RE: Transfer File T-13030
Application File U-147
City of Prineville – Certificate 86558
Transfer Application Modification

Dear Lisa,

The City of Prineville (City) submitted a transfer application on September 17, 2018 to add points of appropriation to and change the place of use for Certificate 86558. The Oregon Water Resources Department (OWRD) assigned transfer # T-13030 to the City's application.

The City would like to modify the application by updating the location descriptions of two proposed points of appropriation. The Industrial Park Well was recently constructed at a slightly different location than initially proposed. The New Ochoco Heights Well location has also been updated. For both proposed well locations, the tax lot has not changed.

Additionally, page 7 of the application has been updated to correct the omission of the Juniper Well from Table 2

Please find attached to this letter the revised pages of the application that include the requested modifications (the revised portions of the pages are highlighted in yellow). Please swap out these new pages for those in the original application. In addition, I have included updated transfer application maps (Attachment A) with the updated location description of the two POAs.

If you have any questions about the enclosed materials, please contact me at 541-257-9005.

Sincerely,

A handwritten signature in black ink that reads "Owen McMurtrey".

Owen McMurtrey

Subject: RE: Map Scale Waiver Request - Transfer Application for City of Prineville
Date: Wednesday, August 22, 2018 2:52:08 PM

Hi Owen –

The Department has reviewed the attached transfer application maps and grants a map waiver for them. Please include a copy of this e-mail with the transfer application when it is submitted.

