Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Findings of Fact

1. On September 18, 2017, Bradford and Sarah Perron filed an application to change the place of use under Certificate 77042. The Department assigned the application number T-12748.
2. Notice of the application for transfer was published on September 26, 2017, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On March 16, 2018, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-12748 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of April 15, 2018, for the applicant to respond. On April 12, 2018, the agent for the applicant submitted a new revised map and associated revised Tables 1 and 2 of the application, withdrawing the request for the transfer of the domestic use from a spring. The agent for the applicant also requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

4. The portion of the right to be transferred is as follows:

Transfer Review Criteria [OAR 690-380-4010(2)]

6. Water has been used within the five-year period prior to submittal of the transfer application according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
7. A diversion structure and ditch sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-12748.
8. The proposed change would not result in enlargement of the right.
9. The proposed change would not result in injury to other water rights.
10. All other application requirements are met.

Determination and Proposed Action

The change in place of use proposed in Transfer Application T-12748 appears to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

If Transfer Application T-12748 is approved, the final order will include the following:

- 1. The change in place of use proposed in Transfer Application T-12748 is approved.*
- 2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 77042 and any related decree.*
- 3. Water right Certificate 77042 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.*
- 4. The former place of use of the transferred right shall no longer receive water under the right.*
- 5. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2019**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*
- 6. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*

SUBJECT: Water Right Transfer Application T-12748

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-12748. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me at 503-986-0886 or Patrick.K.Starnes@oregon.gov if I may be of assistance.

Sincerely,

Kelly Starnes
