Application for Water Right Instream Transfer

Part 1 of 6 – Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 6 and all required attachments are not completed and included.
 For questions, please call (503) 986-0900, and ask for Transfer Section.

FOR ALL INSTREAM TRANSFER APPLICATIONS

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator. If you have questions, call Customer Service at (503) 986-0801.
 Note: Instream transfers are considered both a change in place of use and character of use. In addition, an automatic 50% fee waiver applies to all instream transfers.
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Completed Instream Use Information.
- Part 6 – Information about the Transferred Water Rights: **How many water rights are to be transferred? 13 List them here: 93513, 93515, 93517, 93519, 93523, 93525, 93527, 93531, 93536, 62054, 93533, 81507, 11642**
 Please include a separate Part 6 for each water right. (See instructions on page 8)

Attachments:

- Completed Instream Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- Land Use Notice - Notice of the intent to file an instream transfer application must be provided to each affected local government along the proposed reach. Copies of the notices must be enclosed with the instream transfer application.

(For Staff Use Only)

WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):

___ Application fee not enclosed/insufficient	___ Map not included or incomplete
___ Land Use Form not enclosed or incomplete	___ Part ___ is incomplete
Other/Explanation _____	
Staff: _____ 503-986-0 _____	Date: ___ / ___ / _____

Part 2 of 6 – Map Checklist

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For list of CWREs see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/.
- OR**
- N/A Waiver of requirement that map be prepared by a CWRE. Completed map waiver form is signed by the Department's Regional Manager and included in the application. The map **must** still meet Department mapping requirements described below.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, quarter-quarter, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- Existing diversion point(s) with distance and bearing or coordinates from a recognized survey corner. This information can generally be found in your water right certificate or permit.

Part 3 of 6 – Fee Worksheet

FEE WORKSHEET for INSTREAM TRANSFER			
1	Base Fee (includes Place of Use and Character of Use to Instream changes to one water right for up to 1 cfs)	1	\$2,090
2	Number of water rights included in transfer <u>11 (2a)</u> Subtract 1 from the number in 2a above: <u>10 (2b)</u> <i>If only one water right, this will be 0</i> Multiply line 2b by \$520 and enter » » » » » » » » » » » » » »	2	\$5,200
3	Enter the cfs for the portions of the rights to be transferred (see example below*): <u>2.58 (3a)</u> Subtract 1.0 from the number in 3a above: <u>1.58 (3b)</u> If 3b is 0, enter 0 on line 3 » » » » » » » » » » » » » » » » If 3b is greater than 0, round up to the nearest whole number: <u>2 (3c)</u> and multiply 3c by \$350, then enter on line 3 » » » » » » » » » »	3	\$700
4	Add entries on lines 1 through 3 above » » » » » » » » » » Subtotal:	4	\$7,990
5	Multiply line 4 by 0.5 and enter on line 5 » » » » » » » » » » » » » »	5	\$3,995
6	Subtract line 5 from line 4 » » » » » » » » » » » » » » Transfer Fee:	6	\$3,995

*Example for Line 3a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each water right involved as follows:
 - a. Divide total authorized cfs by total acres in the water right (for C12345, $1.25 \text{ cfs} \div 100 \text{ ac}$); then multiply by the number of acres to be transferred to get the transfer cfs ($\times 45 \text{ ac} = 0.56 \text{ cfs}$).
 - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, $45.0 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$)
2. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land.** The fee should be assessed only once for each “on the ground” acre included in the transfer. (In this example, blank 3a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 3b would be 0 and Line 3 would then also become 0).

Part 4 of 6 – Applicant Information and Signature

Is this a **Permanent Instream Transfer** or **Time-Limited Instream Transfer?**

Applicant Information

APPLICANT/BUSINESS NAME Woody and Megan Wolfe		PHONE NO. 541-263-0802	ADDITIONAL CONTACT NO.
ADDRESS 81544 Hwy 82		FAX NO.	
CITY Wallowa	STATE OR	ZIP 97885	E-MAIL woodywolfe@yahoo.com
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

Agent Information – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME The Freshwater Trust		PHONE NO. 503-222-9091	ADDITIONAL CONTACT NO. Jessica Humphreys (541) 913-3750
ADDRESS 700 SW Taylor Street, Suite #200		FAX NO.	
CITY Portland	STATE OR	ZIP 97205	E-MAIL jessica@thefreshwatertrust.org
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

