How many Water Rights are included in the lease application? _____ (# of rights)

List each water right to be leased instream here: 83571

Yes N/A Other water rights, if any, appurtenant to the lands involved in the lease application and not proposed to be leased instream.

List those other water rights here: 76714

Yes No Conservation Reserve Enhancement Program CREP – Are some or all of the lands to be leased part of CREP or another Federal program (list here: _____)?

Required Attachments:

Yes N/A Instream lease application map(s). More than one QQ and property may be included on each map. A map is **not** required if an entire right is being leased or if the right is for use of municipal or quasi-municipal water use. The map should include the following:

- A north arrow and map scale (no smaller than 1" = 1320').
- Label township, range, section and quarter-quarter (QQ).
- If an irrigation right, the numbers of acres to be leased in each quarter-quarter identify and hachure/shade to differentiate between the acreage being leased and any remaining. If the place of use has more than one priority date, source stream, and/or point of diversion you **must identify each with separate hachuring or shading and label.**
- Tax lot lines and numbers must be included on the map and should clearly identify the property(s) involved.

Yes N/A If the Lessor(s) is **not** the deeded land owner, include one of the following:

- A notarized statement from the land owner consenting to the lease and a copy of the recorded deed; or
- A water right conveyance agreement and a copy of the recorded deed for the landowner at the time the water right was conveyed; or
- Other documentation.

Yes N/A If the right has **not** been used in the last five years; provide supporting documentation indicating why a right (or portion thereof) is **not** subject to forfeiture.

Part 2 of 4 – District and other party Signature

Term of the Lease: The lease is requested to begin in: <u>month April year 2019</u> and end: <u>month October year 2019</u> .	
Public use: Check the public use(s) this lease will serve (as defined by ORS 537.332): <input checked="" type="checkbox"/> Conservation, maintenance and enhancement of aquatic, fish and wildlife, fish and wildlife habitat and any other ecological values. <input checked="" type="checkbox"/> Recreation <input checked="" type="checkbox"/> Pollution abatement <input type="checkbox"/> Navigation	Termination provision (for multiyear leases): The parties to the lease request (choose one): <input type="checkbox"/> a. The option of terminating the lease prior to expiration of the full term with written notice to the Department by the Lessor(s) and/or Lessee. <input type="checkbox"/> b. The option of terminating the lease prior to expiration of the full term, with consent by all parties to the lease. <input checked="" type="checkbox"/> c. The parties would not like to include a Termination Provision. (See instructions for limitations to this provision)
Additive/Replacing Relationship to other instream water rights: Instream leases are generally additive to other existing instream water rights created as a result of instream leases and transfers and/or allocations of conserved water. Since instream leases are also generally senior to other instream rights created through a state agency process or conversion of minimum flows, they generally replace a portion of these junior instream rights. If you would like this lease to relate to other instream water rights differently than described above, please check this box. <input type="checkbox"/> And attach an explanation of your intent.	
Precedent: If a right which has been leased is later proposed to be leased again or later transferred or become part of an allocation of conserved water project, a new injury review shall be required. An instream lease shall not set a precedent on a future transaction.	
Validity of the rights to be leased: <input checked="" type="checkbox"/> The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last five years or have been leased instream; or <input type="checkbox"/> The water right(s) have not been used for the last five years according to the terms and conditions of the rights. However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right is not subject to forfeiture has been provided.

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. It is the landowner's responsibility to know their tax assessment status and qualifying uses.