Sincerely,

Kelly

Subject: Map Scale Waiver Request - Transfer Application for City of Prineville

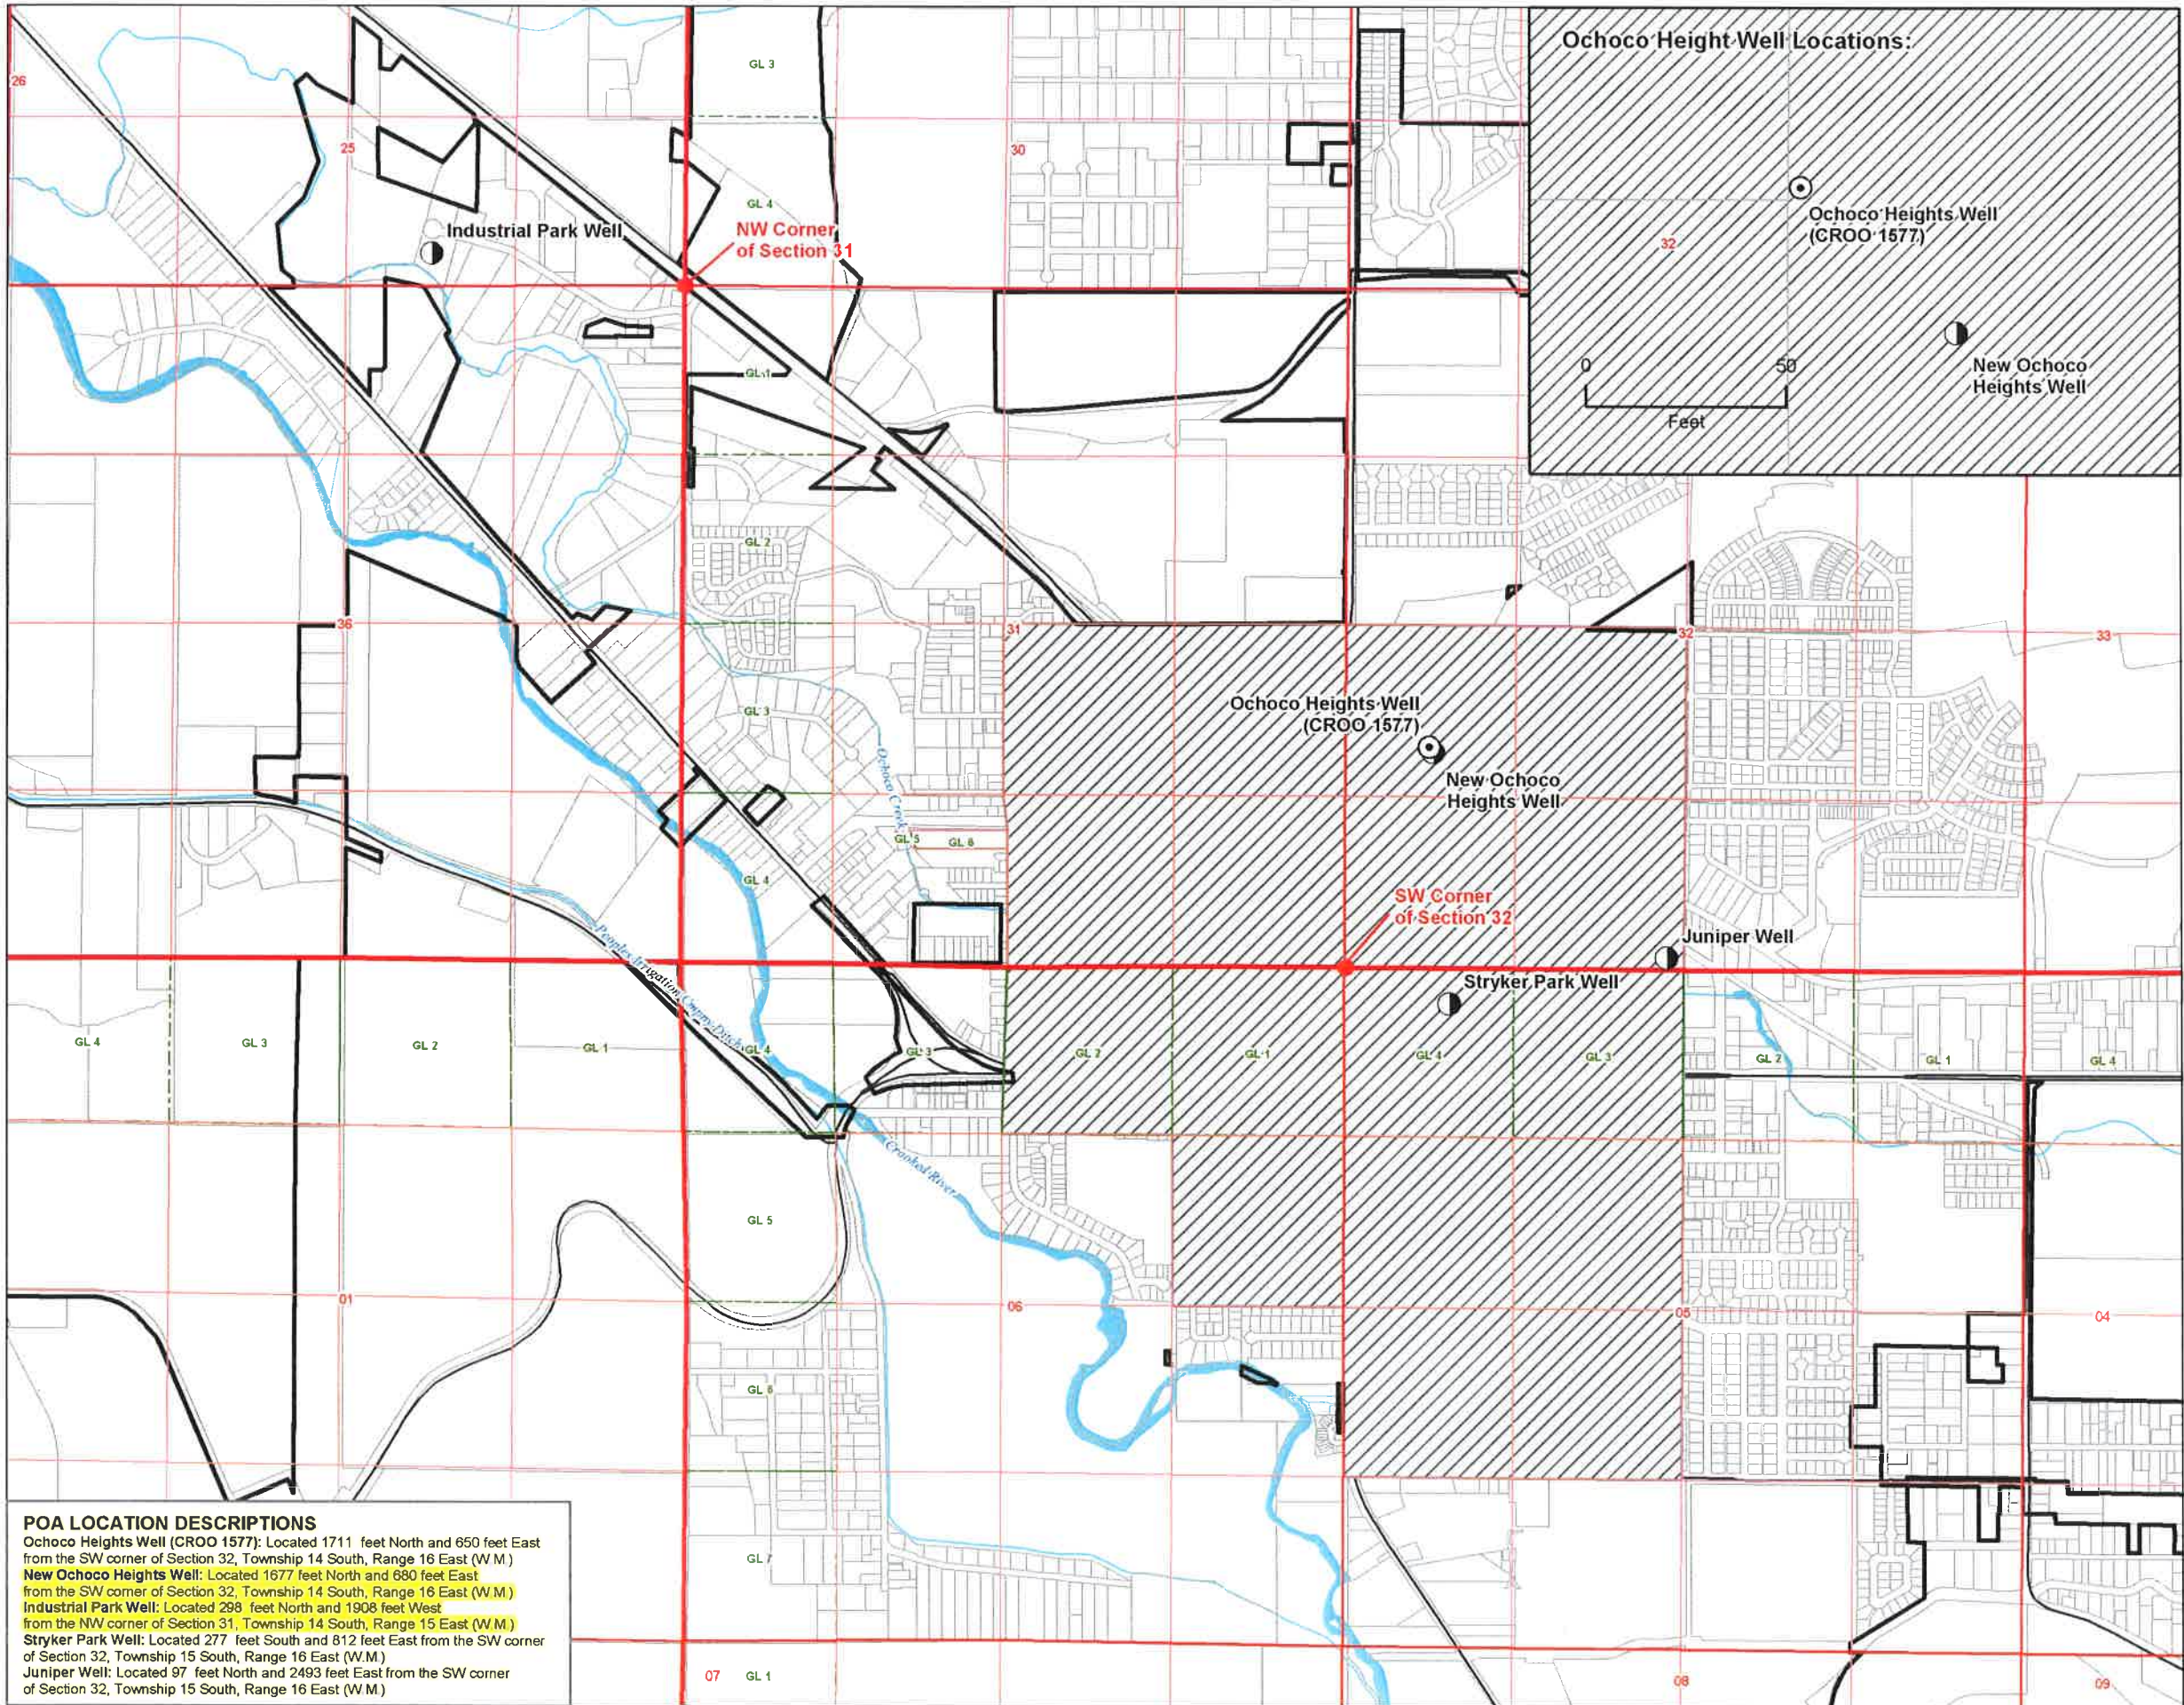

Hi Kelly,

I'm putting together a permit amendment application for the City of Prineville's Certificate 86558. The City is requesting to change the place of use to the City service area boundary. Will the Department grant a map scale waiver?

The points of appropriation and authorized place of use will be shown on a separate map with a 1" = 1320' scale, which I've also attached.

Thanks,

Owen McMurtrey