Explain in your own words what you propose to accomplish with this transfer application, and why: This transfer will accomplish several goals that are consistent with the conservation, maintenance, and enhancement of aquatic and fish life, wildlife, fish and wildlife habitat, and other ecological values, including: (1) supporting aquatic habitat; (2) increasing streamflow to support juvenile salmonid rearing and outmigration; (3) increasing streamflow to support adult salmonid passage; and (4) reducing water temperatures that are lethal to salmonids. Applicant proposes to accomplish these goals because applicant wants to help improve the aquatic ecosystem of the Lostine and Wallowa Rivers.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

Check one box

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); **OR**
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**
- I affirm that the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

I understand that prior to Department approval of the transfer, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: _____

I (we) affirm that the information contained in this application is true and accurate.

TOTAL VOLUME					1,216.85

*Tip: To calculate rate (if other than the rate allowed by the right), divide the volume by the number of days in the period and then divide by 1.983471; or

**Tip: To calculate volume, multiply the rate by the number of days in the instream period and then multiply by 1.983471.

RECEIVED

JUL 10 2018

Note: The instream rate may not exceed the max rate allowed by the existing right(s) and the total volume may not exceed to max volume or duty allowed by the existing right(s).

Additional Information: _____.

Identify the location of the proposed instream water right.

- Water is requested to be protected at a point.
Location (i.e. the point of diversion (POD) – use the POD Name or Number from Table 1): _____.
- Water is requested to be protected within a reach:
Location of proposed reach (If an instream water right reach is requested, identify the upstream and downstream extent of the reach):

93513, 93515, 93517, 11642, 81507: from Clearwater Ditch to mouth of the Wallowa River;

93519, 93527, 81507: from Foster Ditch to mouth of the Wallowa River;

93523, 93531, 81507: from Tully Hill Ditch to mouth of the Wallowa River;

93525(1882), 11642, 81507: from the Miles Ditch to the mouth of the Wallowa River;

93525(1896), 11642, 81507: from the Miles Magill Ditch to the mouth of the Wallowa River;

93536, 81507: from the Westside Ditch to the mouth of the Wallowa River

62054: from POD located at 1N 43E Section 19 SE-NE to the mouth of the Wallowa River

Recommendations for conditions on the instream use to avoid taking away or impairing existing water rights.

- None
- Other (such conditions may include, but are not limited to, reductions in the instream flow levels in cfs per month or total ac-ft, the effective reach(es) or lake levels of the instream flow, measuring locations and the strategy for monitoring the instream flow or lake levels): _____.

RECEIVED

JUL 10 2018

OWRD
Revised 7/1/2017

Are there any existing instream water rights on the same point or within the same requested reach(es) or lake, or on a portion thereof?

No Yes (identify other instream water rights): 59814, 87709, 73023, 59808, 93535.

Note: New instream water rights are generally (but not always) additive to instream water rights established under ORS 537.348 (instream transfer application process) and ORS 537.470 (allocation of conserved water) and replace a portion of instream water rights established under ORS 537.341 (state agency application process) or ORS 537.346 (conversion of minimum perennial streamflows) with an earlier priority date.

Is it your intent to have the proposed instream water right transfer be additive to any instream water right established under ORS 537.348 and ORS 537.470 and replace a portion of any instream water right established under ORS 537.341 and ORS 537.346 with an earlier priority date?

Yes No. If no, please explain your intent below:

_____.

If the proposed conversion would add to the amounts of an existing instream water right(s) established under ORS 537.341 or 537.346, provide documentation demonstrating why additional instream flows are necessary. Supporting documentation should include information from the Oregon Dept. of Fish and Wildlife (ODFW) (fish life), Dept. of Environmental Quality (DEQ) (pollution abatement), and/or Parks and Recreation Dept. (recreation).

Is the requested instream flow intended to exceed the estimated average natural flow or level occurring from the drainage system?

No; OR

Yes (Provide supporting documentation that demonstrates why additional flows are significant for the public use requested.); OR

Yes, and it is presumed that flows that exceed the estimated average natural flow or natural lake levels are significant because:

The requested flow does not exceed the maximum amount of any instream water right application applied for under ORS 537.341 (state agency instream water right application process) for the same reach or portion thereof, and the requested public use is for the same public use as the afore mentioned instream water right application, and

For the specified time period that flows are requested to exceed the estimated average natural flow or lake level, the stream is in an ODFW flow restoration priority watershed. A copy of the priority watershed map indicating the specific watershed involved should be included with the application. Priority watershed maps may be found on the OWRD web page; or

The stream is listed as water quality limited and DEQ has provided scientific information that demonstrates that increased flows would improve water quality. The scientific information provided by DEQ should be included with the transfer application.

