SALEM, OR 97306

Findings of Fact

1. On January 9, 2017, LINDA DAVIS filed a ground water registration modification application for an additional point of appropriation under Registration Application GR-3708 (Certificate of Registration GR-3834). The Department assigned the application number T-12562
2. On January 17, 2017, Registration Application GR-3708 (Certificate of Registration GR-3834) was partially assigned from Donna Barlow to Linda Davis.
3. Notice of the application for ground water registration modification was published on January 24, 2017, pursuant to OAR 690-382-0600. No comments were filed in response to the notice.

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

- On June 4, 2018, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-12562 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of July 5, 2018, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer

Review Criteria for Ground Water Registration Modification Applications [OAR 690-382-0700(2)]

- The proposed modification would not result in enlargement of the ground water registration.
- The proposed modification would not result in a state Scenic Waterway not receiving previously available water during periods in which streamflows are less than the quantities determined by the Department to be necessary to meet the requirements of ORS 390.835.

9. The proposed modification would not result in injury to other water rights.

Determination and Proposed Action

The additional point of appropriation proposed in Ground Water Registration Modification T-12562 appears to be consistent with the requirements of ORS 537.610, 537.705, 540.505 to 540.580 and OAR 690-382-1000. If protests are not filed pursuant to OAR 690-382-0900, the modification will be approved.

If Ground Water Registration Modification T-12562 is approved, the final order will include the following:

1. *The modification to Registration Application GR-3708 (Certificate of Registration GR-3834) proposed in Ground Water Registration Modification Application T-12562 is recognized. Recognition of the modification shall not be construed as a final determination of the right to appropriate ground water under the certificate of registration or modification. Such a determination will occur in an adjudication proceeding under ORS 537.670 to 537.695.*
2. *The use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Registration Application GR-3708 (Certificate of Registration GR-3834) and any related decree.*
3. *Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
4. *The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.*

5. *Water use measurement conditions:*

- a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation.*
- b. *The water user shall maintain the meters or measuring devices in good working order.*
- c. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
