RE: Permit Amendment File T-12796
Application File S-39480
City of Waldport – Permit S-30624
Permit Amendment Application Modification

Dear Joan,

The City of Waldport (City) submitted a permit amendment application on December 19, 2017 to change the Point of Diversion and Place of Use for Permit S-30624. The Oregon Water Resources Department (OWRD) assigned transfer # T-12796 to the City's application.

The City would like to modify the application by correcting the location description for the Proposed Point of Diversion. OWRD's initial review of the permit amendment application revealed the location description on the POD map did not correctly reflect the Proposed Point of Diversion location. The location description has been corrected and attached along with page 6 of the application has been updated to include the correct location description.

Please find attached to this letter the revised pages of the application that include the requested modifications (the revised portions of the pages are highlighted in yellow). Please swap out these new pages for those in the original application. In addition, I have included an updated permit amendment map (Attachment B) with the updated location description of the Proposed Point of Diversion

If you have any questions about the enclosed materials, please contact me at 541-257-9001.

Sincerely,

A handwritten signature in black ink, appearing to read "Adam Sussman".