For a Time Limited Instream Transfer, please answer the following:

The time-limited instream transfer is for a specific number of years:

_____ Begin Year to _____ End Year

Time-limited instream transfer is to terminate based upon other conditions:

Conditions: _____.

INSTRUCTIONS for editing the Application Form

To add additional lines to tables within the forms or to copy and paste additional Part 6 pages, please **save the application form to your computer**. Unlock the document by using one of the following instructions for your Microsoft Word software version:

Microsoft Word 2003

Unlock the document by one of the following:

- Using the **Tools** menu => click **Unprotect Document**;
- OR**
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the **Tools** menu => click **Protect Document**;
- OR**
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

Microsoft Word 2007

- Unlock the document by clicking the **Review** tab, then click **Protect Document**, then click **Stop Protect**
- To relock the document, click **Editing Restrictions**, then click **Allow Only This Type of Editing**, select **Filling In Forms** from the drop-down menu, then check **Yes, Start Enforcing Protection**.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab, toggle the **Restrict Editing** icon at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the “**Allow only this type of editing in the document: Filling in forms**” in the “**Editing restrictions**” section on the right-hand list of options.
- To relock the document, check the **Editing Restrictions/Allow Only This Type of Editing/Filling In Forms** box from the drop-down menu, then check **Yes, Start Enforcing Protection**. You do not need to assign a password for the editing restrictions.

Other Alternatives:

- Photocopy pages or tables in Part 6, ~~mark through~~ any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

Once the application has been unlocked, you may:

- add additional rows to tables using the **Table** tools, and
- select and copy the pages of Part 6 and paste as many additional sets of Part 6 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

Part 6 of 6 – Water Right Information

Please use a separate Part 6 for each water right being changed. See instructions on page 8, to copy and paste additional Part 6s, or to add additional rows to tables within the form.

CERTIFICATE # 93513

Name on Certificate: H.E. Driver

Date(s) of Priority: 1883

Source(s) of Water to be Affected by the Transfer: Lostine River

Description of Water Delivery System

System capacity: 55 cubic feet per second (cfs) OR
 _____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Water is diverted from the Lostine River and conveyed via the Clearwater Canal, an open, earthen ditch to gravity fed laterals. A 40HP pump with a capacity of 1000gpm pressurizes water for hand wheel and hand lines irrigating a portion on the water right. The remainder of the acres under Certificate 3012 included in the transfer application are flood irrigated. A series of lateral ditches deliver water to lands which are flood irrigated. Sprinklers have been in place for approximately 8 years. Prior all acres were flood irrigated.

Other Water Rights

Are there other water right certificates, water use permits or ground water registrations associated with the “from” lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: 11642 and 81507.

Pursuant to ORS 540.510, any “layered” water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

Table 1. Location of Authorized Point(s) of Diversion (POD)

(Note: If the POD name is not specified on the certificate, assign it a name or number here. Also, if the POD is not described in the Certificate, provide a description below)

POD Name or Number	Priority Date (if different between PODs)	Twp		Rng		Sec	¼ ¼		Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
Clearwater Ditch		1	N	43	E	33	SW	SW		1283 feet north and 313 feet east from the SW corner of section 33

RECEIVED

Will the proposed instream transfer affect the entire water right?

JUL 10 2018

Please use additional pages of Table 2 as needed. See page 8 for instructions. If you have further questions about how to fill out the tables, contact the Department at 503-986-0900 and ask for Transfer Staff.

Table 2. Description of Change to Water Right Certificate # 93513

List only the part of the right that will be changed. If more than one POD serves the lands, specify the acreage associated with each POD.

Twp	Rng	Sec	¼ ¼		Tax Lot	Gov't Lot or DLC	Acres if Applicable	Type of USE listed on Certificate	Priority Date (if not the same for all acres or type of use)	POD(s) (name or number from Table 1)

Revised 7/1/2017

CERTIFICATE # 93515

Name on Certificate: Clearwater Ditch Company

Date(s) of Priority: May 1897

Source(s) of Water to be Affected by the Transfer: Lostine River

Description of Water Delivery System

System capacity: 55 cubic feet per second (cfs) OR
 _____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. **Water is diverted from the Lostine River and conveyed via the Clearwater Canal, an open, earthen ditch to gravity fed laterals. A series of lateral ditches deliver water to lands that are flood irrigated.**

Other Water Rights

Are there other water right certificates, water use permits or ground water registrations associated with the "from" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: **11642 and 81507.**

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

Table 1. Location of Authorized Point(s) of Diversion (POD)

(Note: If the POD name is not specified on the certificate, assign it a name or number here.

Also, if the POD is not described in the Certificate, provide a description below)

POD Name or Number	Priority Date (if different between PODs)	Twp		Rng		Sec	¼ ¼		Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
Clearwater Ditch		1	N	43	E	33	SW	SW		1283 feet north and 313 feet east from the SW corner of section 33

Will the proposed instream transfer affect the entire water right?

Yes Then Table 2 on Page 10 does not need to be completed.

No Then complete all of Table 2 to describe the portion of the water right to be changed.

CERTIFICATE # 93525

Name on Certificate: S.W. Miles

Date(s) of Priority: 1882, 1896

Source(s) of Water to be Affected by the Transfer: Lostine River

Description of Water Delivery System

System capacity: 25 cubic feet per second (cfs) OR

_____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Water is diverted from the Lostine River and conveyed via the Miles Canal, an open, earthen ditch to gravity fed laterals. A screened floating pump with a capacity of 1200gpm pressurizes water for hand wheel and hand lines irrigating a portion on the water right. The remainder of the acres under Certificate 93525 included in the transfer application are flood irrigated. A series of lateral ditches deliver water to lands which are flood irrigated. Sprinklers have been in place for approximately 8 years. Prior all acres were flood irrigated. The landowner still has the infrastructure in place to flood irrigate all acres, including those under sprinkler with the total allowable duty.

Other Water Rights

Are there other water right certificates, water use permits or ground water registrations associated with the "from" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: 11642 and 81507.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

Other Water Rights

Are there other water right certificates, water use permits or ground water registrations associated with the "from" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: _____.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

Table 1. Location of Authorized Point(s) of Diversion (POD)

(Note: If the POD name is not specified on the certificate, assign it a name or number here. Also, if the POD is not described in the Certificate, provide a description below)

POD Name or Number	Priority Date (if different between PODs)	Twp		Rng		Sec	¼ ¼		Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
1		1	N	43	E	19	SE	NE		3200 feet north and 920 feet west from SE corner of Section 19.

Will the proposed instream transfer affect the entire water right?

Yes Then Table 2 on Page 10 does not need to be completed.

No Then complete all of Table 2 to describe the portion of the water right to be changed.

CERTIFICATE # 93533

Name on Certificate: Wolfe Hereford Ranch, WTK, Inc.

Date(s) of Priority: March 7, 1901

Source(s) of Water to be Affected by the Transfer: Lostine River

Description of Water Delivery System

System capacity: 18 cubic feet per second (cfs) OR
 _____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Water is diverted from the Lostine River and conveyed via the Tulley Hill Canal, an open, earthen ditch, to gravity fed laterals. A series of lateral ditches deliver water to lands which are flood irrigated

Other Water Rights

Are there other water right certificates, water use permits or ground water registrations associated with the "from" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: _____.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

Table 1. Location of Authorized Point(s) of Diversion (POD)

(Note: If the POD name is not specified on the certificate, assign it a name or number here. Also, if the POD is not described in the Certificate, provide a description below)

CERTIFICATE # 11642

Name on Certificate: Cross Country Canal Co.

Date(s) of Priority: June 6, 1935

Source(s) of Water to be Affected by the Transfer: Wallowa River

Description of Water Delivery System

System capacity: 88.63 cubic feet per second (cfs) OR
 _____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Water is diverted from the Wallowa River and conveyed via the Cross Country Canal to the Lostine River where it is distributed via multiple ditches to land in the lower Lostine and Bear creek. Water is applied to land via flood, sprinklers and pivots.

Other Water Rights

Are there other water right certificates, water use permits or ground water registrations associated with the "from" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: _____.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. CERTIFICATE # 81507

Name on Certificate: Minam Lake Reservoir Co.

Date(s) of Priority: May 29, 1916

Source(s) of Water to be Affected by the Transfer: Minam Lake

Description of Water Delivery System

System capacity: 34.67 cubic feet per second (cfs) OR
 _____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. **Water is released from the Minam Lake Reservoir and conveyed via the Lostine River to multiple ditches. Water is then distributed via lateral ditches and applied to lands via flood, sprinkler and pivots.**

Other Water Rights

Are there other water right certificates, water use permits or ground water registrations associated with the "from" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: _____.
